Real relief from CONSTIPATION

WHENEVER digestive distress follows mealtime, you can suspect an acid condition. Acidity affects the appetite. What food you do eat sours in the stomach. The tongue becomes coated. The breath is bad. Sick headaches become frequent. You are constipated.

These are danger signals which should never go unheeded. Your system is fairly shouting its need of help; something to help remove the acid waste and restore alkaline balance. An anti-acid to offset the effect of too rich a diet, nervousness, excitement, etc.

Men and women who meet this need promptly with Phillips' Milk of Magnesia do not suffer. They eat well, and their food doesn't ferment in the stomach. Every trace of over-acidity soon disappears. All sour gas is dispelled. Stomach, liver and bowels have a better chance to function.

If there is the least hint of too much acid, just take a spoonful of Phillips' Milk of Magnesia today, and for several days. Feel this sweeten your stomach. Note how appetite improves. And elimination! You will wonder how anything so pleasant-tasting can be so promptly effective. 25c and 50c bottles at drug stores everywhere.
