

REGISTRATION FOR JUNIOR HIGH OPEN IN ENSUING WEEK

Important Work Requires Time—Parents Invited to Visit School and Aid in Selection of Courses

Registration of pupils in Junior high school for next year will be in full swing next week. Registration for new courses is done in each school by the principal and certain teachers designated as counselors.

In order to provide a system whereby a better adjustment of school work can be made for all pupils, the Medford schools have for several years used the plan of forming three groups in each subject, with three different standards of grading.

Group 2 is the main group. It is the one where most of the pupils belong. It offers the regular Oregon State course of study as given in other first-class districts of the state.

Group 1 is a maximum work group. It not only covers the course of study in a subject in from one-fourth to one-sixth less time than group 2, but has extra work included in the course in each subject.

There is often a misunderstanding as to the purpose of this group and a mistaken desire on the part of some students to crowd into it when no good reason exists for it.

Group 3 is designed to fit those pupils in a subject who find it difficult. Sometimes a pupil may be quite strong in most subjects, but finds that one or two subjects are especially difficult for him.

City Has Few Failures. The use of the group plan in adjusting work to fit pupils has cut the number of failures in the schools about one-half. The average for the state at large is above 5 per cent while in Medford it is 3.5 per cent.

In many of the schools of the state the old plan of causing a pupil to repeat a whole grade, if he happens to fail in one or two subjects, is still in vogue.

Success Margin High. In schools the size of Medford's, which are attended by hundreds of pupils of widely diversified interest and abilities, it is impossible, of course, to have a perfect adjustment of the course of study to each pupil.

On April 15th a questionnaire vote was taken at the Junior high school on a number of points affecting the work and organization. Among other things, the question was asked: "In general, do you find the work of the Junior high school too easy, too hard, or about right?"

BETHLEHEM DECLARES QUARTERLY DIVIDEND. NEW YORK, April 28.—(AP)—The Bethlehem Steel corporation today declared the regular quarterly dividend of \$1.75 a share on the preferred stock.

Arabian and African natives catch locusts for food and eat them fried in butter.

Test Fleet Delivers Message

When the famous Goodyear test fleet departed from Phoenix, Arizona, en route to Akron, O., J. H. Greenleaf, manager of operations, was presented with a letter of greetings to the state of Ohio by Gov. George W. P. Hunt. Gov. Hunt is pictured above, at right, presenting letter to Greenleaf.

CULINARY CRAFT....

By Estella Dorgan, Director of Home Service, California Oregon Power Co.

REFRIGERATOR RECIPES

Aren't you hungry for warm days and the foods which always come with the sunny days of spring and early summer? The answer is YES, from every side. Well, then, here are some delicious things to prepare in your electric refrigerator:

- Custard Ice Cream: 2 cups milk, 2 tablespoons cornstarch, 2-3 cup sugar, 3 egg yolks, 1 teaspoon vanilla, 1 cup whipping cream.

Scald milk in double boiler. Add the cornstarch and sugar well mixed and cook for 10 minutes, stirring occasionally. Pour hot mixture over slightly beaten egg yolks slowly, return to double boiler and cook until custard thickens. Chill. Add vanilla and fold into whipped cream. Freeze in tray. (Makes 1 quart).

Date Pudding

- 1/2 pound dates, quartered, 1/2 pound marshmallows, quartered, 1/2 pound graham crackers, rolled, 1 lb. walnut meats, cut coarsely, 1 lb. cup maraschino cherries, quartered.

1 cup whipping cream, 1 teaspoon vanilla. Whip cream slightly. Mix all together lightly and pack in pans lined with waxed paper. Store in food compartment at least 24 hours before serving.

Strawberry Marshmallow Cream

- 1 pint strawberries, 1 cup milk, 1 cup whipping cream, 12 marshmallows, 2 tablespoons lemon juice, 2 tablespoons sugar.

marshmallows in small pieces and dissolve in milk, then chill. Clean and wash berries, crush and add lemon juice and sugar. Let stand while chilling milk then drain and fold the berries and marshmallow mixture into the whipped cream. Pour into tray and freeze without stirring.

Frozen Apple Snow

- 1 large tart apple, 1/2 lemon, juice and rind, 4 tablespoons confectioner's sugar, 2 egg whites.

Peel apple and grate into a bowl. Sprinkle over it the sugar, lemon juice and rind. Beat the whites of eggs until stiff and add to the apple-sugar mixture, beating all together for several minutes. Pile lightly in refrigerator tray and freeze.

