

ELECTION AIDES INSTRUCTED FOR COMING BALLOT

(Continued from Page One)

tives had been trampled. "It's up to the election board to get them into a booth," declared the clerk. Clerk Meyer urged extreme care, so no flimsy technicality could be invoked by a defeated candidate for that will cost somebody a lot of money. Instructions were given on signing the poll books, issuance of ballots, stringing of ballot number, and other details. Owing to the large registration, the election boards were instructed to see that the polls were opened promptly at eight o'clock in the morning. In the Ashland Boulevard, Eagle Point and the following Medford precincts: North Riverside, Newtown, Northeast, Southeast, Southwest, West and Northwest, the counting board was ordered to report at ten o'clock in the morning. In all other precincts, the counting boards were directed to report at one o'clock. The first boards will report for duty a few minutes before the opening time - 8 a. m. The election officials were instructed in counting the written names. The law provides, if a name is written in, it is counted upon the ticket upon which it is written and not on the ticket on which the candidate is running. It does not count unless an X is marked in front of the name, or the intent of the voter clearly shown. When the polls are closed, all unused ballots must be destroyed by "burning or tearing in two." "Don't give any to your neighbor's children to play with," the clerk warned. One lady present, caused laughter by asking "How about lunch." A lady from Ashland opined, "This is a man's question." Lunching was left up to the boards, but they must not take more than one hour, and be in possession of the ballots and poll books at all times.

FARMERS FIRE ON NIGHT PROWLERS

Reports were received by county authorities today that irate farmers in several parts of the county had opened fire the past week upon night prowlers around their gasoline supplies without hitting the marauders. One thief outran a police dog to the barn door. The weapons for the most part were loaded with rock salt. The gasoline thefts are laid to car owners with empty gas tanks and a desire to go places, and no scruples about petty stealing. Oil and spare tires are also included in the loot. What makes the loser maddest is when the thief fills his own tank and then leaves the pet-cock open, causing the gasoline to run on the ground and be wasted.

Portland Unit of Loose-Wiles Wins Trophy for Sales

W. A. McDonald, Portland, manager of the Loose-Wiles Biscuit Co. these days wears a face wreathed in smiles. His bakery has just won permanent possession of the president's cup, offered three years ago by W. H. Murrill, president of the Tru-Blu Biscuit company and now Spokane manager of the Tru-Blu division of Loose-Wiles, for competition between the three Tru-Blu bakeries in Portland, Seattle and Spokane. The winner each year was to be the bakery showing the largest increase in sales of Sunshine Milk and Honey Graham Crackers. Permanent possession of the coveted prize was to go to the branch which first won for two years. The name of the Seattle bakery was inscribed on the cup for 1929, but Portland won in 1930 and came in first again last year. So the shining silver cup now graces the Portland office and is proudly exhibited to visitors by the Portland salesman.

"It was a very close race, particularly during 1931," said Mr. McDonald, "and it took a lot of hard work to nose out Seattle and Spokane. We did it though, and I'm mighty proud of our men; and gratified with the constantly growing sales of all of our Sunshine crackers. No one can say that business conditions are very good, but we are very optimistic about the future here in Oregon and all up and down the Pacific coast. The first unit of our new one million dollar bakery in Los Angeles will be ready for occupancy about June 1."

Honor Mr. Collett With Reception As School's Principal

SAMS VALLEY, May 12--(Sp.)--About 45 high school students and alumni gathered at the school house Tuesday evening and surprised their retiring principal, A. B. Collett, with a reception that included the members of the school faculty and friends. Professor Collett was requested to be at the school house on pretense of coaching a play and was dumfounded when he met the crowd. While at the table or refreshments, Miss Mary Hensley, with a fitting speech, presented a student to Mr. Collett from the gifts and graduations. The receiver responded by speaking of the pleasure he had had during his nine years of service in the Sams Valley school. Many of the graduates offered toasts. Mr. McKnight of Flora will fill Mr. Collett's position. The latter will probably spend part of next year with his parents in Iowa. Miss Lucile Holdridge, who also leaves Sams Valley, was presented a token from her students.

End Piles Quick No Salves—No Cutting. Your itching, bleeding, protruding piles will go when you actually remove the cause—bad blood circulation in the weak, flabby parts—and not one minute before. Salves or cutting can't do this—an internal remedy must be used. HEM-ROID, prescribed by Dr. J. S. Leonard, succeeds because it stimulates the circulation, drives out congested blood, heals anal tendons, the almost dead parts. HEM-ROID has such a wonderful record right in this city, that Jarman & Woods say one bottle of HEM-ROID Tablets must end your pile agony or money back.
