KIDNAPERS DOUBLE-CROSS LINDY

Comment on the Day's News

By FRANK JENKINS
DO YOU want to help bring tourists to the Southern Oregon country, to see the marvelous scenery that is here to be seen—and incidentally to leave some new money here to help us all to make a better living?

Here is an idea suggested by this writer the other day:

HERE is his plan:

Sit down and make up a list of the people you know who can afford to make a trip this summer. Bring this list to the chamber of commerce.

Then let the chamber of commerce send to your list of people an invitation to visit the Southern Oregon country, including descriptive literature telling of what is to be seen in this great outdoor country.

IF YOU don't want to WAIT, you might try this plan: Write to all the people you know who can afford to make a trip this summer, inviting them personally to visit the Southern Oregon country and giving your own personal description of the scenic marvels of this region.

A personal invitation, you know, sometimes goes farther in interesting people than anything else could.

WHY is it worth while to bring tourists here?

Well, by way of answer, consider this fact: Some 80,000 people from outside Oregon visited Crater Lake last year. These people must have spent an average of around \$10 each while in Southern Oregon.

That means that these visitors left around EIGHT HUNDRED THOUSAND DOLLARS of new money in Southern Oregon last year.

That amount of new money left here helped all of us.

THIS writer, incidentally, doesn't care much for the word "tourist." Somehow it doesn't seem highly complimentary.

On-to-Oregon, the new Oregon organization that corresponds to Californians Incorporated, has coined a new term for these people who come here to see the beauties of our state. It calls them "guests," and instead of "tourist business" it says "guest business."

That is really more dignified, and besides it has a friendlier sound.

THESE people who come here to see the beauties of our great country DO SOMETHING FOR US. They leave new money here, and this new money they leave makes the community more prosperous and so helps all of us to live more comfortably.

So, you see we owe them something. We certainly owe it to them to make them feel that they are welcome—to make them "feel at home," to use a common, every-day term.

IF WE look upon these people who come to us not as "tourists" to be exploited but as guests whom we are glad to welcome and at the same time will look upon ourselves as hosts, charged with all the sacred duties of hospitality, we shall probably get farther in the direction of bringing people here to see our wonderful country than we could get in any other way.

What do YOU think about it?

\$50,000 RANSOM PAID BUT INFANT IS NOT RETURNED

Several Days Allowed Abductors To Keep Agreement—Effort To Trace Currency Made By Banks

NEW YORK, April 9.—(AP)—Col. Charles A. Lindbergh has paid a ransom of \$50,000 for his kidnapped son, but the baby has not been returned.

This was disclosed tonight in a statement issued through the New Jersey state police.

The ransom was paid, the statement said, "to the kidnapers, properly identified as such, upon their agreement to notify him as to the exact whereabouts of the baby, but the baby was not found at the point designated.

Kidnapers Given Time
 "Several days were permitted to elapse to give the kidnapers every opportunity to keep their agreement. It was not intended to use the numbers of the currency in which the ransom was paid, but inasmuch as the kidnapers have failed to keep their agreement and have not communicated since the ransom was paid it is felt that every remaining possible means must be utilized to accomplish the return of the baby and to this end the cooperation of the federal government was requested in tracing the bills used."

Earlier in the day it was learned that a circular giving details of the currency had been distributed to banks through the country by the treasury with a request for telegraphic notification if any of the bills were seen.

Money Paid Monday
 The date of the circular, Wednesday, April 6, coincides with reliable information that the payment of the ransom was effected Monday on an airplane flight which Col. Lindbergh and Col. Henry Breckinridge, his attorney, made in the neighborhood of the Island of Martha's Vineyard, Mass. The pair carried a suitcase, suitable for holding currency, and a blanket. As the statement pointed out "several days" elapsed between the payment and the action by the government.

Tonight's statement lent itself to two theories: One, that the ransom had been paid to the real kidnapers and they "double crossed" the colonel, became fearful of completing negotiations or for some unknown reason decided not to complete the transaction.

May Be Impostors
 The other was that clever criminals had succeeded in forging a satisfactory identification of themselves as the kidnapers and seized

DARROW STUDIES FORTESCUE CASE

Clarence Darrow, veteran "defender" in noted criminal trials, is shown studying records of the Kahahawai murder case in Honolulu, where he has gone to defend Mrs. Grace Fortescue, Leut. Thomas H. Masie, her son-in-law, and two navy enlisted men for the "honor slaying" of Joseph Kahahawai.

INFANT INJURED WHEN CARS HIT ON SO. CENTRAL

Robert Deauvin, age three, sustained severe injuries to his head and scalp by being hurled through the windshield of the auto in which he was riding when it and a "wildcat stage" collided at the intersection of South Central avenue and Pacific highway Saturday morning. Both autos were damaged by the impact.

