

### EDUCATION HERE OF HANDICAPPED CHILD DESCRIBED

Miss Louise Basford of the local school system, who has carried on extensive research work to determine the needs of the under-privileged child, was main speaker at today's meeting of the Allied Welfare association at the Hotel Medford.

Her subject, "Special Educational Opportunities for the Handicapped Child in Medford," proved an exceptionally interesting one to the members of the association, who greeted her address with enthusiastic applause and much discussion.

Medford has the only school system in the state, which provides a special room for children who are mentally or physically handicapped or classed as atypical. Miss Basford told her audience that the atypical children frequently make two or three grades a year in the subjects in which they have previously been deficient, after they are given the special attention provided in this room.

All equipment, Miss Basford described the room, has been constructed to fit the pupils' needs. Some come in wheelchairs, some on crutches and all are given the instruction needed to provide them an equal educational chance with normal children.

Plans for celebration of Boys Week here were outlined by Oscar E. Hoover, Boy Scout executive, at the luncheon session, and Dr. C. I. Drummond, recently appointed county physician, was introduced to the organization.

Ensign J. R. Pack of the Salvation Army urged all members of the Community Chest to pay their pledges as soon as possible as a great need for the money is realized.

The next meeting of the organization will be held in May and the program will include reports from service clubs and other organizations of Medford on the particular type of welfare work carried on by each group.

**Bowman Seeking G.O.P. Nomination As School Chief**  
C. R. Bowman, candidate for the Republican nomination for county school superintendent, is finishing his second term as superintendent of the Talent schools. In 1912 to 1915 he was principal of the Medford high school, resigning to accept the presidency of the county high school of Klamath Falls.

At the end of the present term at Talent, Mr. Bowman will have rounded out 20 years of public school work, part of this time in Illinois, including every phase of public school teaching from rural districts to assistant county superintendent.

**LOG HAULERS WILL ARGUE ROAD RIGHTS**  
SALLEM, April 22.—(AP)—Representatives of the logging industry, log hauler and county courts will be heard by the state highway commission today relative to curtailment and strict regulation of log hauling and other heavy load hauling over state highways.

At the previous session of the commission a policy eliminating heavy loads from highways, particularly log hauls, was adopted, because of the reported damage done to the roads by these activities.

**MRS. WANDS' FUNERAL GRANTS PASS SUNDAY**  
Funeral services for Mrs. Ellen F. Wands, who passed away in this city early Thursday morning, an account of which appeared in a former issue of this paper, will be held at the L. B. Fall chapel at Grants Pass at 2 p. m. Sunday.

The body will lie in state at the Conger chapel in Medford until 11:30 Sunday. Interment will be in the Masonic cemetery at Grants Pass.

**CUSHIONS IN CAR BURN AT KRESSE RESIDENCE**  
Cushions in the back seat of the car belonging to Dr. A. F. Walter Kresse were destroyed about 1:30 o'clock this morning, according to the local fire department. Mrs. George Coddling, who passed the Kresse residence about that time, called the Kresses, saying she had smelled smoke near their house. The car was in the garage.

trail of the abductors, and are supposed to have caught up with them somewhere in the wilderness between Klamath Falls and the headwaters of the North Umpqua and slain them.

With them perished all knowledge of the mine from which they took the gold.

WHAT a romantic country this Southern Oregon is! What a fascinating book it would make if we could assemble all these stories of the early days.

### HARVARD RIOTERS INVADE HALLS OF WOMENS COLLEGE

(Continued from Page One.)

students seized automobiles by their bumpers and hauled them backward. Trolleys of street cars were pulled from the wires and Boston Elevated officials rushed extra guards to the square.

When police reserves arrived the crowd numbered about 3000. Three tear gas bombs opened a wedge for police and several students were arrested. The crowd followed as the pair were taken into custody and as the mob made a rush to enter the station house, they were beaten back. The students answered with a shower of stones.

After the melee the crowd returned to Harvard Square, where there was a recurrence of the disorders.

Entrances to the yard were closed and looked and police guards placed at the college gates to prevent other students from joining the crowd, as the situation was brought under control and the streets cleared.
