

BUTTER ADVANCE MAY PUT BRAKE ON CONSUMPTION

PORTLAND, Ore., Sept. 23.—(AP) Latest advances in the price of butter, while justified fully by current supply and demand, appear to have stretched the value to near the point where consumption will be eased off somewhat. While prevailing prices on butter are still considerably below a year ago and even the normal for this period, the fact appears that even now there is an increasing call for so-called substitutes.

Market for butterfat is again a tangle mixed with some of the centralizers still determined to lose every cent of profit in manufacturers. Trading conditions in the local egg market are again without general price change.

Live chicken prices are ruling generally unchanged in the local market. Extreme weakness is reflected in the market for apples, both at the source and at eastern points. Little f.o.b. business has recently been confirmed at primary points.

There are greater arrivals of today grapes out of the Grants Pass section. Some are being quoted weak at \$1.25 while others are firm up to \$1.75 crate or lug.

Market for country-killed meats is without quotable change for the day. Slicing cucumbers are less plentiful with prices higher by a fraction of so.

Both onion and potato trade very quiet.

Markets

Portland Wheat

PORTLAND, Sept. 23.—(AP)—Cattle 50, calves 10; quotably steady. Hogs 100; steady.

Wheat:				
	Open	High	Low	Close

JENKINS' COMMENT

(Continued from Page One)

much in an hour as the weavers of 100 years ago earned in a week.

THE cotton gin displaced the labor of those who before its invention picked the seeds out of the cotton by hand. The linotype machine displaced, temporarily, the printers who had previously set type by hand.

But neither the cotton gin nor the linotype machine DESTROYED PROSPERITY. Greater prosperity followed both of these machines than had ever been known before.

BEFORE this writer's eyes is a chart showing business activity clear back to 1872. It is a constant succession of ups and downs—of peaks and valleys.

If we had sufficient business records, which we have not, a similar chart could be drawn showing business activity for centuries back. And if we COULD draw such a chart, it too, would show a constant succession of ups and downs.

Business activity, in the past, has

RAILS LEAD GAIN IN SHARE PRICES ON GOOD UPTURN

LONDON, Sept. 23.—(AP)—A confident tone prevailed on the London stock exchange this afternoon resulting from a gradual influx of buying orders and the absence of big selling.

VALLEY BRANCH OF MUSIC ASSN. PLAN AT LUNCH

Twenty-five representatives from Medford, Ashland and other parts of the county, attended a luncheon at the Hotel Medford today, when final plans were made for forming a branch of the National Civic Music Association in southern Oregon.

Miss Goode, national organizer, who several months ago started the local organization, was present and again outlined the plans of the association, laying particular stress upon the fact that it was an invitational project, not a promotion one. Only members of the association being admitted only on invitation of the board of directors.

FARMER SUICIDES NEAR VANCOUVER

VANCOUVER, Wash., Sept. 23.—(AP)—With a bullet through the mouth, the body of Ernest E. Walther, 26, was found on the Walther farm near here last night. The body was found by the youth's mother, Mrs. George Bulan, who lives nearby. A note indicated Walther had killed himself, police said.

The note said, "Making a raid is a putup job. So they won't get me alive."

Officers said they had no idea as to the meaning of the note, as Walther was not known to have been a lawbreaker, and no raid against him was contemplated.

MONEY QUESTION CAMPAIGN ISSUE

SPOKANE, Wash., Sept. 23.—(AP)—Senator William E. Borah of Idaho, expressed the opinion last night that if an international money conference is not called "the money question will be one of the issues of the next presidential campaign."

"If the flow of gold should continue," he added, "in the next five years in the way it has for the last five, the United States and France would have from 85 to 95 per cent of the world's gold. The rest of the world would have less than 15 cents per capita with which to do business. We should be rich in gold, but bankrupt in markets for our goods and the products of our farms."

Rogue River Woman Falls From Ladder

A fall from a ladder resulted in a fractured pelvis for Mrs. E. T. Hall of Rogue River, who was taken to Grants Pass Tuesday in an ambulance for physician's treatment. Mrs. Hall was picking fruit in the Hall orchard, and in some manner slipped from the ladder on which she was standing.

