

FRACTIONAL PRICE SYSTEM PLANNED IN PRODUCE MART

PORTLAND, April 15.—(AP)—Plans are again under way to re-submit to the membership of the Portland Produce Exchange the question as to whether prices should be quoted in even cents or in fractions. Former opposition to the plan of quoting fractional cents was so great that the proposition was voted down. Now, with better understanding of the scheme, together with the fact that most of the leading markets are quoting in fractions, some change in sentiment is indicated here.

There was no change in the market for butter during the day. On the open market cubes moved fairly steady with the late price range. Butterfat prices are steady. Market for eggs continues practically the same as during the last couple of weeks. There remains some underselling by outsiders and for eggs that do not come up to standard grading. Practically no price changes are reflected in the market for country-killed meats. Veal of top quality is still quotable 9-10c, the latter being an extreme while top hogs are 6c extreme.

Trade in the chicken market continues to mark time, and generally without price change for the day. Small broilers are still the hard-selling feature. Dressed stock spots during transit, therefore the trade asks that no shipments be made.

NEW YORK, April 15.—(AP)—Public utilities led a further recovery in the securities markets today. The stock market encountered profit taking late, which reduced net advance by nearly half, but net gains of 1 to 2 points or more were numerous at the finish. The closing tone was steady. Transfers approximated 1,600,000 shares. The expected reversionary proceedings against middle west utilities apparently had cleared the atmosphere in financial quarters considerably. Utility preferred stocks and bonds registered sharp advances. Today's closing prices for 15 selected stocks follow:

REGISTRATION FLOOD CONTINUES UNABATED

Registrations continued steady today at the county clerk's office, with many taking advantage of the clerk's office being open during the noon hour. Many who have not voted for years, have registered the past week. The registration in the cities is increasing and will probably assume the proportions of a rush between now and next Tuesday when the registration books will be closed until after the primary election. There is also an unusually heavy registration in the rural precincts.

Household Helps At Bargain Price In Local Stores

This week and next, window posters reproducing a Mail Tribune advertisement will be displayed in many Medford stores. These posters announce a coast-wide spring house-cleaning sale of two products useful in every home—Waxglo Paste Wax for floors—Oronite Cleaning Fluid to take spots off fabrics and other materials. A bargain combination price is being offered by dealers handling these Standard Oil products, and it is expected that thrifty women who use the Mail Tribune as a shopping guide will take advantage of this timely opportunity.

Waxglo Paste Wax is the latest household help developed by the laboratories of the Standard Oil company of California. Into its creation have gone more than four years of intensive study and experimentation. The finished product is a blend of waxes, including carnauba—from the Brazilian wax palm—the wax that takes its highest luster of any known to science. Waxglo goes on easily—polishes dry as a feather, hard as nails, and lustrous as sunshine. Its softly glowing finish stands up under all kinds of "traffic" and wax-gloed tile, linoleum and hardwood floors are safer—less slippery to rugs and shoes.

UNCLE SAM WILL HOLD KIDNAPERS FOR INCOME TAX

(Continued from Page One.)

tax evasion laws against the kidnapers of the infant Lindbergh who received the \$50,000 ransom, if they are caught. It is assumed no income tax return would be made for the ransom money and in this event the government stands ready to proceed against them in the way it did in jailing Al Capone. Under the law, the treasury—in addition to the penal provisions, for tax evasion—could demand the regular income tax and an additional penalty tax on the ransom. As revealed today by the Evening Star, however, this technical right to commander a tax share of the \$50,000 would be waived. Internal revenue agents have been in touch with Charles A. Lindbergh at Hopewell, N. J., for some time. They were kept advised of the negotiations centering about Dr. John F. Gondon, and knew of the final arrangements for the ransom payment April 2.

At the request of Lindbergh, they remained away from the scene of the actual transaction. The treasury's activities have been known to the Star for several weeks, but publication was withheld in a desire not to embarrass the government or Lindbergh.
