SANDWICH, England, June 7.—(AP)—America's "big three" in the British open golf championship—Tommy Armour, defending champion, MacDonald Smith and Gene Sarazen—safely qualified today for the 72-hole of medal play proper, but British golfers furnished all the fireworks.

Smith and Armour had 36-hole totals of 146, Smith with 73-73 and Armour with 75-71, and Sarazen, one of the leaders yesterday with a 73 took 76 for a 36-hole total of 149.

Alfred Robert Bradbeer, young Somerset professional, held the lead, with only a few scores yet to be posted, with a fine total of 141, adding a 71 to his 70 of yesterday.

The main interest, however, was furnished by Eric McIvor, young Scotch amateur and Walker cup player and Don Curtis, English professional, who scored 69 over Prince's record of 74 stretch to break the course record of Jock Hutchinson and Arthur Havers by two strokes.

Two American amateurs among the early finishers also apparently had qualified. Robert Sweeney, American student at Oxford scored a 76 today and had 75-10-151; and Douglas Grant, American living in London scored a fine 72 over his home course for a 36-hole total of 152. Ross Thompson, of Uniontown, Pa., was on the border line with 80-78-158.

### BEAVERS, INDIANS FURNISH INTEREST

(By the Associated Press) All teams of the Pacific Coast league will play in their own localities this week to save traveling expenses on long jumps. Seattle plays at Portland and Hollywood at Los Angeles, while the other teams open split week bills today.

The Missions will entertain the Oaks in San Francisco on three afternoons. The Seals open a three-game series in Sacramento tonight.

On the basis of recent activities the two northern clubs should stage the most interesting fight of the week. Winning 13 out of the last 18 games played, Portland climbed into a tie with Hollywood for league leadership. The Seattle Indians last week boosted themselves from seventh to sixth place by pushing the Senators down a notch, and after George Burns began as manager won six out of seven games.

Savoldi weighed 198 pounds and Adoree 205.

### CAPACITY CROWD LOOMS FOR CARD

A capacity house looms for the June 15 opening fight offering of Mack Lillard, newly appointed Medford boxing promoter. Tickets for the card have been going like the proverbial hot cakes with fans enthused over the prospect of seeing Leo Louiski, famed "Aberdeen assassin," do battle with Frank Sawyer, claimant of the Canadian title, in the 10-round main event.

### BECKER DEFEATS BULLDOG JACKSON

KLAMATH FALLS, June 7.—(AP)—Pete Becker, Klamath Falls, defeated Bulldog Jackson, Portland, in two out of three falls in the main event of a wrestling card here last night. Becker won the match on a foul and then returned to the ring to take the third fall after Jackson had protested the referee's ruling.

## Tips on CONTRACT

By Tom O'Neil Five trumps in one hand, headed by the knave and ten spot, would seem to promise defeat of a slam effort, but success under such difficulties is one of the accomplishments of Hugh McElroy of New York. Here was the hand:

McElroy opened with a forcing bid of two cards, requiring a response from partner whatever held. East and West never bid. North responded to the first bid with two spades, South bid three clubs and North offered three no trump.

Then McElroy went to six clubs, being satisfied that his partner had a trick in spades. The slam bidding was unusual in that partner constantly warned he had no support in clubs. McElroy felt he needed no trump support because of the great length in his own hand.

## SLUGGING PHILS SPELL TROUBLE FOR BUCCANEERS

(By Associated Press) Should Burt Shotton's Phillies get even possible pitching the next two weeks, they are likely to make a world of trouble for their guests from the western end of the National league. Starting today against the Pittsburgh Pirates, the slugging Phils entertain Cincinnati, St. Louis and Chicago in that order, and they promise to be anything but a soft touch in their own Baker Bowl with its inviting right field wall.

The club still is without a competent pitching staff, but it has probably the most effective "wrecking crew" in the National league, with Chuck Klein, Pinky Whitney and Don Hurst the big guns. In their last 15 games, of which they have won eight, the Phils have batted an average of 11 hits and scored better than seven runs to the coast.

## GIRLS' BASEBALL TEAM HAS MANY ATHLETIC STARS

Girl stars whose names have been famous in Middle West athletics for four years will be seen with the S. K. S. L. Girls' Baseball club when they appear here July 17. The organization which was built up during that period has combined together a group of versatile, feminine players who are in the thick of athletic the year round. Outstanding is Corene Jaax, who plays first base for the club. She is one of the charter members of this club of nationally known players, and is as proficient in three other sports as she is in baseball. Another player of the Girls Baseball club, whose name has become famous during the past few years is Myrtle Brockert, who will play second base in the game here. Myrtle was national free-throwing champion in basketball in 1930 and 1931, and is a member of the Wichita Thunder, a teammate of Corene Jaax.

# A FRANK CONFESSION

—A STATEMENT BY THE GILLETTE SAFETY RAZOR COMPANY

THE Gillette Safety Razor Company feels called upon to make a confession and a statement that are undoubtedly unique in the annals of American business. It is with deep regret and no little embarrassment that we do this in order to tell you frankly what actually happened when we introduced a new Gillette razor and blade.

Soon after this was done, we found that, although the great majority was pleased, some users complained quality was not up to standard. We learned why. Our equipment had not been equal to the task of producing millions of blades at high speed without a certain variation in quality that affected a small portion of our output. As a result some blades that left the factory were not as good as you had a right to expect.

Immediately we directed our principal effort toward the achievement of uniformity. Everything within our power was done to end variation. More than this—impossible as it seemed of accomplishment at the time—we set out to develop or find a better production process, having as a major requirement the elimination of varying quality.

We discovered and purchased for our exclusive use and at the cost of millions of dollars a manufacturing process that was amazingly superior to our own.

By this method, modern and automatic, millions of blades can be made at top speed without variation in quality.

We incorporated refinements of our own invention and installed the new machinery, throwing out all of our old equipment.

Now we announce today's Gillette blades, made by the new management. The usual superlatives have no place in this sincere statement of ours, so we will let the quality of the blades speak for itself. The green Gillette package remains unchanged, but the blades are new in every respect, quality, performance, and method of manufacture.

You can try today's Gillette blades without risking a cent. If you don't agree they are superior, return the package and your dealer will refund your money. Our reputation depends upon the proof of these claims. Being absolutely certain of the quality of these Gillette blades, we do not hesitate to make this statement over our signature.

The Gillette Blue Super-Blade The \$2 Kroman De Luxe blade has been withdrawn from production. We offer the Blue Super-Blade as its successor. This sensational blade is far superior to the Kroman and costs considerably less. You pay only a few cents more than for the regular blade and get unmatched shaving comfort. Its extraordinary shaving performance will convince you that the Blue Blade is the sharpest ever produced. A blue color has been applied to the blade for easy identification. It is contained in a blue package. Cellophane wrapped.
