

EARL CARROLL'S VANITIES BOOKED AT K. F. MAY 16

Staged in 60 scenes and with a company of a hundred people, including some of the most beautiful girls in the world, the original New York production of "Earl Carroll Vanities" will show Monday night, May 16th, at Poole's Pelican theater in Klamath Falls, one of only five cities to be played on the Pacific coast.

During the building of the new Earl Carroll theater the eighth edition of this annual revue was produced in New York at the New Amsterdam theater, where a successful engagement continued for over seven months last season.

This "Vanities" is a funny, gorgeous and resplendent show with dancing all the way from the most intricate super-buck and wing to exquisite toe dancing and spirited ensemble effects in addition to comedy and color. Mr. Carroll planned to offer smart entertainment rather than devote this edition of "Vanities" to big names, and in his two principal comedians he has the material for royal good humor and he makes excellent use of Herb Williams, whose pathetic and uncertain manner is genuinely funny, and the diminutive Chas Chase, whose spontaneous clowning is always superb.

The scenic and costume equipment is nearly as big as the previous seventh edition of "Vanities." "The Moving Curtain of Splendor" and the "Field of Daisies" spectacles use the entire girl ensemble and their collective effectiveness is the result of Mr. Carroll's gift for making the decorative most out of staging feminine beauty.

"Strange Inhabitants of the Skies" is a modernistic ballet with costumes designed by Herr Boehm of Germany and made by Kauffman Studios in Berlin.

The first act finale, "Let Freedom Ring," is staged in 13 scenes with the entire company, who rap prohibition unmercifully in song, speech and pantomime.

The song hits include the popular "Goodnight Sweetheart," "Hitting the Bottle" and "One Love," and among the various ensemble dance numbers the Cuban "La Rumba" is outstanding.

WEST SEEKS TO REGULATE TRUCKS

PORTLAND, May 6.—(AP)—Plans to submit to the voters of Oregon at the November election a proposal to remove heavy freight truck trailers from the highways and bring contract carrier operation under regulation of the state utilities commissioner, were announced here last night by Oswald West, former governor, and now president of the Highway Protective association.

West proposes a vote on his suggestion to impose a fee of 1 1/2 mills per ton-mile and to increase to 1 1/2 mills the ton-mile fee for commercial freight common carriers.

He said his association plans to circulate initiative petitions to put the proposed law on the November ballot.

OVERWORKED BOY ROUSES COMMONS

LONDON.—(AP)—A boy in his early teens has been discovered working as errand boy in a bakery from 8 a.m. to 7 p.m. each day, and continuing on until 1 a.m. of the next morning breaking eggs for pastry.

His case was brought before a committee taking evidence on the "young persons bill" for the House of Commons.

Testimony was placed before the committee on overwork, low wages, and improper regulation of child-labor in the United Kingdom.

DRUNKEN WOMAN SMASHES AUTOS

PORTLAND, May 6.—(AP)—Jane Howell of Salem was charged with reckless driving, and three passengers in her car were charged with drunkenness after the machine she was driving crashed into another car at an intersection here late Thursday. Her bail was set at \$1,000.

Arnold Pittman of Portland, riding with her, suffered severe head injuries. He was charged with drunkenness, and taken to a hospital.

The others in the car were Mrs. Pittman and Oley J. Leffingwell of Salem, both of whom were accused of drunkenness.

SELLS COW, BUYS CAR FOR FREE FOOD TRIP

ARKANSAS CITY, Kan.—(AP)—J. Clarence Anderson's means of getting a livelihood might never have come out if he hadn't been driving his automobile with one headlight.

Brought into court he protested he had no money to pay a \$5 fine and admitted he had been living "off the county." He sold a cow, he said, to buy the machine so he could drive the two and one-half miles to get his free groceries.

CAN'T FIRE TEACHERS WHO TAKE HUSBANDS

SALEM, May 6.—(AP)—School boards can not terminate contracts with female teachers upon the marriage of such teachers, the attorney-general held in an opinion given on teachers' contracts today. Married teachers, if wed after entering the contract as teacher, have the legal right to continue until the end of the contract, he held.

O'CONNOR RENAMED ON U. S. SHIPPING BOARD

WASHINGTON, May 6.—(AP)—President Hoover today reappointed T. V. O'Connor, chairman of the shipping board, for a new term as a member of that board.

