COUNTY WORKMEN GIVEN PROTECTION COURTHOUSE JOBS

All Must Register and Contractor to Hire Only Men Certified by County—Minimum Wages Are Set

Details of the plan for the employment of Jackson county labor in construction of the new county courthouse are being worked out by the county court and Citizens' Advisory committee. The local workmen's clause will be made a part of the contract, and designated as "Addenda No. 1."

All courthouse construction workers, under the plan, must register and must present an eligibility card to the contractor before securing employment. The card will contain data relative to age of the applicant, married or single, number of dependents, taxpayer and home owner, occupation, and length of residence in this county.

The county will provide all laborers and mechanics, eligible for employment, but the contractor will have the right to hire and fire and the county court will have no connection whatsoever with this phase of the work. No worker shall be employed unless he presents a card signed by the county.

Provides for Experts It is also provided that no laborer or mechanic shall be employed who resides outside of the county, except by the special permission of the county. This covers the employment of experts and special artisans.

The financial and physical condition of the worker will be taken into consideration and care taken to see that none are employed who have small incomes or seek jobs, "just to

keep busy, and not because they need them."

It is expected that when the registration starts, there will be a rush of applicants.

The minimum wage scale as recently adopted by the county court and Citizens' Building committee, will be embodied in the contract, and is as follows: Common laborers, 40 cents per hour; skilled labor 62 1/2 cents per hour, and brick masons, \$1 per hour. The contractor can pay above this scale if he desires, but no less.

Clause Quoted

The full text of the workmen's clause, wherein the owner as mentioned is the county, is as follows:

"Distinct preference as to employment shall be given local laborers and mechanics, and no laborer nor mechanic who resides outside of Jackson county shall be employed by any contractor, except by special permission of the owner in each case. The owner will provide all laborers and mechanics eligible for employment with labor identification cards and no laborer nor mechanic will be employed by any contractor who does not first present to the contractor such a card signed by the owner."

"Each contractor will submit to the owner with his bid the number of foremen or others needed by the contractor in a directive capacity. In case it shall appear to the contractor as the work progresses that there is a shortage of local labor, skilled or otherwise, or in case of strikes or unreasonable conditions imposed by local labor, said contractor shall appear before the owner with this representation. If the owner shall find this to be true, he shall take immediate steps to allow the contractor to bring in from the outside such laborers or mechanics as may be necessary to do the work in question."

STOMACH TROUBLES

HOW frequently we hear people complain of "indigestion." And how seldom there is actually anything wrong with the digestive organs! What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali to neutralize the acids. But don't use any crude helps. Use what most doctors would advise: use what your own doctor prescribes in his daily practice for just that condition.

The very best help is Phillips' Milk of Magnesia. You will find nothing else so quick in effect, so harmless, so efficient. One tasteless spoonful in water neutralizes many times its volume in acid. Results are immediate, with no harmful after-effects to follow your relief.

This pleasant way to alkalize your system is so much better—so much quicker—than attempting to accomplish the same thing by a diet! But you cannot do this with any form of magnesia. Phillips' Milk of Magnesia is the formula; it is the one preparation that gives you magnesia in perfect suspension. It is alkaline, its action is thorough, and there is nothing more soothing to an ailing stomach or more helpful to sluggish bowels. Druggists have Phillips' Milk of Magnesia in 25c and 50c bottles.

The best way to whiten teeth is with Phillips' Dental Magnesia—the ideal dentifrice. Try it and see for yourself how white your teeth become. At drug stores everywhere.
