

SNOW DEMOLISHES 9 SUMMER HOMES AT DIAMOND LAKE

Word has come from various sources regarding the effect of the snow on the summer homes at Diamond lake," says the Grants Pass Courier, and then continues as follows:

"From H. E. Howell of San Francisco comes a report that his large house, formerly owned by Franklin Meacham, son-in-law of O. S. Blanchard of this city, was flattened to the ground. The house was next door to the residence of O. S. Blanchard. Several other homes are in the same condition. Howell has sent a man on snowshoes to care for household effects.

"Blanchard telephoned to N. N. Drew of Klamath Falls, who recently made a trip to the lake on skis. The latter reported that the home of Mr. Blanchard is still intact, as is the home of 'Pop' LeMoss of this city. Drew stated that eight or nine houses were entirely demolished. He stated that after a heavy snow had fallen it thawed and froze, and more snow fell on top, making the weight too heavy for the fragile construction.

"It is said that the snow is still seven feet deep at the lake and thousands of trees are down across the Union Creek highway. A man has been sent from Medford to investigate conditions, and a further report will be available later."

Drug and Hardware Stores Live Longer In Illinois, Shown

CHICAGO (AP)—Drug and hardware stores have the lowest "mortality rate" among Illinois businesses. In the five years from 1925 to 1930, a survey by the University of Illinois showed only 24 per cent of the drug stores and 28 per cent of the hardware stores in 255 cities quit business.

Restaurants were the shortest-lived, showing a 65 per cent mortality, with garages next, 51 per cent. Fifty per cent of the grocery stores and 46 per cent of the meat markets closed up.

CROP OF PULLETS SAME IN OREGON

CORVALLIS, Ore., April 1.—(AP)—About the same number of pullets probably will be raised on Oregon farms this year as in 1931, according to a review published today by the O. S. C. extension service and the U. S. D. A. bureau of agricultural economics.

Fewer chicks were hatched by western commercial hatcheries during December, January and February than a year ago, but hatchings in the eastern states have been somewhat larger. Hatchery bookings for March and later delivery in the western states were 91.6 per cent of last year, and for the entire country, hatchery bookings were 88.8 per cent of last year.

HOW GARNER ESCAPES TAX ON FILM SHOWS

WASHINGTON April 1.—(AP)—Speaker Garner doesn't expect much of a personal burden from the new movie tax of ten per cent on tickets costing over 45 cents each.

In the first place the price of movies in his home town of Uvalde, Texas, is 9 cents, so escapes the levy.

But there is another and even better reason.

"Mrs. Garner always pays my way," he said.

Czech Hops Make Scent.

PILSEN — (AP) — Due to sharp shrinkage in Czechoslovakia's beer exports, there is a surplus of hops and some progress has been made toward commercial production from them of perfume which, some Americans say, has a delectable pre-prohibition aroma.

BROOKINGS MILL, ONCE FINEST OF WORLD, TORN OUT

GOLD BEACH, Ore., April 1.—(AP) The California & Oregon Lumber company plant at Brookings, the first direct-drive electric sawmill in the United States, has been sold to the Zimmerman-Wells-Brown company of Portland who will proceed immediately to dismantle it and ship the machinery to Portland.

The first log in the mill was sawed in 1914. At that time it was the last word in mill efficiency and was visited by lumbermen from all over the United States.

Operations of the company were in the industry of northern California where vast stands of the timber were owned. A railroad was built 20 miles to transport logs to the mill. Brookings became one of the liveliest lumber towns in Oregon, hundreds of men were employed and business thrived.

In 1924 a slump came in the redwood market, the mill was closed and Brookings became a "ghost" town.

BLAKELY REFUSED APPELATE WATER

GRANTS PASS, Ore., April 1.—(Sp.)—James T. Chincock, local attorney, who recently made a trip to Sacramento to appear before the California state department of public works in behalf of farmers in the Applegate river, has received word that the application made by Fred J. Blakely to appropriate the water of Elliott creek, a tributary of the Applegate river in California, have been cancelled.

Blakely did not appear at the hearing, Chincock stated. In his application he proposed to take the headwaters of the Applegate across the divide into the territory around Medford and Jacksonville, to which farmers along the Applegate in Oregon objected.

CITY WITH CASH WAITS TAX CALL

CANADIAN, Tex. (AP)—The business slump has not affected the financial standing of this little city of 2,000 persons.

Canadian owns its water, sewer, light and power plants, and all of them are operating at a profit. The city has assets of \$402,400 and a bonded indebtedness of only \$147,500.