Pear Cream

- 1 package lemon flavored gelatin, 1 cup boiling water, 1 cup pear juice, 1 cup pears, crushed, 1 cup whipped cream, 1/2 teaspoon salt, 1 teaspoon vanilla.

Dissolve gelatin in the cup of boiling water. Add pear juice and salt and chill thoroughly. When partially thickened (do not let the mixture freeze), beat with a rotary egg beater until creamy. Fold in crushed pears, whipped cream and vanilla. Again pour into tray and return to refrigerator to finish congealing. When firm unmold, cut into squares and garnish each square with a teaspoon of whipped cream, a slice of pear and a maraschino cherry.

Notes About Preparing Frozen Dishes

When whipped cream is called for in the recipe, do not whip the cream too stiff—whip only to custard consistency. If the cream is whipped too stiffly the frozen product will have a fatty taste and a grainy texture.

Too much sugar will prevent freezing. If sugar is used raw, use confectioner's sugar. Granulated sugar should be used only when it is cooked before freezing. Cut meats and fruits rather small for easier cutting and serving.

MEXICO TREASURE HUNT HALTED BY DEARTH OF FUNDS

Vastly Interesting Finds Recently Stir Archaeologists—Pyramid Near Puebla May Yield Riches

MEXICO CITY (AP)—Discovery of the valuable collection of gold ornaments and jewels in the Mixtecan tomb at Monte Alban, State of Oaxaca, has brought a renaissance of archaeological interest in Mexico.

But the renaissance, unfortunately, finds the archaeological department without funds to pursue the vastly interesting leads developed within recent weeks.

Hundreds of thousands of dollars and many years of painstaking work are needed to carry out complete excavation at Monte Alban, where prehistoric Indians levelled off and remodeled whole mountain tops with their curious edifices.

The government has only a few thousand pesos to continue that work, and none at all to follow up finds made since in Guerrero and Michoacan, states which are virtually unknown as archaeological storehouses.

The interest stirred by the Monte Alban discoveries in January of Professor Alfonso Caso brought to light at least three other important finds within a short time.

At Tacupa, Michoacan, an abandoned city was discovered and yielded valuable gold relics and carved monuments which are as much a puzzle as the graven relics of Monte Alban.

archaeological department that he had by chance opened a mound on his farm, and found things of interest. Having no funds for an investigation, the department asked the man to submit photographs, but the honest soul instead brought his finds to the capital.

They included hundreds of jewels, gold filigree work and precious stones—the whole worth a fortune.

Now archaeologists working in a small way and with private funds have disclosed prehistoric remains within the world-famous pyramid of Cholula, just north of the city of Puebla. This pyramid, largest in the world, is crowned with a Spanish church which looms in liveliness on

the spot where pagan Aztecs sacrificed thousands of humans. The formidable size and decayed state of this pyramid always has challenged science, and now trenches and tunnels sunk into what appears to be a hill have revealed walls, paintings and stairways. The explorers are pushing on toward the center, hoping to find treasure in a central vault. It has been suggested that the jewels already taken out of the Mixtecan burial chambers be sent abroad on an exhibition tour in order to raise funds to continue the exploration. But many Mexicans are suspicious of this plan, fearing the million-dollar treasure would be lost to Mexico by such an experiment.

Some flour is made from only one kind of wheat. It may not be best for what you want to bake today. This "balanced" flour is a mixture of several different types of the finest wheat, blended into a flour that works perfectly for all your baking, all the time.

PILLSBURY'S BEST The "balanced" flour

Jacksonville

JACKSONVILLE, Ore., April 29.—(Sp.)—Rinky Dinks went to Palmer Creek Sunday to play ball. In spite of inclement weather, six innings were played, Palmer Creek winning, 9 to 8. Many fans from here attended.

Mrs. Filcroft spent Monday with her daughter, Mrs. Cadwallader.

E. C. Jerome of Medford called on C. B. Dunnington Tuesday evening. Word has been received here by friends that L. F. Steadman, a former resident, recently passed away at his home in Anaheim, Cal.

Jacksonville was well represented at the theatre Sunday.

J. D. Bowdler of Medford was a luncheon guest of C. B. Dunnington Monday.

Interment for Mrs. Lula Beall Strohmeier took place in Jacksonville cemetery Monday afternoon. Mrs. Strohmeier died at Central Point, April 21.

Mr. and Mrs. Jack Taylor and Mr. Taylor's parents, Mr. and Mrs. R. A. Taylor, of Kellogg, Idaho, are visiting the Jules Taylor family. They plan to spend the summer here.

Mrs. Chester Percell entertained with a birthday dinner Wednesday, honoring her mother, Mrs. Al Boone. Several families of relatives were present.