The babe was riding in the front seat of an auto driven by his grandfather, James T. Peters, 517 South Central avenue. The "wildcat stage" was a man by the name of Thompson, who was en route to Oakland, Cal., where he had an offer of the first job he had had in a year. The other passengers were bound for San Francisco.

The "Auto Travel Association" of Tacoma, advised by wire of the plight of their passenger, wired back they were not responsible and refused to take any further action, the state police say.

The Deauvin baby was treated by Dr. C. T. Sweeney and his condition was later reported as satisfactory.

AL SMITH SPURS AIDES IN EFFORT HEAD ROOSEVELT

Candidacy Not A Stalking Effort Is Declaration—Roosevelt Boosters Encouraged By Ritchie.

By HAROLD D. OLIVER
 Associated Press Staff Writer
 WASHINGTON, April 9.—(AP)—Alfred E. Smith has spurred his campaign workers onward with a statement that his receptive candidacy for the presidential nomination is not a stalking effort, but advocates of Franklin D. Roosevelt continue to see encouraging signs in past and future events.

Flushed with new victories in Wisconsin and New York over Smith and further encouraged by the advice of Governor Albert C. Ritchie, Maryland's favorite for the nomination that the Democrats get behind the strongest man at convention time, the Roosevelt campaigners say only a miracle now can prevent his winning.

Refuse Concede Defeat
 Nevertheless, those opposing the New York governor refuse to concede defeat. Suggestions implying that he take himself out of the running and avoid further "embarrassments" apparently failed to impress Smith, and his letters to Connecticut, Pennsylvania and California supporters that he was "available" in his own name brought favorable reactions speedily from them.

To date it has been a parade for Roosevelt, with his opponents taking but two delegates outside their own states. Next week Roosevelt managers look confidently to Nebraska and Michigan to add 54 delegates to his already commanding lead of 174 instructed, pledged and claimed total. Roosevelt also has a good chance, they say, of winning Kentucky's 26, or most of them. All three states select Tuesday.

ECONOMY PLANS AGREED UPON TO BALANCE BUDGET

Savings Of Three Hundred Millions Expected—Hoover and House Committee After Long Conference.

By Cecil B. Dickson
 (Associated Press Staff Writer)
 WASHINGTON, April 9.—(AP)—A national economy program estimated to save from \$160,000,000 to \$210,000,000 in 1933 was tentatively agreed upon today by President Hoover and the house economy committee.

Other retrenchment proposals, if enacted as expected by the chief executive and Chairman McDuffie, to bring the total to about \$300,000,000.

The program agreed upon after a six hour conference at the White House, followed to a great extent that submitted by the committee, which was along the general lines of President Hoover's recommendations.

Methods Differ
 The methods of approach were different, and two major points of controversy arose.

President Hoover proposed a five-day week for per diem employees and the staggering of work for other employees by means of furloughs without pay, estimated to save \$45,000,000. McDuffie, however, held out for an eleven per cent salary cut, with a \$1,000 exemption, estimated to net \$67,000,000.

A formal but unsigned White House statement explained the savings tentatively agreed upon did not include those to be made through consolidations or reductions in appropriations as suggested by the committee.

Baylor's Co-Ed Editor

For the third time in the history of Baylor university at Waco, Tex., a girl has been elected editor of the school's yearbook, Elwyn Hatchett (above) of Durant, Okla., an honor student and class beauty, beat three boys for the job.

PEACE ADVOCATE TELLS HORROR IF DISARMING FAILS

Miss Brannan Says Next War Will Annihilate All Participants—U. S. Entry In League Paramount.

(By Eva Nealon)
 "The world disarmament conference must succeed. It must succeed, because, if competition in armaments is allowed to continue, it will inevitably end in another world war, as in 1914. But this war would be a gas war, in which whole populations would be smothered like vermin, a war of annihilation for all participants." This is the message brought to Medford yesterday afternoon by Miss Eleanor Doddridge Brannan, associate secretary of the National Council for Prevention of War, in an address before a large and enthusiastic gathering at the First Christian church.

Voicing a plea for peace, an end to war, for economic as well as humanitarian reasons; she expressed, in fluent language, undying hope of the accomplishment of her aim—the United States' entrance into the League of Nations.

"Horn Reformer"
 A rather tall person, with long hair, combed low over dark, piercing eyes, which reflect little of sentiment but a strong desire for leadership, she appeared "the horn reformer," as she described herself in a short interview following the lecture. A reformer, whose present ideas date back in the United States to Richard Dana, who in 1840 came to Cambridge, Mass., from England; have bequeathed her self confidence, in no small portion, and courage to carry on.