The tax levy is \$1, and the payment of 1931 taxes has been deferred to August 1, the city having plenty of cash with which to operate.

Capital Divorce Rights.

CANBERRA — (AP) — A movement is afoot to legalize divorce in Australia's federal district. Hitherto a husband could sue for divorce only by moving to one of the states for three years, while a wife was barred from action because her legal domicile coincided with that of her husband.

How to Stop RHEUMATISM

New Medicine Drives Rheumatic Poison from Joints—Muscles. EASES PAIN FIRST DAY.

Poisons settling in the joints and muscles cause rheumatism. You cannot get rid of rheumatic agony till these dangerous poisons are driven out of your system. External remedies and pain deadening drugs only give temporary relief.

What you need is RU-MA, the new medicine now sold by all druggists; that acts directly on the liver, kidneys and blood, and helps expel through the natural channels of elimination the dangerous poisons that cause rheumatism.

No long waiting for your suffering to stop. RU-MA eases pain the first day and is one rheumatic remedy guaranteed by Jarmitt & Woods to free muscles and joints from all painful stiffness and swelling and completely stop your rheumatic agony or nothing to pay.

Clothespins and Corks Decorate Spring Duds

By JANE EADS

NEW YORK, March 31.—(AP)—Corks and clothespins already had been snatched from the kitchen shelf to serve as decorative belts and buckles on swagger spring costume. Now the humble clothespin has gone high hat.

Several shops are featuring clothespins of simulated ivory and of other bright colored substances to be snapped on hat brims, or to hold in place folds of the new scarfs. Sometimes three of these are shaped exactly like their more utilitarian sisters, but, naturally, are smaller.

Eyed on the avenue today: Calfskin purses smattered with perforations, a contrasting leather lining showing through the holes.

A tangerine taffeta evening jacket with full, pleated, push-up sleeves, worn with a dull crepe gown the color of mint ice cream.

New three-inch wide, glazed, pin leather belts faced with a bright shade of the same leather and fastened through huge metal rings.

Two and one-half inch wide Buster Brown collars that tie in front, made of colored wooden beads.

Scarfs of two wide stripes of black taffeta and one stripe of white taffeta with fringed ends.

Quaint, puff-sleeved, ruffled debutante party gowns of pastel point d'esprit or net, with pale-hued, satin cashes.

A white taffeta gown with chiffon yoke edged with bead embroidered flowers in piquant colors.

Pilmy nylon nighties and undies sprinkled with dainty, old-fashioned flowers.

TEN MILLION IN LABOR PLEDGED

PORTLAND, April 1.—(AP)—The civic building service bureau in its drive campaign to provide employment for building trades workers by having property owners authorize necessary repair and modernization work, today found that these pledges now total well over the \$10,000,000 mark.

At noon the total for pledges received by the bureau amounted to \$10,195,453. The bureau was organized under sponsorship of the Oregon Building Congress with co-operation of the major civic organizations.

YOUNG CANDIDATE OPPOSES HOLMAN

SALEM, April 1.—(AP)—W. Milton Scherping, of Portland, young Oregon business man, will campaign against Rufus C. Holman for nomination as state treasurer. Scherping filed his candidacy here today for the office.

Previous to this time Holman was the only candidate for the office, now filled by himself as an appointee to serve the unexpired term of the late Thomas B. Stacy.

Scherping is head of a large plumbing company in Portland and active in civic work in East Portland. He served in the world war air service. Scherping 37 years old came to Oregon after the close of the world war from Michigan.

AMERICAN TARIFF POLICIES BLAMED FOR EXPORT DROP

WASHINGTON April 1.—(AP)—A worldwide economic war on the United States as a result of the Smoot-Hawley tariff law was pictured to the senate today by Senator Connally (D., Texas).

Carrying on the political debate which has revolved around the democratic tariff bill to strip the president of tariff making powers, Connally said: "So long as we pursue a theory of economic isolation the rest of the world can be expected to retaliate."

Connally said America's exports had been cut in half from 1929 to 1931. Urging enactment of the democratic bill, he said the flexible provision of the present law was unconstitutional.

"In all the wildest dreams of republican protective policy," he added, "it has never proposed that congress hand over to the president power to fix tariff rates until in 1922 it was proposed as a temporary expedient."

JURY DISAGREES IN BUS LINE ACCIDENT

SAN DIEGO Cal. April 1.—(AP)—Trial of a suit of \$100,000 damages brought against Pacific Greyhound Lines by Henry Cole and P. T. Everton of Grants Pass Ore. husband and father respectively of Mrs. Velma Everton Cole who was killed last year in a bus accident resulted in a jury disagreement in federal court here today. It will be called for retrial next July.

