## Mistletoe Club Meets

At Bashaw Home  
Mistletoe club held a covered dish luncheon, with Cora Bashaw, at 507 May street, Wednesday afternoon at 1 o'clock. There were 28 members and four visitors seated at the two long tables, tastefully decorated by the hostess and her assistants, Blanche Arnold and Esther Richmond, in Easter colors.

After luncheon a short business meeting was called to order, each member answering to roll-call with a recipe. After other business was cared for the social hour was taken up with an egg hunt. Neighbor Manning finding the most eggs, received a prize. A sewing contest was also held. Neighbor Ludwig received first prize and Neighbor Todrick second. The next club meeting will be announced at a later date.

## Misses Judy Entertain

B. Y. P. U. Easter Party  
Misses Violet and Irene Judy entertained the B. Y. P. U. Friday evening with an Easter party. The house was decorated with lamb-tongues and the Easter note was carried out in the refreshments.

The guests included the Misses Loretta Jones, Neida Crews, Jean Rose, Geneva Mills, Ethel Tucker, Juanita Hopkins, Christine Pearson, Constance Cormany, Carol Daugherty, Alma Ruth Bohrens and the Messrs. Owen Phelan, Robert Shaw, Howard Thompson, Ray Maust, Donald Welch, Gilbert Robertson, Frank Dakley, Donald Slinson, Ansel Knox, Jerome Bohrens and Mr. and Mrs. Elton Waldron.

## Mr. Jones Is Honor Guest

P. C. Jones, who left Sunday for Colorado, was honor guest at a surprise party given Saturday evening at the home of Mrs. M. Harrison.

Guests for the evening included Messrs. and Mesdames O. J. Wolfe, W. C. Bookard, David Nelson, L. C. Scott, John Dodge, Y. Biles, Mesdames V. T. Wilson, Elvora Hayes, Misses Gladys and Greta Harrison, Clarita Bernert, Mary Hynek, George Ansel Nelson, and Messrs. Fred Schreiner, Fred Inkoff, Othel Lee, Hance Barrett, Orvil Wilson, Harold Grove, Clayton Rawson, Earl and Roy Harrison.

## Dr. and Mrs. Salade Return from Coronado

Dr. and Mrs. L. A. Salade returned Sunday from Coronado, Cal., where they spent the winter season. They report that Mr. and Mrs. L. A. Salade, Jr., have returned from their short stay in Europe, are now in the east, and will arrive at their home at Central Point April 7th or 8th. They are accompanied by their children, Helene, who has been attending school in Switzerland, and Jean and Billy, who have been in the east since summer.

## Girls Entertain at Easter Party

Misses Amy Elliott, Virginia Lindley and Betty Vilm were hostesses Saturday evening at a small Easter party at the Dr. B. H. Elliott home on Corning Court. Guests for the occasion were Messrs. John Snider, Vern Campbell and Bid Rindt.

## Miss Hufford Guest Here from Coquille

Miss Marietta Hufford of Coquille is a guest this week of Medford friends. As a former student of Oregon State college, where she is affiliated with Sigma Kappa sorority, she is being greeted by many schoolmates from the northern campus.

## Auxiliary Easter Monday Ball Festive Event

Before a modernistic stage setting of pedestals in pastel shades, and a flash of the spectrum, enhanced by potted plants and climbing roses, with clear blue Easter sky as background, dancers passed last night in festive mood again and again, to the strains of music played by Ike Porter's dance band.

It was the annual Easter Monday ball of the Women's Auxiliary of the Medford post, American Legion, the first large affair to mark the close of the winter season and the renewal of social life in Medford. The stage setting, arranged by the capable committee, conveyed the reason for rejoicing. Guests from all sections of the valley were in attendance and new creations which dominate the fashion world for spring, 1932, were much in evidence.

The committee responsible for the success of the party was composed of Mrs. Walter Oimscheid, Mrs. Goodwin Humphreys, Mrs. C. T. Baker, Mrs. Belva Alken, Mrs. Everett Brayton and Mrs. George Coddling.

## Brewers Return from Wedding in Albany

Mr. and Mrs. C. M. Brewer returned last evening from Albany, where they were guests yesterday morning at the wedding of Miss Anna Katherine Barrett, daughter of Mr. and Mrs. Wm. Barrett and Paul S. Murphy of Portland, an important event of the social season, the bride and groom being members of two of Oregon's most prominent families.

The wedding was solemnized at St. Mary's church of Albany by Monsignor Lane of Portland, in the presence of 350 guests from many cities of the coast.