WASHINGTON LASSIES OUT FOR NATIONAL HONORS

Helene Madison (left) and her teammates from the Washington Athletic Club of Seattle, plunge into the new Olympic tank in Los Angeles.

SHEEP PRODUCING GOOD ROADS CUT

COLUMBUS, Ohio.—(AP)—C. R. Arnold, Ohio State University extension economist, is of the belief

good roads are partly responsible for decrease in the number of sheep in Ohio.

He explains it thus: Improved transportation facilities encouraged the growing of crops and raising of livestock other than sheep, particularly dairy cattle.

Fifty years ago, he says, five million sheep were raised on Ohio

farms. The 1930 census shows this number has dwindled to two million.

PHOENIX GRANGE DANCE PLANNED FOR SATURDAY

PHOENIX, May 6.—(Sp.)—Phoenix Grange will entertain with a dance Saturday night.

Jet is inflammable.

NEBRASKA TOWN SLASHES TAXES AS FUNDS GROW

TRENTON, Neb.—(AP)—From this little Nebraska town comes a note of cheer in the midst of gloom over mounting taxes.

Trenton, let it be known, is slashing taxes right and left—and there's still a surplus in its treasury.

So far this year, Trenton's not quite 900 citizens have made these changes to lighten the tax load:

The village tax has been eliminated, light, heat and power rates have been cut, and village officials have reduced their own salaries and selected other economies to hold down expense.

Revenue from the municipal light, water and ice plant is expected to pay all the town's expenses. The plant, valued at more than \$100,000, also supplies ice to several nearby towns.

In the last few months Trenton has paid \$5,000 on its bonded indebtedness—and there's enough surplus in the treasury to pay all bonds yet due, except refunding bonds.

Abolishment of the village tax has been followed by reductions in rents, which has been anything but displeasing to renters.

In spite of its economies, however, Trenton boasts one of the best street lighting systems in any Nebraska town. It has 18 blocks of "white

way," and its streets are kept in tip-top condition. Picture frames made to order. The Peasleys, opp. Holly theater.

When You're Drumming Up Business

With Classified Or Display Advertising

Depend Upon A. B. C. CIRCULATION

—You KNOW Just How Many People Will Read Your Message

It is often a waste of money to advertise blindly... because of the importance of selecting the BEST media, national advertisers are depending upon AUDIT BUREAU OF CIRCULATION to eliminate the guesswork from newspaper figures. H. C. Ogden, publisher of The Wheeling News and Wheeling Intelligencer of Wheeling, W. Va., in speaking of A. B. C., says: "It is undoubtedly a protection, a defense for the honest newspaper that is trying to sell honest circulation"... The Mail Tribune spends considerable money each year to give southern Oregon advertisers an ACCURATE, AUDITED CIRCULATION report... to eliminate the uncertainty of "claimed" circulation.

—It's A. B. C. Circulation That Counts You Get It When You Use This Paper

In Buying Potatoes or Lawn Seed—

In fact anything you buy—it is natural to demand MEASURED WEIGHT—You do not wish to depend upon the judgment or guesswork of a clerk. Isn't it equally wise, in buying a display or classified ad, to insist upon FULL MEASURE for your dollar? The AUDIT BUREAU OF CIRCULATION is the scale upon which newspaper circulation is measured... You're playing safe when you depend upon A. B. C.

W. C. Hawley

Republican Candidate, born and raised on an Oregon farm. Member of Joint Committee that framed the Federal Land Bank system. Has supported the Joint Stock Land Bank legislation and Intermediate Credit System, and other bills for the relief of agriculture.

Supported the special federal tax on oleomargarine and legislation protecting butter from unfair competition of oleomargarine. Agricultural schedules in present tariff act afford higher rates of protection than any previous act. Rendered special service to Oregon cherry growers, bulb growers, nut growers and various other producers of the State of Oregon. Placed duty on baby chicks and other duties protecting poultry producers. Increased duty on milk products, such as butter and cheese; also duty on flax and its products, on field and garden seeds, on meats, hops, lumber and practically every product of the farmer. Supported legislation for disposal of surplus crops.

Has obtained more than \$50,000,000 for Public Improvements in District. HE IS CLEAN, CAPABLE, EXPERIENCED, FAITHFUL, SUCCESSFUL. Read his Record of Successful Service in Voter's Pamphlet.
