COM

for COLICKY BABIES . . THROUGH CASTORIA'S

The best way to prevent colic, The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcetics. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, colds and fever. Keep genuine Castoria on hand, with the name:

Chart Fletcher CASTORIA

CHILDREN CRY FOR IT PAIN IN YOUR SHOULDER?

Use Tysmol for Relief

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neurtis, brought on by exposure to drawghts or sudden changes of weather. In some cases there is stiffness or screeness in the muscles, making it difficult to raise the arm. The safest and easiest may to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This scottling heal-sing preparation is quickly sheerbed.