At the reception at the Barrett home, following the wedding, Mrs. Brewer, a friend for many years of the Barrett and Murphys, was one of the group of society matrons presiding at the tea table.

Mr. and Mrs. Murphy are now en route south, and after spending two weeks in California, will sail from San Francisco through the Panama canal to Key West, continuing from there by motor on a tour of the southern and eastern states.

## Red Ink Club Conducts Meet

COLEMAN CREEK, Ore., March 29. (Sp.)—Red Ink club met with Mrs. M. J. Norris Wednesday afternoon. Members of the club present were Mesdames A. W. Shepherd, Phil Jarmata, Ted Littlefield, Harry Young, Miles Gammill, and the hostess. Two guests at the meeting were Mrs. Marx, who recently moved to Coleman creek, and Miss Addie Sturdsant, guest at the A. W. Shepherd home.

Mrs. Miles Gammill was hostess at a basket dinner honoring the birthday of Ted Littlefield, at the Gammill home, Sunday. Those present were Mr. and Mrs. Fred Sweeney, Miss Olga Anderson, Mr. and Mrs. Harry Butler, Mr. and Mrs. Phil Jarmata, Mr. and Mrs. Littlefield.

## Baptist Missionary To Meet Wednesday

The annual missionary meeting of the First Baptist church will be held Wednesday evening at 7:30 o'clock. The women are asked to invite their families and friends for this occasion. Songs, readings and a missionary play, "The Late Sally," and a pageant, "Follow the Gleam," will be presented by the W. W. G. girls. A silver offering will be taken and no charge of admission collected.

Voorhies Invite Guests to Dinner  
Colonel and Mrs. Gordon Voorhies are entertaining at dinner this evening at their beautiful country home south of the city. Covers will be placed for Mrs. Margaret Biddle, sister of Mrs. Voorhies, who is their house guest from Chiloquin; Mr. and Mrs. H. VanHovenberg, Jr., Mr. and Mrs. Robt. W. Ruhl, Mr. and Mrs. Earl Tully, Mr. and Mrs. Edward Burgess, Mr. and Mrs. Sprague Riegel, C. S. Newhall and Colonel and Mrs. Voorhies.

## Pythian Sisters Entertain Wednesday

The Pythian Sisters will entertain at the K. P. hall Wednesday evening with a card party for all bridge and five hundred enthusiasts. Prizes will be awarded the winners in both games, and cards will be followed by refreshments. The committee for the evening is composed of Mrs. Anna Jaqua, Mrs. Olive Gaylord and Rya Yost.

## Disc Club Plans Saturday Session

Mrs. George Canode will be hostess at her home, 718 Crown avenue, to members of the Disc club, at 2:30 o'clock Saturday. She will be assisted during the afternoon by Mesdames G. Q. D'Alban and H. W. Hamlin.

## Milk Bottles Get Gambler's Nickels in Klamath Falls

Police Chief Guy Merrill has devised a substitute for the slot machines removed from places of business Friday. Milk bottles painted white and bearing the letters "Police Milk Fund," will be placed in business houses, hotels and clubs to receive donations to the police milk fund, says the Klamath News. The police chief stated that if people wish to give their money away they may drop it in the milk fund bottles and aid a worthy cause without taking a chance of losing the money.

## Phoenix

PHOENIX, Ore., March 29.—(Sp.)—Neighbors of Woodcraft lodge met at the Grange hall Wednesday with a good attendance. At the first meeting in April, a special social is planned, and at the second chapter members of the circle will be honored.

Thursday club met with Mrs. Elva Briscoe Thursday with Mrs. Guy Bishop and Mrs. Esther Wilson assisting.

Mrs. Donna Graffia was honored with a surprise party on her birthday, when neighbors of the North Phoenix community came with dinner to spend the day. Those present were Mrs. Chub Anderson, Mrs. J. O. N. Poling, Mrs. Will Ganaway, Mrs. G. D. Salzman, Mrs. L. O. Carter, Mrs. George Drake, Mrs. M. F. Sheets, Miss Ida Bishop, Mrs. H. H. Boyer, Mrs. Susie Campbell, Mrs. Leta Purry and Mrs. Jamima Rose.

## Oregon Weather

Unsettled with rain Wednesday and in west tonight, moderate temperature; fresh south winds offshore.

Special convocation of Crater Lake chapter No. 32, R. A. M., Tuesday, March 29, at 7:30 p. m. Work in P. M. and M. E. M. degrees. Visitors invited. By order of E. L. LENOX, H. P. GEO. ALDEN, Secretary.

Astoria—Rapid progress being made on construction of \$60,000 rural power extension south of here.

