6 RATTLE SNAKES KILLED AT J'VILLE

The rattlers are out, but they aren't rattling. Is the news brought here by Ray Shost and C. Woodruff, who caught six rattlesnakes on the hill above Jacksonville Wednesday. None of them rattled, but all were very much alive, and coaxed out by the sudden spell of warm weather, the capturers believe.

One snake, a diamond back, had 16 rattles, and the other five had four to eight apiece. The snakes were caught with pole and noose. The men noticed some rattlers out Sunday and started on their expedition Wednesday.

Pankey, Pioneer Dies in Klamath

H. T. Pankey of Central Point today received word of the death this morning of W. H. Pankey of Lorella, Klamath county. Mr. Pankey died at the Klamath Falls hospital. The deceased was an old pioneer of this section, having come to the Rogue River valley in 1877. He left here in 1895, and has resided in Klamath county since then. He was about 70 years of age.

KERR CANDIDACY FOR CHANCELLOR IS ALUMNI MOVE

A statement that President W. J. Kerr of Oregon State college is not being considered by the board of higher education for the post of chancellor of Oregon's institutions of higher learning, was issued by Albert Burch, board member here late Wednesday.

This comment was made in connection with the efforts of the state college alumni association to obtain Dr. Kerr's appointment to the chancellorship. Burch said the board had no statement to make except that Dr. Kerr "is not being considered by the board, and as Dr. Kerr has intimated, he is not seeking the chancellorship."

CORVALLIS, Ore., May 12.—(AP)—Although a statement from the office of President W. J. Kerr in connection with the activity of Oregon State college alumni in urging his appointment as chancellor of the higher educational system, had been promised newspapers Wednesday, no such statement was given by the president.

Instead, E. C. Allworth, secretary of the alumni association, observed that the move in the direction of Dr. Kerr's appointment was taken without the president's consent and that it is "definitely understood that he was not a candidate and was not interested in the position."

BUDDY POPPY SALE HIGHLY COMMENDED

The Buddy Poppy sale of the Veterans of Foreign Wars, to be conducted in this city on May 20 and 21, is worthy of the commendation and support of everyone. These blossoms, emblems of the supreme sacrifice of our brave boys on the field of battle, have also an added significance, as they represent the handiwork of disabled veterans in government hospitals throughout the country. Each Buddy Poppy, in its making, helps the handicapped veteran to help himself. To do all we can to help the sale of the Buddy Poppies is the slightest and easiest gesture we can make to show the men who offered to their country their lives and future welfare that we are still mindful of their sacrifice and obligation.

BEARS APPEARING IN CRATER PARK FOLLOWING SLEEP

CRATER LAKE NATIONAL PARK, Ore., May 12.—(Special)—Although snow conditions in the Crater Lake region are still indicative of winter, reaching a depth of 18 feet in the rim area, bears have given up the comforts of winter hibernation to make their presence known in the neighborhood of Government Camp where they have been familiar sights for several weeks.

The first bear was seen over six weeks ago at a time when it was least expected to appear in view of the stormy weather. It announced itself by scratching on the second story window of the bunkhouse at Government Camp in an effort to clamber inside. Although there were quite a number of days of stormy weather, the bear made regular appearances. As time went on, it was joined by others until now there are six lingering near the bunkhouse, much to the delight of park visitors.

kitchen attract the bruins near this point and while they are docile, unimpaired of the proximity of people, the bears are not to be approached too closely or to be fed bits of food by visitors. They are willing posers for camera pictures if a discreet distance is kept. As milder weather approaches, more bears will leave hibernation to greet visitors. Most of them have been named and appear year after year as their part in being one of the popular park attractions.
