

TURKEY GROWERS WILL TALK POOL AT OCT. 27 MEET

Decision relative to the formation of a Jackson county turkey pool for this season will be made by the Farmers' Exchange, at a meeting to be held with buyers' representatives, Tuesday, October 27, Manager Jean Vilin said today. Several preliminary conferences have been held.

It is figured that by then a better line will be obtainable on the Thanksgiving prices, which are now ranging from 35 cents to 42 cents per pound. The turkey crop of the land is reported below that of last year, with a small output in Idaho and Texas, two of the main sources of supply.

It is estimated that the Jackson county turkey supply this season will be about 75,000 pounds—25,000 pounds less than the 1930 shipments.

Douglas and Josephine county turkey raisers have taken the initial steps for the formation of a turkey pool. The matter is still pending.

One plan suggested has been to ship the Jackson county turkeys to San Francisco markets by truck, as a freight saving move.

Local turkeys are now fattening, and many large droves are now in the stubblefields, where they run the risk of being shot for pheasants and partridges.

NEW YORK, Oct. 19.—(AP)—The stock market developed a firm tone in sluggish trading today, as buying of coppers and chemicals overcame an early drag imposed by selling of rails. Changes were narrow at the finish, with some issues up 1 to 2 points. The turnover was only about a million shares, the smallest in a month.

Today's closing prices for 17 selected stocks follow:

STORY ONE

(continued from page one)

working classes didn't bring this on. It was the big boys that thought the financial drunk was going to last forever and overbought, overmerged and overcapitalized.

"Now the people are not asking for money. They are asking for a job, but there is no job. Towns and cities can't say they haven't got the money, for the same amount of money is in the country as when these folks had their share.

"Somebody's got it. Last winter we didn't realize the need, but this winter we got no excuse. It's been shown to us all summer.

"I have said for the last two years that things would pick up in '32. Why? Why because it's election year and the Republicans always see to it that things look good on election years. They give us three bad years and one good one, but the good one is the voting year.

"Elections are always just a year too late for the Democrats."

ALMOST new 4-room house, bath, screen porch, built-in laundry, trays, large garage. Trade \$1200 equity for clear acreage near Medford. Balance payable less than rent. Box 2175, care Tribune.

CONCERT WORKER DEFINES PROGRAM AT CLUB SESSION

The worthwhile musical entertainment to be brought to Medford by organization here of a branch of the Civic Concert Service, Inc., was described today noon in a short talk given by Dr. D. L. Cornet, special representative, at the regular luncheon of the Kiwanis club at the Hotel Medford. Mr. Cornet is here for the organization dinner to be held this evening for all workers in the musical undertaking.

Dr. W. W. Howard of this city also added a message, reminding the Kiwanians that good music, produced by a good artist, is never beyond the understanding of the ordinary man.

In commemoration of the 150th anniversary of the battle of Yorktown, Miss Betty Stennett and Maynard Wilson, students of Ralph Bailey's class in public speaking, entertained the club with short, inspiring addresses, which brought back to the mind of the audience many events in American history, almost forgotten.

The club members were reminded by O. C. Lemmon of the meeting to be held in Ashland Tuesday when they will be entertained by the neighboring Kiwanians at the Lithia Springs hotel.

Dr. Arnold Bennett Hall, president of the University of Oregon, will be the speaker. A big delegation has already announced plans to attend the meeting.

The Medford high school football team will be entertained here Monday at the regular luncheon of the Kiwanis club. All members are urged to be present and help entertain the team.

Walter Frazer Brown, program chairman, introduced the speakers for today and a short resume of the subject to be covered by the students, was given by Mr. Bailey.

REDDY, APPLIGATE SHINE AT GONZAGA

Word has been received in this city that John Reddy and Richard Appligate, local students at Gonzaga college, Spokane, Wash., are winning honors.

Reddy has been elected president of the freshman class and sports editor of the student paper.

Appligate is a member of the freshman football squad and viewed as a likely sprinter for the track team.

Both the young men graduated from the Medford high school last June. Both were active in school affairs, and contributors to school publications.

BOLIVIA AND PARAGUAY ASKED TO SIGN PEACE

WASHINGTON, Oct. 19.—(AP)—Bolivia and Paraguay today were urged in a joint telegram from representatives of 19 American countries, including the United States, to negotiate a pact of non-aggression in the Chaco boundary dispute.