## FORD'S NEW V-8 DISPLAYED SOON IN LARGE CITIES

DETROIT, March 29.—The new Ford V-8 will be shown to the public of 200 cities in the United States and Canada Thursday, March 31. Announcement of the date, made today by Edsel B. Ford, president of the Ford Motor company, brought to a culmination months of preparation on the part of the Ford organization, which is giving employment to 100,000 Ford workmen.

Ford manufacturing and assembly plants are supplied by 5300 other manufacturing plants throughout the country. One of the chief factors in the Ford announcement is the confidence shown by Henry and Edsel Ford that a measure of business revival is possible to the country at this time.

"We know exactly what the car will do," Mr. Ford said. "One of our objectives has been to develop an eight-cylinder engine with plenty of horsepower and yet so simple and so easy to maintain that it will be as much a feature as its speed and power. That enables us to build and sell it at a price to fit the average present American pocketbook. I'll say candidly we have quit figuring costs on the car. The more you figure costs the higher the price goes, and this is no time for high prices. Time and money have not entered into our calculations. We have believed it our duty to do everything necessary to start employment again. Now we are ready to go ahead. Next Thursday the country may judge our work."

In addition to our eight-cylinder car of 65 horsepower, we are offering a new four-cylinder car of 80 horsepower. Either may be had in 14 different body types. Except for the engines, there is but little difference between the two cars. Bodies and chassis are practically the same. There will be, however, a difference in price. For while the V-8 will sell at low-price field figures, the '4' will sell for still less. That is our conception of expanding service to the motoring public, particularly in the face of present economic conditions.

Simultaneously with the announcement of the presentation date, the Ford Motor company made public the following details: The new Ford is large, long, roomy, fast, powerful and alert. Its V-8 engine develops 65 brake horsepower. The new Ford V-8 is capable of 75 miles an hour. Fourteen body types of modern, streamlining design are offered. The four-cylinder engine, developing 80 horsepower and capable of 65 miles an hour, also can be supplied with any of these body types at a lower price.

The new car embodies a number of outstanding features, including a silent synchronized gear shift and silent gear, engine rubber mounted, down draft carburetor and carburetor cleaner, automatic spark control, and a diaphragm type pump which drives fuel from a tank in the rear. There are also soft, flexible transverse cantilever springs and a newly designed rear spring; self-adjusting front double-acting hydraulic shock absorbers, large four-wheel brakes, newly designed electrically welded steel-spoke wheels with large hubs and hub caps and large tires. The chassis and running gear are

cushioned by rubber insulators in the spring shackles and shock absorber links. The body is insulated from the frame by rubber pads. The bodies are fresh and modern from the gracefully rounded V-type radiator to rear bumper. The streamlines are carried out by the long hood, with its rustless steel center strip, the slanting safety glass windshield, and rounded roof line. The convex lamps, full crowned fenders and long, full running board harmonize with the balance of the design.

Body interiors are roomy and richly furnished. Seats are of new style, designed for the utmost comfort. Driver's seats in all closed cars are adjustable. A large ventilator is provided in the top of the cowl. The instrument panel is oval and has a rustless steel mounting strip. Inside sun visors which fold out of the way when not in use, are provided in all closed cars.

The new Ford V-8 engine is compact and remarkably free from vibration. Overlapping impulses deliver the power in a smooth constant flow.

The engine is of the 90-degree V-type, having an S.A.E. rating of 30 horsepower and developing 65 brake horsepower at 3400 r.p.m. The 65-pound crankshaft is of the 90-degree type with its four cranks at right angles to each other. The counter weighted crankshaft is statically and dynamically balanced. The crankshaft, connecting rods and pistons also are in balance so that the engine operates with remarkable smoothness at all speeds. Pistons are of aluminum alloy and have three rings, the lower acting as an oil-control ring.

The rugged double-drop frame is formed to the shape of the body and, with the new low rear spring, provides a low center of gravity, with consequent increase in roadability.

The riding comfort of the cars is due to many factors, but particularly to the new flexible springs, large tires, rubber insulation and the newly-designed shock absorbers.

The Ford rear spring is of new design. It is mounted on perches at the rear of the axle housing, which permits of lower frame and body height. The brakes have a braking surface of 160 square inches. Tires are 34x2.25 inches. Each is balanced to prevent "tramping" or vibration at high speeds.

## SLANDER SUIT IS CLOSING TONIGHT

In the mock slander at between Harry Robertson and Jack Butler, being conducted at the meetings of the Active Club Tuesday; evening, Hilding Bengston, counsel for the defense, will introduce his evidence at tonight's gathering, it was learned today.

