

# SPRING FOOTBALL PRACTICE ON TAP AT MEDFORD HIGH

## Sixty-One Don Moleskins for Opening — Burgher to Teach Fundamentals for Early Start in Autumn

By ADRIAN FRALEY

Spring football practice was ushered in last night at the senior high school when suits were checked out to aspirants for grid fame.

The boys did not practice Monday evening but went out on the field to warm up and get the hang of things before regular practice begins.

Coach Burgher will begin spring practice by teaching fundamentals, and he will stress the need of keeping training, not only in football season but throughout the summer so fall football may start with a bang. A few scrimmages will be held before the spring season is over.

Last season that Tigers lost to Marshfield, which spoiled their chances of meeting Jefferson, the football champs of 1931. Medford won all of her conference games, therefore taking the southern Oregon cup. Coach Burgher is bringing in spring football so he will have experienced material to work on at the beginning of the fall season.

Eight of last year's football lettermen are out for practice and there will be about twelve don moleskins to help uphold the Tiger record.

The squad is as follows: Getm, Greaves, Roe, Latham, Fichtner, T. White, Shaw, Gilinsky, Lewis, Bates, Ghelardi, Steffered, Robinson, Prentice, Putney, Thurman, Herron, Parker, Lowry, Kindred, Hammock, Ryan, Stead, Kroschell, Kinmar, Gilbreath, Luman, Moffatt, Sureff, Conun, Mathews, Knox, Pierce, B. Waldon, C. Waldon, Love, Simmons, Grove, Moore, Sparks, Scoville, Hooker, A. Fraley, Krouse, Slagle, Ottoman, Walker, Fowler, Vandever, Sheeta, Richey, Santo, Luak, Ettinger, McGraw, R. Fraley, McGrotty, Littrell and Williams.

# Jump Champ Trains

Elizabeth Getherwood, Canadian girl who won the women's high jump championship in the 1928 Olympics, has taken up ice skating as part of her training program for this summer's Olympic games.

# HARDER EXPLAINS BANKING AFFAIRS AT ROTARY CLUB

At the meeting of the Rotary club today, B. E. Harder, president of the First National Bank of Medford, was the principal speaker. Mr. Harder, a member of Rotary, had been requested to explain to the other members of the club, the details of the recent bank consolidation and the events which led up to it.

Mr. Harder explained briefly why banks sometimes get into trouble. He told of what had been done and the difficulties that had been surmounted in making it possible for the First National Bank to take over the affairs of the closed bank with a minimum of loss to depositors and the community. He paid high tribute to the officers and directors of the Jackson County Bank, who co-operated to every extent possible, and spoke with praise of the splendid spirit of those stockholders, who by their waivers had made the consolidation possible.

He closed by stating that the banking institutions of southern Oregon, not only in Medford, but also in the neighboring towns, are now all in a very sound condition.

# ROGERS HANDLING FROST WARNINGS

Floyd D. Young, in charge of government frost warning and research activities of the coast states, arrived back in the city Sunday from overseeing the frost warning arrangements in the Washington fruit belts and left today for Pomona, Calif., headquarters for the service department, and will not return to Medford until the latter part of May.

He will spend the next few weeks in his office compiling frost data of the past season in the California citrus belts.

The frost work here will be in charge of Roy Rogers, who for years has been Mr. Young's assistant here, as it was last year when Mr. Young left about this time for Pomona. Mr. Rogers, who arrived two weeks ago, makes the nightly frost forecasts, which are broadcast over KMED.

# Mixes Polo, Prom

Not "a host of golden daffodils," but a host of Western Gold Finches, 100 in fact, surprised a local wanderer this morning, who found them dotting a Medford lawn, with no apparent intentions of vacating.

Where they had come from, she had no idea, and could offer no better guess on where they were going. She knew them by the color of their breasts for Gold Finches, she informed the Mail Tribune, and would like someone who knows Gold Finches to explain their sudden presence here in such a healthy flock.

# ATHLETICS HOLD EDGE IN LEAGUE PENNANT TUSSLE

## Connie Mack's Men Slated to Take Fourth Flag in Row — Pitchers and Hitters Top Other Teams

By Alan Gould (Associated Press Sports Editor)

JACKSONVILLE, Fla., March 29.—(AP)—Faith in the New York Yankees, hope in the Washington Senators and a charitable belief in the potency of precedent may combine to make things tough for the Philadelphia Athletics in this year's American league pennant race.

