

33 States Over 2 to 1 For Prohibition Repeal In Digest Straw Ballot

Thirty-three states are voting more than 2 to 1 wet as over three million ballots from all 48 states are tabulated in the Literary Digest's nationwide prohibition poll, as announced in tomorrow's issue of the magazine.

The 33 states represented in this wet group have a combined population of over 85,000,000 people, as enumerated in the last census figures.

Eight of these states register a vote of more than 4 to 1 for repeal of the eighteenth amendment.

3,040,036 votes are tallied this week in the "straw" referendum, of which 783,178, or 25.1 per cent, are dry and 2,276,851, or 74.9 per cent, are wet.

The dry vote scores a fifth consecutive gain this week, rising from 15.95 per cent of the total vote of the first week's return to 25.10 per cent in the current sixth tabulation.

Kansas is still the only state voting bone dry, but North Carolina is within a fraction of one per cent of registering a vote for continuance of the eighteenth amendment.

Arkansas, Oklahoma and Tennessee are voting over 45 per cent dry.

Initial returns are reported in the current tabulation from Arizona, Idaho, Montana, Nevada, New Mexico and

THE HOME OF BREAD LIKE MOTHER MADE

Tested Eggs for Easter

YES,—TESTED!—every egg, one by one, in our own testing department. Even though all are fresh from the farm, our expert passes every egg over a hole in a box in which there is a bright light. The egg is turned slowly and any imperfection shows — even the degree of freshness is easily determined.

This is an exclusive Groceteria service—one of many precautions to safeguard quality.

Eggs are very cheap now—cheaper than for many years—but regardless of how cheap they are, the same careful test is applied to every one—at no extra cost.

Just another proof that "It costs no more to be sure of quality"—when trading at the Groceteria.

Schilling Pepper
Good spices are so important

All pepper is not alike. Not by any means! Schilling's is rich in aromatic oils and has more flavor.

Some are merely stinging dust.