"The conference must succeed," she lectured in the church, each word resonating her own convictions, "because the gigantic waste of money spent on arms, amounting last year to four and one-half billions of dollars, for all nations, is driving us all deeper into the slough of economic depression and despair. It must succeed, because the allies' failure to redeem their pledge of disarmament made to Germany in 1919, has caused such resentment there that, unless this conference begins to carry out the pledge, the Germans will insist upon re-arming to the level of the nations which surround them. This policy would precipitate war. Lastly, the world disarmament conference must and can succeed, because the peace machinery of the League of Nations, World Court, Kellogg pact, etc., is adequate to settle all disputes peacefully, if nations cooperate whole-heartedly to make it effective."

The crisis in the Far East, Miss Brannan cited as a probable result of the United States' failure to enter the League.

Joseph Cabral and Howard Flinker, of Oakland, Calif., arrested early Saturday morning on the Pacific highway, with 110 gallons of alcohol in an auto were fined a total of \$750 in justice court Saturday afternoon. Cabral as driver was fined \$500 and Flinker \$250. Their auto was confiscated. The pair left for the south last night.

The rum car was halted on the Pacific highway near Ashland by state police. The cargo was destined for Portland.

FEDERAL AGENTS SLAY GROCER AND WOUND HIS WIFE

DALLAS, Texas, April 9.—(AP)—Two federal prohibition agents were charged with murder today for the slaying of Marion McElgothlin, 50, proprietor of a crossroads gasoline station and grocery.

The agents, N. D. Heaton and L. C. Smith, declined to make a statement, saying federal regulations silenced them.

William McGraw, state district attorney, who brought the charges, declared:

"I find that an honest, law-abiding, peaceful citizen has been ruthlessly murdered."

McElgothlin was shot to death last night and his wife wounded in the hand when they pointed firearms at the agents in the belief they were holdup men.

QUESTION SANITY OF BUTTE FALLS WHIP CANDIDATE

EUGENE, Ore., April 9.—(AP)—George Edward Stewart, who served a month in jail for announcing himself a candidate for the presidency on his own "whip party" platform, was given a sanity hearing before County Judge C. P. Bernard and Eugene physicians Friday.

When questioned about the matter today the judge said doctors referred all queries to Dr. R. E. Lee Steiner of the Oregon state hospital.

Stewart now lives in Butte Falls, Jackson county. He recently toured the eastern states in behalf of his candidacy, advocating "a chicken sandwich in every workman's dinner pail." He was formerly in the auto supply business in Eugene.

Rogue Valley Youth Breaks 41-Year Scholarship Record While Student at Stanford

The Rogue River Valley enjoys a national reputation, in fact a world-wide fame, for its pearls, its sport fishing, its scenery including Crater Lake, its climate and its being a "Great Country" in almost every respect. Additional favorable publicity was given to this district last week when the Associated Press wires carried a news story all over the country concerning a "product" of the Rogue River Valley—John Douglas Perry, whose scholarship achievements at Stanford University were treated as front page news in many of the large dailies in the West.

The San Francisco Call-Bulletin said:

Stanford Grad Hailed As Genial
 "Life is just a bowl of familiar chemicals to John Douglas Perry, Stanford graduate, who was hailed as the campus genius at Palo Alto today. He performed the unparalleled feat of receiving straight 'A's' grades while majoring in chemistry, which is, as any student will testify, the hubgob of university subjects."

"University officials who scanned Perry's four year record could find nothing but 'A's' marks."

"Perry, who hails from Rogue River, Oregon, had little difficulty being elected to Phi Beta Kappa, the national honor society."

"Just to prove that he was an all-around genius, Perry managed to please the boys of Sequoia Hall, campus leaders in politics and as a result, as his president. He also was vice-president of the golf club, and held various other

FIRST CAR ENTERS PARK TODAY WITH SNOWPLOW AHEAD

Opening of Crater Lake National Park road to the rim of the lake via the Klamath entrance, will take place this morning, according to announcement yesterday, and arrangements have been made for a Graham car to be the first to open travel to the wonder lake, which is now garbed in white.

Gilmore oil and gas will be used for the occasion, and a large party of Medford folk plan to take part in the ceremony. A representative of the Fox Movietone News, will take pictures of the opening, and other news agencies are to be represented by their cameramen.

The group from Medford will include John H. Weiser of Bolstad, Constantine and Gardner Advertising agency; Harold Grey of the Crater Lake Automotive Co.; Glen Moulton, district manager of the Gilmore Oil company; David Canfield, assistant superintendent of Crater Lake National Park; Ernest A. Rostel, publicity manager for the park; Herb G. Grey, advertising manager of the Mail Tribune; and Harry Hinman.

The snow plow will break the last few feet of snow to make way for the initial run to the rim. It was announced by park officials.