Mr. Bengston would not give out any information today concerning the case, but stated that the star witness from Dark Hollow would testify this evening. It is expected that closing arguments will be made tonight, and the case turned over to the jury. Activists compose the jury. Wm. McAllister is attorney for the plaintiff.

## Wilson Considers Candidacy as Whip

JACKSONVILLE, Ore., March 29.—(Sp.)—Lem Wilson believes Jacksonville should be represented among districts running candidates for sheriff, so he is planning to run on the Whip ticket for that office.

## OLD DUTCH OVEN PRINCIPLES USED BY WESTINGHOUSE

Good judges of well-cooked food have for years bemoaned the passing of the old Dutch oven. In all the history of cooking, there is no record of more delicious, savory, appetizing food than that prepared by the Dutch oven method.

The first record of these ovens in America comes from New York state with the Dutch immigration during the 17th century. The Dutch are a thrifty people. When the home had been constructed, the head of the family searched for a suitable plot of ground, readily accessible to the house, where he built his oven. Having decided upon the location, he dug a hole about four feet square and of the same depth. In the bottom of this pit was placed a thick, smooth slab of stone. The sides were also of stone as was the top or cover. The later ovens had a lining of sheet metal, but the earlier ovens did not possess this refinement. The stones were so fitted that they were airtight except for a small-sized hole through the top. An opening through the side was provided to complete the draught and this also served as a door.

When the oven was to be used, a fire was built on the floor and allowed to roar under heavy draught until nothing but a bed of fiery embers remained. Intense heat had been produced inside the oven by the fire, and as the fire through the top was closed when the fire had reached its maximum temperature, most of the heat remained sealed in the oven proper. The remaining embers of the fire were removed from the oven floor and the meat placed inside. The opening on the side of the oven was sealed with moistened clay. Thus the meat was cooked by a slow receding heat process. As the oven gradually cooled, vegetables and puddings were also placed inside. In this way the whole meal was cooked to a rich and melting tenderness that has not been surpassed.

The oven of the Westinghouse Full-Automatic electric range is analogous to this Dutch oven of former days. The cooking principles are the same in both, though modern ideas have improved the method employed. This Westinghouse electric range possesses many advantages of cleanliness, economy and convenience typical of modern electric cookery. The flavor-zone method of cooking, developed by Westinghouse, antedates the assumption that a roast should be started in an oven pre-heated to the browning point and subsequent cooking should be maintained within narrow temperature limits. Meat is composed of many tiny tubes filled with hard liquid. This gelatine causes a crust to form over the surface of the meat, sealing in the juices. To perform this searing operation in a pre-heated oven requires the greatest skill and vigilance. She high temperature continued too long hardens the fibres, making the meat tasteless; if contin-

## COPCO PLANNING K. F. EXTENSIONS

KLAMATH FALLS, March 29.—(Special)—Plans for a \$78,700 construction campaign to be expanded in the electric systems of the Klamath Basin and the water system of Klamath Falls have been announced by the local office of the California Oregon Power company.

A large portion of the total sum, approximately \$37,000, has already been expended by the company for the Tule Lake pumps along the northern, western and southern sides of the Tule Lake sump. The electric program also includes power lines into Tule Lake district to serve the 67 new homestead tracts recently issued to ex-servicemen. This project will cost approximately \$20,000.

In the city of Klamath Falls, the California Oregon Power company will install new power lines through the north side of town. This line will be installed to improve voltage conditions, and will serve the territory from Link river to Hot Springs addition, on the north side.

## Former Phoenix Girl Is Leader Campus Society

PHOENIX, March 29.—(Sp.)—Last issue of the Houston Gargoyles magazine of Houston, Texas, appeared a fine write-up of some of the social activities of a former student of the Phoenix schools, Mrs. Gilbert Hermance, formerly Miss Jeanette Sheets, and a recent graduate of the University of Oregon at Eugene. Mr. Hermance is one of the professors in the Rice Institute at Houston.

Mrs. Hermance was one of four wives of prominent professors of the school, chosen to have charge of all of the entertainment in the college. Pictures of each of these four social leaders appeared in the magazine.