NEIGHBORS' ROW DISMISSED FROM TAYLOR'S COURT

The assault and battery charge against Walter Holmes, preferred by his neighbor, Frank Hill, growing out of a dispute about the accidental shooting of a cow last week, and also as a result of which Holmes was arrested on a charge of unlawfully hunting deer, was dismissed in Judge Taylor's court here after the court had heard the testimony of both families and decided that it was a neighborhood row, and both families had promised to keep the peace from now on.

STEINER ADDRESSES SO. OREGON BANKERS

The Southern Oregon Bankers association held their regular monthly meeting at Ashland last night, and listened to an address by Senator Frederick Steiner on general conditions, and a talk by Miss Mary Klem on "Teeth."

Senator Steiner spent two hours in Ashland, en route to Klamath Falls where he will deliver an address to the Chamber of Commerce tonight. He is scheduled to spend a few hours in this city tomorrow.

HAWK WINS SUIT INVOLVING HOUSE

A jury in the circuit court late yesterday returned a verdict in favor of S. H. Hawk, in the suit brought against him by the Medford Lumber company, for collection of \$721.07.

The action involved a transaction between the Medford Lumber company, Hawk, a plumber, and Joe Gagnon.

The Medford Lumber company set forth that Hawk had secured the house involved from Joe Gagnon, and agreed to assume the claim.

Hawk set forth, that he accepted the house from Gagnon with the understanding that he would cancel plumbing debts owed by Gagnon, and pay \$2500, but that he did not assume any claims that might be against it, including the price of the lot from the city.

FALL SEASON IS OFFICIALLY HERE

It will be surprising news to the big majority of Medford people to

ASHLAND WOMAN FACING CHARGES

Two cases occupying Ashland women and liquor occupied the attention of the state police and district attorney's office today.

Miss Josephine Carter, waitress, faces a charge of giving an auto while intoxicated, as a result of which she is alleged to have ignored the stop sign at Sixth and Oakdale avenue last night, and crashed into a car driven by Miss Peggy Ginn, and causing painful injuries to Mrs. G. W. Ginn, 510 Dakota avenue.

The car belongs to A. O. McCoy of Ashland, who was a companion of Miss Carter, who was slated to appear in justice court late today.

Florence McDonald, Ashland rooming house landlady, was detained last night charged with possession of liquor, and the alleged theft of a dog. Lawyers were endeavoring to secure the return of the dog, and the liquor charge was scheduled for a later hearing.

Why My Next Car will be A FORD

WHEN you buy a Ford there are two things you never have to worry about. One is reliability. The other is long life. Here's an interesting letter from a Ford owner in North Carolina:

"My Ford was purchased May 8, 1928, and has been run 121,767 miles. It has never stopped on the road for repairs of any kind whatsoever except punctures.

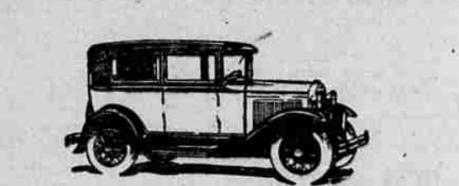

"The brakes were relined at 101,000 miles. My gas mileage averaged 21 miles to the gallon, and on tires, 19,000 miles per tire. I travel over all kinds of road conditions—mountainous and flat.

"I consider this a wonderful record and I assure you my next car will also be a Ford."

This is just one of many tributes to the reliability and long life of the Ford. A Ford owner in Iowa tells of driving his Ford 73,000 miles in a single year. Another writes of 120,000 miles of good service.

Think ahead when you are considering the purchase of an automobile and consider what it will be like after thousands of miles of driving. Will you still be satisfied? Will you still say "it's a great car"?

If it's a Ford, you know everything will be O. K. It will be taking you there and back in good style, just as it has always done. And you will have saved many important, worthwhile dollars in cost of operation and up-keep and low yearly depreciation.