This week only, Tullip Oil permenant waves 48. Kathryn Locatell, Phone 1974, 230 S. Central.

HONEYMOONERS IN HIGHWAY SMASHUP

An automobile collision on the Pacific highway above Astoria yesterday, caused by the intoxicated driver of one of the cars, put a bad crimp in the honeymoon trip of two newlyweds, who were in the offending car.

Helen Moore, 18, who lives six miles out of Hornbrook, Cal., was fined \$100 and sentenced to 90 days in jail in Judge Taylor's court today on the charge of driving while intoxicated, and Mr. and Mrs. Lawrence Bickel, honeymooners from Washington state, who with H. A. McMaster, also of Hornbrook and

PATENTED PROCESS REMOVES GUESSWORK FROM ROASTING

Automatic Control of Heat In-sures Exactness. Hills Bros. Coffee Has Matchless Flavor.

There are many risks attached to roasting coffee by ordinary methods. For a man must guess when the roast is right. If he misses his guess, the flavor of the coffee usually suffers.

Hills Bros. eliminated guesswork when they invented and patented Controlled Roasting—an automatic process that develops the fullest flavor in every berry of the blend! As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so the unvarying flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously... a little at a time. Automatic control of heat and flow of coffee does what ordinary methods often fail to do. Every pound is roasted to the same degree of perfection, and every pound has the same fine flavor.

To preserve this delicious flavor, Hills Bros. pack their coffee in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee can't go stale! Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

Hills Bros. Coffee, Inc., San Francisco, California. © 1931

You purchase shoes, fruit and candy. You call for cigarettes.

It's like this: WHEN YOU GO TO BUY A PAIR OF SHOES, you examine the leather, the way the shoes are made, their shape. You try them to see if they fit—if they satisfy you.

Why not follow the same method in purchasing your cigarettes? You want cigarettes that are made from the very best tobacco—mild, ripe, sweet. You want them made right. You want them free from harshness and bite and "pinches." In other words, you want cigarettes that *satisfy* you.

WHEN YOU GO TO BUY FRUIT—oranges, grapefruit, apples—you want ripe fruit, fruit that has matured before being taken from the tree; fruit that has been handled right and packed right; fruit that's the same throughout—not green on one side and ripe on the other.

Why not apply the same test in purchasing your cigarettes? You want cigarettes made from tobaccos handled right by the farmer—ripened, sweetened in the sun and cured right. You want cigarettes that taste the same, day in and day out. You want them pleasing in taste—mild and satisfying.

WHEN YOU BUY CANDY, you want to know, above all things, that it is pure. Is it real candy or are there a lot of other things mixed in with it? And you want it fresh. You want it freshly made and you want it so packed as to reach you just as it was when it was made.

Why not apply the same test when you buy your cigarettes? You want a cigarette that's *pure*; for purity counts in cigarettes just as it does in candy.

Then again, you want a cigarette that's just as fresh as when it was made.

Now, if you apply to cigarettes all the tests that you apply in buying shoes and fruit and candy you will purchase CHESTERFIELD like millions of other smokers.

First, because tobacco men will tell you that in Turkey, Kentucky, Georgia, the Carolinas, Virginia, and Maryland, only the mildest, ripest tobacco is bought for CHESTERFIELD—tobacco cured by the sun's pure rays, by the farmers' slow-burning ovens, and finally by great high-pressure steam drying machines. In the tobacco regions where they grow tobacco and know tobacco, CHESTERFIELD is usually the leading seller.

Second, because the carefully selected CHESTERFIELD tobacco leaves are blended and *cross-blended*. This exclusive CHESTERFIELD blending method is not just mixing together different tobaccos—it is mixing them in such a way as to bring out the finer qualities of each. It's like producing a *new* and *better* type of tobacco—tobacco with greater mildness, more smoothness, much better taste.

Third, because the cigarette paper is selected with the same care. CHESTERFIELD paper is the purest, the best that money can buy. Then the cigarettes are made and packed by machinery in clean, sanitary factories. And the moisture-proof, attractive package—free from heavy inks or inky odor—comes to you just as if you passed the factory in the morning and took your CHESTERFIELDS from the machine.

Good... they've got to be good.
