Friedman and Company, one of the oldest popular priced clothing houses in the United States, arrived in Medford this morning on his regular business tour. He was enthusiastic in his description of the present day outlook, stressing the values to be obtained by the buying public. "Woolens are as low now as they have been during any period of the past 30 years," he stated. "Now is certainly the time to buy. Values are even better than ever before, for when prices struck low levels in the past, tailoring had not been developed to the fine degree it has today." Mr. Grund makes his home in Los Angeles and has been traveling through this region for 20 years.

GARNER PROGRAM APPROVAL LOOMS IN LOWER HOUSE

WASHINGTON, June 7.—(AP)—The House today voted to consider the Garner relief program under drastic procedure that virtually assures its passage in a short time. By vote of 205 to 180, it accepted a rule for consideration of the bill under which it will be impossible to get anywhere in the House with any other relief plan.

Debate on the bill is limited to three hours. An effort will be made to secure action late today or early tomorrow. Republicans voting with the democrats for adoption of the drastic rule were: Adkins, Illinois; Butler and Boileau of Wisconsin; Burt, Oregon; James, Michigan; Pittenger, Minnesota; Schneider, Wisconsin; Sinclair, North Dakota; Swing, California; Taylor, Tennessee; Withrow, Wisconsin.

Democrat voting with republicans against the drastic rule were: Cannon, Louisiana; Rouse, Missouri; Howard, Norton and Morehead, Nebraska; Illinois.

Portland Taxi Drivers Strike — PORTLAND, Ore., June 7.—(AP)—More than one hundred taxi cabs were left in their garages here today as the drivers went out on strike against a cut in wages. Union officials said the drivers were meeting \$1 a day and the cut effective today, reduced the pay to \$2.50. The companies involved in the strike were the Ed Top, Brown and White, Dugan, De Luxe and General. Efforts were being made to adjust the difference today. The city council two weeks ago passed an ordinance setting a minimum as well as a maximum rate, ending a rate war which had given the city the lowest cab transportation in history.

'GO TO HELL' IS JIM HAM'S WORD TO BONUS BOYS

WASHINGTON, June 7.—(AP)—"You can go to hell," was the response a group of "bonus marchers" got from Senator James Hamilton Lewis, when they accosted him in the corridor of the capitol.

The pink-whiskered senator is noted for his courtesy and courtly manner. He is also a veteran of the Spanish-American war.

He was accosted by a group of bonus marchers as he entered the capitol yesterday and they began to urge him for a speech he had made urging them to leave the city.

They began to argue with him, and said they had voted for him but still had votes.

"If you are from Illinois, you are dishonoring the state," Lewis shot back at them. The senator, as he told the story today, then warned he would do his best to stop all veterans legislation while they were in Washington.

"We are here to see that you fellows get right and we are going to stay here until we do what we want done, the spokesman of the group said.

By this time quite a group had gathered around, including several other senators.

"You know where you'll go, don't you?" one of the group said, finally. "I don't know what you mean," Lewis shot back, "but you can go to hell and I'll go back into the senate to my duties."

Lewis said today he was sorry he "lost" his temper but he did not believe any of the men who accosted him were veterans or Legionnaires. He called them troublemakers who had organized the march to take advantage of former service men.

ARMY AIR FLEET COMES THURSDAY

The city of Medford will be host to a fleet of army planes Thursday morning, according to announcement of the chamber of commerce today. The 77th and 55th pursuit groups, composing the Twentieth Aerial Squadron, will set down at the local field at 10 o'clock.

There will be 38 ships in the formation, under the command of Major Tinker, and the squadron will be preceded to Medford by two pilot ships, and one, a Keystone bomber.

TENGWALD'S WALTZ IS PLACED ON SALE HERE

With a beautiful photo in blue or Crater Lake on the cover, the first edition of "The Waltz" by Tengwald is being published, and placed on sale at Medford stores, as well as at Crater Lake.

The United States' commissioner's composition has been placed in Pruitt's Melody Shoppe, Palmer Music House, DeVoe's and Gardner's, Mr. Tengwald said today.

Robert Montgomery Craterian Tomorrow

Those hundreds of Medford fans who so highly admire Robert Montgomery are in for a thrill when his newest and most sensational success "But the Flesh is Weak" comes to the Fox Craterian theater tomorrow and Thursday.

This highly clever comedy story tells of a young man who sets out to marry a girl for her money alone, and during the quest, in which he meets such a woman, he also meets a girl who wins his love, although she is distressingly poor.

Those who remember Montgomery in "Private Lives" with Norma Shearer and his later success "Lovers, Courageous" with Madge Evans, will thoroughly appreciate the statement that "But the Flesh is Weak" has more love thrills, more romance, more laughs, more snap and daring than those two rolled into one.

Supporting Montgomery in this newest hit are Nora Gregor, Edward Everett Horton, G. Aubrey Smith, Nils Asther, Heather Thatcher, Eva Moore and many other talented players.