## CROWN FLOUR

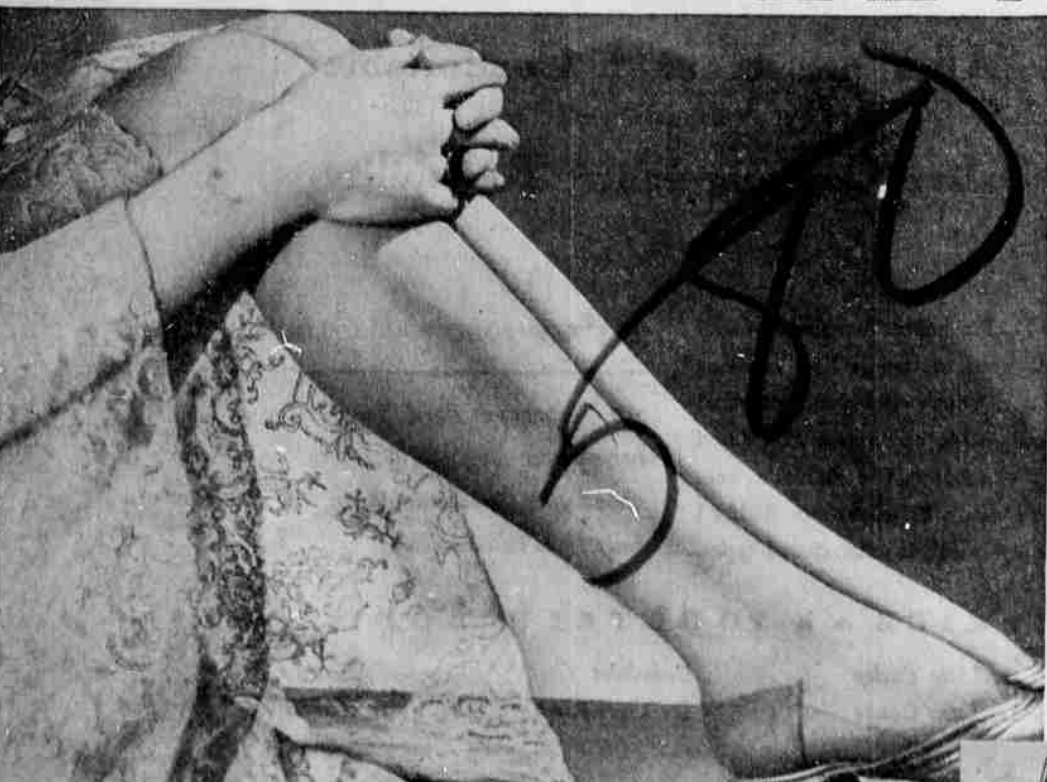

UNRIVALED in baking qualities—say all who use CROWN Flour. It's unbleached. What Oregon makes makes Oregon.

Tree Tea is choicest quality, high grown tea, impressively packaged. Americans like a different blended tea today as when Commodore Perry opened Japan to the world for trade.

# DON'T DESTROY

Wash this 2-minute way:  
1. One teaspoon of Lux for each pair.  
2. Add lukewarm water to Lux, squeeze suds through stockings, rinse well.  
Don't rub with cake soap. It destroys the elasticity of the silk. With Lux there's no rubbing.

**LUX SAVES STOCKING ELASTICITY**

the **ELASTICITY** that makes stockings wear

DO YOU KNOW what causes those ruinous stocking runs? New stockings are elastic. They give under strain, stretch and then spring back again. When this precious elasticity is destroyed, the silk threads, instead of giving, break under strain. It is then that runs start!

That is why Lux is especially made to preserve the elasticity that makes even sheer stockings WEAR.

**LUX** is a day Have you tried Lux for dishes? Gives you lovely hands for less than 1¢ a day—works faster, too.

# UP Growth Hill Mothers!

Watch these years

All of childhood's years call for food vigilance on mothers' part. But this is doubly true when they're 8 to 12, the fast-growth years. It is then that home-cooked cereals—rich in growth-promoting nutrient—become imperative foods. Carnation Wheat is extra rich in nutrient. It contains Vitamin B—stimulant to appetite, digestion, growth, and nerve force; Vitamin A—necessary to growth and vigor; Vitamin E—essential to the vitality which crowns maturity. Carnation Wheat provides upbuilding proteins—carbohydrates for energy—bran, the regulator—minerals for blood and bone. And children "love" it—no coaxing necessary! Its delicate, creamy flakes win their childish hearts and stomachs! Moreover, it's an economy food suitable to children and adults alike—a vitalizing breakfast that costs less than a cent. Begin your Carnation breakfasts tomorrow.

**CARNATION WHEAT** ONE OF THE CARNATION-ALBERS PRODUCTS. Others are: CARNATION MILK, CARNATION OATS (quick and regular), ALBERS FLAKJACK, PEACOCK BUCKWHEAT, PEARLS OF WHEAT, INSTANT TAPIOCA, ALBERS CORNMEAL.