Even so, it is extremely difficult to figure just how Connie Mack's formidable cast can be stepped from making it four in a row, and a league record, unless the opposition has some novel plans, hitherto concealed to check Grove, Barnshaw, Walberg, Simmons, Cochrane and Fox.

**Hitters, Hitters Top League**

So long as the A's have this six-ply backbone, they cannot be regarded otherwise than as strong favorites again to win the American league flag. Their pitching outclass that of any other club in the league. They have the punch to slug it out with any rival, even the Yankees, and Connie Mack's reserve strength on which he rode down the stretch last season, looks to be even better.

Mack is the only American league manager who has ever held a championship combination virtually intact for more than three seasons. He made few changes in the outfit that won four out of five pennants from 1910 to 1914.

**Made Only One Change**

In the past three years of rulership, Mack has made only one alteration in the regular lineup, at shortstop. Except for a reversible infield feature, by which Fox moves to third, and the newcomer, Oscar Roettger, to first, the Athletics will start the 1932 season with the same lineup that dropped the world series to the Cardinals.

Mack admits real fear of the Yankees and their "murderers' row" but it is difficult to see how the New Yorkers can displace the A's without big improvement in the pitching corps. The club was the biggest run maker in the majors last season but wound up in second, 13½ games back of the Mack men.

The A's have picked up a real star in shortstop Frank Crosetti, who forms a new keystone combination with Otto Salgavere and hope to develop some pitching help for Gomez, Ruffing and Pipgras.

**Solons' Outside Chance**

Although the rest of the American league clubs manifest improvement, especially the Browns and White Sox, Washington is the only other one justifiably considered a pennant possibility. The Senators couldn't stand the pace last year but they have speed, pitching and defensive strength, to which has been added the punch of outfielder Carl Reynolds.

If Cleveland could combine its best features with those of Washington, this would be a different story. The Indians carry a real sock, which has been especially damaging to the Yankees, but their defense is spotty and they still lack a first class shortstop.

# PRIZE PLAQUE ON DISPLAY AT C. OF C.

The attractive plaque, won by Wallace Lowry in the American Legion Auxiliary essay contest for 1932, is on display today at the Chamber of Commerce building.

Within the decorative border of laurels is written "American Legion Auxiliary Unit 15 Americanism Essay Contest Award." The name of Wallace Lowry, first winner, is carried below.

The plaque, offered this year for the first time by the Auxiliary, will be continued as a contest award during the future, with the writer of each year's best essay on Americanism added to the name plate.

# CATHOLIC CHURCH MIXED MARRIAGE STAND REPROVED

## Protestant Church Council Takes Exception to Decree Requiring Children Be Reared As Catholics

NEW YORK, March 29.—(AP)—The Federal Council of Churches of Christ in America disapproves with the Roman Catholic church's attitude on "mixed marriage."

A report by the council's committee on marriages and the home has been approved by the administrative committee, representing 27 Protestant denominations.

The report, it was learned today, takes exception to the Vatican's decree requiring that children born of marriage between Catholics and non-Catholics must be reared in the Catholic church.

The report says: "No religious body which confesses itself Christian can tolerate the imposition upon one of its members of the requirements of another religious body by which the religious scruples of that member are aroused, or action repugnant to reason and conscience is forced upon them by an authority he does not acknowledge."

The report suggests that "where intolerable conditions are imposed by either church, persons contemplating a mixed marriage should be advised not to enter it. This committee protests earnestly against the requirement by any church that children of mixed marriages should be pledged to that church."

NEW YORK, March 29.—(AP)—The stock market was restrained by scattered selling from making consistent headway today, although it was moderately higher during much of the session, in response to progress in Washington toward balancing the budget. The close was irregular with net changes in most of the leaders limited to small fractions.

The turnover was around 1,100,000 shares.

# BUTTER EXTRAS AT LOWER PRICE

PORTLAND, March 29.—(AP)—Cut in the price of extra butter during the late season of the produce exchange indicated a continuation of the call for the cheaper priced stock. However, this theory was to some extent upset by the fact that firsts were down 1c also, while standards and prime first held unchanged. There were today but two quotations for cube butter in Portland, 20c for top grade and 21c for the lowest grade churning.

There was no change in the price of butterfat for the day.

Prices continue to be more or less shaded in the market for eggs, although general top quotations are still being maintained in some quarters. Direct selling and price shading by producers appears the chief cause.