As a special additional attraction, on the stage, a colorful and elaborate dance revue featuring Eve Benson and stars will offer several bright acts of entertainment. The stage show will be presented once each night at 8:00 o'clock p. m.

The final performance of John Barrymore in "State's Attorney" will take place tonight.

James Cagney Star Coming Holly Film

Since they made such a hit in "Blonde Crazy" James Cagney and Joan Blondell have not been cast together in a picture since. However, we find these two vivacious young stars teamed together again in "The Crowd Roars," and they are supported this time by Eric Linden and Ann Dvorak.

Aside from the splendid performances given by these young people "The Crowd Roars" offers something startling and new in entertainment. Two agile taking pictures at a ground speed of 125 miles per hour! Imagine fifteen of America's greatest race drivers giving all they have to create thrills and novel shots for this speeding camera! Then you will have an idea of what you can expect from "The Crowd Roars." There were 14 cars actually wrecked during the filming of this picture and oddly enough, none was killed although several were seriously injured. The picture opens at the Holly tomorrow and patrons are assured of an evening full of breath taking entertainment as well as thoroughly enjoyable humor and a tender love story.

LOCAL MAN WINS \$500 CASH PRIZE

Ernest Meier of this city is winner of the \$500 prize offered in the Palm Olive Shaving Cream contest for the month of May, according to word received today by the Mail Tribune from J. A. McPherson, director of research for Lord & Thomas and Logan, advertising agency of Chicago. Meier's "blurb" was adjudged the best turned in for the month of May.

Mr. Meier, according to the letter, will receive his check within a week or 10 days, when all are mailed from headquarters. He was given the news of his good luck by Herb Gray, manager of the advertising department of the Mail Tribune, with congratulations from the newspaper.

The Colgate-Palmolive-West company is giving prizes amounting to \$25,000 over a period of six months, making \$4200 each month, for the best "blurb" sent in on either Colgate or Palmolive Shaving Cream. The contest ending May 31 was the fourth in this series, and the judges thought so much of Mr. Meier's entry that they voted him the first prize. Mr. McPherson writes.

ROTARY HIGHWAY SIGNS DISPLAYED

An advance showing of the unique scenic panels designed to attract tourist travel to Medford and Southern Oregon was made at the city park today, and caused much favorable comment from those who viewed these specimens of modern advertising art. This novel advertising program which is sponsored by the Medford Rotary club is expected to stop thousands of tourists in this territory this season by telling a picture story of the many scenic attractions near this city. The Rotary panels feature beautiful oil paintings of Crater Lake, Lake of the Woods, Diamond Lake, Rogue river and other vacation spots and will be placed in prominent locations at 5-mile intervals north and south of Medford. Other panels bringing out the agricultural, industrial and educational advantages of this city as well as the million dollar water system and similar subjects will also be displayed to advertise Medford as an ideal place to live.

Only a few of the proposed panels were on display today, others being in course of completion by the Cleveland Studios of this city. Of special interest was a series of four paintings showing the origin of Crater Lake with each step faithfully portrayed by the artist. This series proved of educational benefit to many local people who were not fully aware of the process of formation of this famous scenic wonder and is bound to cause favorable comment from the tourist.

In response to popular demand, the Rotary club has arranged to display the panels again tomorrow in order that all local citizens may see them before their installation throughout Southern Oregon and Northern California.

FINANCIAL SKIES BRIGHTENED FOR LEADING BANKERS

By Frank H. McConnell (Associated Press Financial Writer) NEW YORK, June 7.—(AP)—The financial skies look a little brighter to Wall Street's leading bankers.

They naturally are cautious. Bankers usually are—particularly after a two and a half year drought.

One leader of the banking community, whose counsels are treasured by his conferees, has completely reversed a viewpoint held last February. In February, he felt the early prospect for business and finance was unencouraging because (1) Washington seemed to be making no headway toward balancing the national budget and (2) there appeared, as he described it, to be a disposition in congress to tax the life out of security transactions.

Today, he feels encouraged because (1) congress has now finally determined upon taxation to put the government's finances in order, (2) France is showing a more conciliatory attitude toward German reparations payments and (3) there has been an unexpectedly good response in this country to the recently announced plan to form the \$100,000,000 American Securities Investing corporation to invest in prime corporation securities.

Public response to the formation of this large investing corporation is described as one of the impressive developments of the last week.

Wheat Improved WINTNFIELD, June 7.—(AP)—John I. McFarland, general manager of the Canadian wheat pool, today said that "the world wheat situation has definitely improved the last few months." He also declared that "prices should readily respond to any improvement in world financial conditions."

300 RUSS FISHERMEN ARE FEARED DROWNED

TOKYO, June 7.—(AP)—A dispatch to the Hengo News Agency from Hakodate, Japan, today said grave fears were felt there for the safety of 300 Russian fishermen and forty members of the crew of the Japanese fishing steamer Genzan Maru who have been missing since abandoning the ship yesterday off Karasansky Island, east of Kamchatka.

Four steamers, including the Seattle-bound liner Nikawa Maru, heard the SOS signal from the Genzan before she was abandoned.