Oscar Knox is building two cabins at his camp grounds back of his service station.

Mrs. Helen Anderson, who returned home from the Sacred Heart hospital recently, is convalescing rapidly and able to see visitors.

Chester Percell has graveled the road in front of his residence, a much needed improvement.

Walter White of Medford, owner of a new Ford roadster, was driving in and around Jacksonville Wednesday trying out the new car. He also called on Fred Butcher.

Mrs. Lola Hildreath and Mrs. Ethel Olson were business callers in Medford Thursday.

W. R. Childers of Big Applegate spent Wednesday and Thursday in Jacksonville.

Mrs. William Hodges and son, Lester, of Brookings, Ore., visited with friends here Monday and Tuesday.

Wm. Edens is employed by Chas. Blitch to help build his new home.

Miss Isabe McCully and George Merritt visited friends in Medford on Wednesday afternoon.

Lester Wendt, son of Mr. and Mrs. George Wendt, returned home Thursday from the Jacksonville sanitarium, where he was taken because of injuries received Wednesday evening.

The bicycle he and Eunice Sanden were riding was hit by a car. Although Lester did not receive any serious injury, he was badly cut and bruised about the face. Eunice was uninjured.

Sam Coffman, who recently sold his place in East Jacksonville, has built a small house in South Jacksonville.

Mr. Arnett of Klamath Falls called here Thursday.

RESEARCH REVEALS ALL-BRAN RICH IN HEALTH-ELEMENTS

Helps Correct Constipation with "Bulk" and Vitamin B; Also Has Iron

Recent scientific research shows that Kellogg's ALL-BRAN contains two things needed to overcome temporary and recurring constipation. It has "bulk" to exercise the intestines, and Vitamin B to tone the intestinal tract.

These two important food-elements promote regular habits, and help do away with the headaches, loss of appetite and energy, so often the result of constipation.

The "bulk" in ALL-BRAN is mild in action—much like that of lettuce. Inside the body, it forms a soft mass, which gently clears the intestines of wastes. Special cooking processes make ALL-BRAN finer, softer, more palatable.

Isn't this pleasant "cereal way" far more healthful than using pills and drugs—so often habit-forming? Just eat two tablespoonfuls of Kellogg's daily—enough for most types of constipation. If your intestinal trouble is not relieved this way, see your doctor.

Besides, ALL-BRAN brings your body twice as much blood-building iron as an equal amount by weight of beef liver.

Equally tasty as a cereal with milk or cream, or used in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

Women Throng Stores to Get Free Soap

Thousands accept generous Crystal White Offer—lay in a 6 months' supply

Advertisement for Peet's Crystal White Soap. Features a large circular graphic with the text 'BUY THIS One Package of PEET'S CRYSTAL WHITE Soap Granulated'. Below the graphic are several boxes of soap, including 'PEET'S CRYSTAL WHITE SOAP GRANULATED' and 'PEET'S CRYSTAL WHITE SOAP FAMILY'. A small inset shows a woman pouring soap from a box. Text at the bottom of the ad reads: 'NEW! Handy Pouring Spout. This handy pouring spout makes it easy to get just the right amount of soap from the package. Saves time. No spilling—no wastage. This is an exclusive feature on the new Peet's Crystal White Granulated.'

Regular-size bars... the big, generous kind that are a joy to use. Fast-working, yet safe

"I tried your Peet's Crystal White Granulated in the new package recently. It's fine. My laundry came out just snowy white. I didn't think a soap could make so much difference." Mrs. D.— "I like a soap that gives suds, suds! And that's what won me to Peet's Crystal White Granulated the very first trial. And that new pouring spout is simply wonderful." Mrs. A.—

Go to your dealer today—buy one package of the new, improved Peet's Crystal White Granulated Soap—and he will give you free two regular-size bars of your favorite Crystal White. This offer is to introduce the new, improved Peet's Crystal White Granulated in the package with the exclusive economy spout. Peet's works in your water with astonishing efficiency. Clothes that look gray are transformed to snowy whiteness—because Peet's washes thoroughly, rinses completely. You'll note the difference in the very first washing. Use Peet's for every household soap use—not just for clothes. The new, handy pouring spout makes it easy to get just the right amount from the package. Crystal White products are known to Western housewives as the most efficient, thorough washing soaps of their kind. They give rich, powerful, concentrated suds, harmless to the hands or to the faintest fabrics. Don't delay. Every dealer's stock must be limited in this remarkable offer. Be sure to see your dealer today. It's your chance to save.