Previous to the ceremonies, the Medford delegation will have a breakfast at the Hotel Willard.

In arranging for the ceremonies, the Mail Tribune has received cooperation from H. C. Solinsky, park superintendent, and members of the staff, as well as various companies.

Medford will receive national publicity on the event, through the aid of Graham Motor company, Gilmore Oil, and the news releases.

Several miles remain to be plowed to open the Medford entrance, the park office reported, and no time has been set for the opening on the side

NINE SALMON LANDED IN ONE HOUR AT DAM

Fishing was fine at Savage Rapids dam yesterday with anglers landing a record catch of nine salmon in one hour, according to report of Roy Parr, game warden. Two of them were landed by Dr. R. C. Mulholland, one of Medford's leading fishing enthusiasts, who returned to this city with two chinooks, one weighing 27 pounds, the other 23.

LUMSDEN NAMED BANK LIQUIDATOR

Word has been received of appointment of Treve B. Lumsden, formerly associated with the Jackson County bank, as a deputy state bank examiner, and his assignment as liquidating agent of the Citizens National bank of Ashland. Lumsden, who has been connected with the First National bank of this city for the past three weeks, will assume his new duties at an early date. Duties consist of disposing of bonds, notes, claims, judgments and other assets of the Ashland bank.

It is presumed that in his state duties he will be assigned to southern Oregon, where through long experience he is particularly well acquainted with local conditions.

Lumsden will continue to make his home in this city, where he has resided most of his life.

COUNTY RELIEVES FAMILY DISTRESS

Emergency employment work has been discontinued in Jackson county by the county court as now concentrating on plans to care for a certain number of laborers through the individual family relief program. Victor Teagard, court secretary, announced yesterday. The plans adopted will carry the workers through the month of April.

Only a few can be cared for under the program, devised, so work on the county roads will be limited to men whose families are in distress. The court reserves the necessity for administering relief work where it is urgently needed, and will be able to consider no other applicants.

FLOYD GIBBONS FLYING SOUTH AT NOON TODAY

Floyd Gibbons, famous war correspondent, radio talker and globe trotter, is scheduled to pass through Medford today on the 12:30 southbound train. He has been in Portland on a lecture tour.

COAST HIGHWAY HEADS IN MEET

EUGENE, Ore., April 9.—(AP)—The executive and publicity committees of the Oregon coast highway association met here today to consider applications of candidates for the position of manager of the association and to discuss publicity plans.

AMERICAN APPLES FACE NEW THREAT

WENATCHEE, Wash., April 9.—(AP)—A new threat of an embargo against American apples by the French government has followed alleged finding of San Jose scale in 40 carloads of boxed apples unloaded at Dunkirk, France. Most of the apples were from the Wenatchee and Yakima districts of Washington.

Word of the embargo was received here by the Wenatchee Valley Traffic association from R. J. Phillips of the International Apple association.

He said French authorities alleged inspection of some 300 apples in the shipment of 40 cars showed 1 1/2 per cent infection of scale.

FRED MCPHERSON HOUSE IS BURNED

Fire, discovered at 2:30 a. m. Saturday, at the Fred McPherson residence, 23 Crater Lake avenue, completely gutted the house after it had gained great headway, according to Fire Chief Roy Elliott. Practically all of the furniture was destroyed, and the house badly damaged, according to William A. Gates, owner of the house.

The structure and furnishings were covered by insurance. Mr. Gates reported. Mr. and Mrs. McPherson, who were in Yreka at the time of the fire, returned Saturday morning.

The first alarm turned in at the fire hall said a house was burning on Crater Lake avenue, just off Main street. Later calls gave the location of the blaze. Still hold a fire was thought to have started in the living room. It had spread extensively before discovered.

The downspout fell through the burned floor into the basement Chief Elliott reported and the piano and other furnishings in the house were ruined.

PORTLAND, Ore., April 9.—(AP)—Lawrence W. Quint of San Francisco told police today that two men whom he met at a stage terminal here Friday "gold-bricked" him out of \$240 in a money-matching game.

WILL ROGERS says:

BEVERLY HILLS, Cal., April 9.—This Ogden Mills that is now treasurer of the deficit, nobody has accused him of being "the best treasurer since Alexander Hamilton," but I have heard Jack Gerner himself say that Mills was "a mighty able and conscientious man."

Congress bases her estimate of the budget on "what the people ought to make in 1932," Mills says, "yes, they ought to make that much, but who are they going to make it out of?"

Word comes that Frank Hawks was hurt. Frank is like one of our family but the hospital tells me that it's not dangerous. He is a fine, intelligent fellow. That's one great profession. I have never met a "dumb" aviator.

Will Rogers
