Ye Smudge Pot
By Arthur Perry

One thing the economic cycles don't change, is the depravity of the beanery coffee, which now, as in more prosperous days, is beyond the power of words to accurately depict.

A gleaming, iron sickle was perpetrated last Wednesday night on the Lane county branch of the Tax Conservation League, at Eugene.

FAITH WEAKENS AGAIN
(Jackson, N.Y. Courier)
I, the undersigned, have traveled around a quite a bit and had a respect for what ladies and girls said.

GOODBYE, MY STORK!
(Lucas, N. M. Recorder)
NOTICE—I wish to state that I am the proprietor of the ice cream parlor and that my customers will not be bothered in the future with children.

Salem high school boys, because another boy did not take a school fraternity seriously enough, sped the Al Capone mob, and the offender "was taken for a ride."

Government statistics reveal that girls in love are committing suicide with more frequency than ever, when, and if, killed by the maiden fair.

AMOIY, China, April 25.—(AP)—Advices from Changchow today said the Chinese communist army had occupied the city and the soldiers were enjoying a carnival of looting.

PORTLAND, Ore., April 25.—(AP)—Zona Hart, 18, and William Vandervort, 18, both of Portland, were fatally injured when their automobile sideswiped another car.

Several persons attracted by the crash extricated the three from the car. The girl was carried to a nearby house, but died before medical aid could be given her.

THE DALLAS, Tex., April 25.—(AP)—With the spring opening date of the commercial salmon season less than a month away, no price has been set by buyers on this season's catch.

The Decline in Good Will

THE shrinkage in values since the stock market crash in 1929, is so great, that in recent months no statistician has had the heart to announce it.

WE refer to the loss in good will, in kindness, in tolerance, —the qualities of human friendliness.

THE most striking evidence lies in the political campaign—even though the fireworks had not really started.

THE change, we have observed is in the people,—the appalling numbers so willing to fall for this malicious poison, so ready to believe the WORST of their fellowman.

THE saddest feature of this collapse in friendliness, is that it is unnecessary. Under present conditions the collapse of fortunes can't be prevented, but with a different attitude of mind, the collapse in friendships could be.

Choose the Best Ability Available

THE necessity of securing the best ability in public office available in the approaching election, is brought into sharp relief, by an analysis of our tax problem.

OUR present tax bill, federal, state and local, equals 22% of the average family's income. On the basis of the material wealth of 1931, the tax burden on the average person is \$100 per year.

REGARDING the federal tax, more than two thirds of it is devoted to veteran relief, the army and navy, and interest on the public debt.

IT IS this ten billions which is most easily susceptible to reduction through economy. And the first step in such economy is the elimination of inefficiency, in the public service, the utilization of the best business ability that the market affords.

Help the Home Owner

THE government has helped the bankers and the railroads, through the Finance Reconstruction measure. It has helped the farmers through the Farm Board and Farm Land banks.

AT the present time mortgages on homes are just as much frozen assets as farm mortgages or railroad notes.

LUMBER TARIFF PLAN REJECTED BY COMMITTEE

(Continued from page One.)
to a provision to change the tariff with respect to imports from countries whose currency has depreciated.

Two Republicans — Keyes of New Hampshire and LaPollette of Wisconsin — voted against all tariff items.

The vote against lumber, 10 to 8, follows: For — Republicans, Smoot, Watson, Reed, Shortridge, Bingham, Thomas, Jones and McCall; Democrats, none. Against — Republicans, Keyes and LaPollette; Democrats, Harrison, George Walsh, Barkley, Connally, Gore, Costigan and Hull.

Watson Withholds Vote. The vote against shingles was 10 to 7, and showed the same lineup as against lumber, except that Senator Watson did not vote on this.

The vote against a tariff on logs showed the same lineup as on lumber. The wood pulp duty was rejected, 11 to 6.

The committee's action disposed of the tariff controversy for the time being, but Senator Jones (R., Wash.) gave notice that the battle for forest products import taxes would be carried to the senate floor. Votes will be had in the senate on all the tariff items.