DRUNKEN DRIVING SOVIET TRAFFIC'S MAJOR PROBLEM

MOSCOW (AP)—With its increasing number of automobiles, Soviet Russia is experiencing some of the problems of its capitalistic neighbor states, including mounting traffic accidents and drunken drivers.

The all union congress of AvtoDor, the society for automobile transport and road construction, found that in Moscow alone losses due to automobile accidents in 1931 amounted to more than \$2,500,000 and that 45 per cent of the smashups were caused by intoxicated drivers.

Other causes were improper qualification of chauffeurs, low level of discipline, lack of care for machines and inadequate traffic regulation.

The society found that in some places 40 per cent of the automobiles available cannot be operated because of damage.

There were 50,000 automobiles and more than 7,500 motorcycles in the soviet union at the beginning of 1932, which represents an increase of about 50 per cent over the number a year ago.

All are owned and operated by the states. The only privately owned machines in Russia belong to foreigners.

NEW SHREDDED BISCUIT MAKING BIG HIT

Grocers Say Housewives Welcome Many Improvements in Kellogg's WHOLE WHEAT Biscuit

Local grocers have pronounced the new Kellogg's WHOLE WHEAT Biscuit one of the most up-to-date food products on the market. It offers many outstanding and popular features. For one thing, the biscuits are toasted a golden brown on both top and bottom—not just one side.

The new Kellogg biscuit is also baked in a more convenient, economical size. Two biscuits just fit the cereal bowl—and you get 15 to the package instead of a dozen.

Mothers will especially be interested in the fact that every package is certified for food value by the Medical Arts Laboratory of Philadelphia. These new biscuits are considered a splendid food for both adults and children. With either hot or cold milk, you achieve a well-balanced amount of vitamins, minerals, proteins and carbohydrates.

The Kellogg Company uses a special process of "pressure-cooking" which retains all the food value of the whole wheat and makes it very easy to digest. At the same time it develops delicious flavor.

These improved biscuits can be identified by the name, Kellogg's, and the red-and-green package. Made by Kellogg in Battle Creek.

A Civic Improvement Of Outstanding Importance

Siskiyou MEMORIAL PARK

"The Park of Perpetual Care"

Trustee—
First National Bank
MEDFORD, OREGON

Attorney
Porter J. Neff
MEDFORD, OREGON

Foreword:

The new idea of a cemetery is the modern "memorial park" with landscape beautification resembling a beautifully developed city park or private estate, with perpetual care—an atmosphere depicting life, growth and beauty, eliminating all suggestions of death and desolation.

Siskiyou Memorial Park is designed to take form in the highest degree of perfection in a work of this character. The purpose of the men who are building this park for Medford is a promise that not only will its splendid character always be maintained, but that visitors and their friends alike will constantly feel a sense of personal ownership, not only in the interment plots which shelter their loved ones, but in the beauty and restfulness of the entire park.

For here, in very truth, is the consummation of a community dream long cherished in the hearts of the people of Medford—a beautifully landscaped park with fountains and statuary, surfaced drives, grass, trees, flowers and shrubbery, an administration building to be erected from carefully selected plans, with perfection in every detail.

Passing time, changing conditions have affected the resting place of many who have passed on. With this full knowledge, the location of Siskiyou Memorial Park was carefully chosen. Now and in time to come, people will look up to Siskiyou Memorial Park with the absolute assurance that progress through the ages will not affect the peaceful sleep of their loved ones.

In natural beauty, Siskiyou Memorial Park has few if any equals—with a sweeping view of the mountains as a background.

It is indeed a privilege and a matter of civic pride to do one's part in helping to create this masterpiece for the final resting place of our loved ones.

As one strives in life to create attractive surroundings which are, at best, short-lived, it is a fitting thought to provide in advance a memorial that will stand through the ages to come.

Siskiyou Memorial Park
F. H. Westfeldt, Developer
Edwin Clair Heilman, Landscape Architect
43 South Central St.
Telephone 179
Location—East Main To Highland
Drive South On Highland Drive

ONLY a small part of Siskiyou Memorial Park will be sold at wholesale, in advance of need, and this means that only a limited number of people will have the opportunity to take advantage of these prices.

The cost of sections in Siskiyou Memorial Park is much less than that of the average cemetery of the old type. Once bought there is no additional cost for upkeep or maintenance.

Siskiyou Memorial Park will have no tombstones—Only beautiful Bronze Markers such as are in general use in all memorial parks throughout the United States.

Full information gladly furnished without obligation.
