

### COUNTY RECORDS BADLY CONFUSED AUDITOR REVEALS

#### Polk Co. Official Destroyed Checks and Stubs, Claim — Dog License Money Fails to Reach Depository

DALLAS, Ore., March 18.—(AP)—Confusion in the records of Hugh G. Black, Polk county clerk, was revealed in a report issued here Thursday by a Portland auditing firm which made the inspection of the 1931 Polk county books.

Reported lack of records and destruction of checks to a bank account was remarked upon by the auditors who said a special bank account under the title "Hugh G. Black, county clerk," could not be audited satisfactorily as checks and check stubs for all except November and part of December were missing.

#### Balance Depleted

The report showed, the auditors said, that the bank records indicated \$24,517.19 in county, state and trust funds had been deposited in the account during the year, and that a balance of \$4,407.58 remained on Dec. 31, last.

Similar confusion existed in the dog license department of the clerk's office, the auditors declared. The receipt book and dog license record indicated nearly all license money was collected in January and February, 1931, but the cash register tape, they said, indicated that less than one-half of the license money had been entered during these months. One book of receipts containing 77 receipts was said to be missing.

#### Many Errors

The auditors said, too, that there were many errors in the county warrants as checked in the clerk's office. They called attention to 71 warrants for which they said claims were missing when the warrants were checked against the claims. In one instance overpayment on one warrant amounted to \$65.

Black is completing his eighth year as county clerk. He has filed as democratic candidate for re-election.

### HOOVER REFRAINS FROM PRIMARIES

PORTLAND, March 18.—(AP)—A special dispatch to the Oregonian today from Washington, D. C., says the definite and final information is that President Hoover will not enter Oregon's presidential primaries in May. In Ohio and in Massachusetts, where the law specifies no candidate for delegate to the national convention can run without the consent of the presidential candidate, Hoover has entered the contest. But under the present plan his name, the dispatch says, will not be entered in other states.

### PHILA. LABORATORY CERTIFIES NEW SHREDDED BISCUIT

#### Kellogg's WHOLE WHEAT Biscuits Pronounced Very Rich in Food Value

One of the reasons for the popularity of the new Kellogg's WHOLE WHEAT Biscuits is the food value of this tasty ready-to-eat cereal. The improved Kellogg's biscuit is "pressure-cooked" by a special process that bakes in delicious flavor and retains all the food elements of the whole wheat. As a result, the Medical Arts Laboratory of Philadelphia, after careful analysis, now certifies every package for food value.

The new Kellogg's biscuit also offers several other distinct improvements. The biscuits are a more convenient, economical size. Two just fit the cereal bowl—and you get 15 to the package instead of the usual dozen.

And every biscuit is toasted a golden, rich brown on both top and bottom—not just one side. This makes it crispier and tastier than ever before. Also, "pressure-cooking" and "double toasting" make Kellogg's WHOLE WHEAT Biscuits easier to digest.

The new Kellogg's biscuit is delicious with hot or cold milk or cream; extra appetizing with the addition of fruits or honey. Local grocers are featuring this improved ready-to-eat cereal. It may be identified by the name, Kellogg's, and the familiar red-and-green package. Made by Kellogg in Battle Creek.
