

# RELIEF PROGRAM IS ADOPTED FOR CITY UNEMPLOYED

(Continued from Page One)

Meeting called by Mayor E. M. Wilson and adopted by the relief program outlined by the ways and means committee of the Medford Association of Unemployed. A ways and means committee, representing the city, was authorized to cooperate with the committee from the unemployed in putting the plan into immediate action. The two groups will act as a board of control to promote the relief program.

The meeting was the largest and most enthusiastic held since Medford and Jackson county as a whole have come to realize the existence of the unemployed problem. Representatives of all service clubs, the county court, city council, city health unit, secretary and board of directors of the chamber of commerce, community chest officials, officers of the Fruit Growers' league, Traffic association, financial institutions and industries, as well as the unemployed population, were in attendance.

Program Detailed by Barnes

The program developed by the jobsless through weeks of earnest consideration of the situation, was traced by J. C. Barnes, their spokesman. Through the use of charts and the written recommendations of the association he explained in detail the demands and operation of the program, which through cooperative effort will supply food, shelter, lights and water to the unfortunate ranks who are anxiously awaiting the day when the wheels of industry will be turning again.

Before introducing the plan, which provides for an exchange of labor for supplies and services, Mr. Barnes traced the history of Medford to impress upon his audience the seriousness of the present day problem and the obligation owed the ranks who have participated in the progress of the city, only to find themselves today with all "the work finished."

Many Lack Necessities

"Many families are without milk, many others are unable to pay for the mountain spring water, of which Medford has boasted. Many more are unable to pay for their lights," Mr. Barnes pointed out.

"They have been builders and spenders," he declared, "and certainly deserve to remain workers. That is all they are asking. They can no longer pay for these services in cash. So we have devised a plan whereby they may pay for them in labor."

Under the program advanced a business agent's office will be provided by the city council, without extra burden upon the taxpayer.

The unemployed association will

issue labor agreements, which will be exchanged for services and in turn sold and the funds, derived, placed in care of the city treasury. The man no longer able to pay for the water supply in his home, for example, will join the association, which acts as a responsible agent to the city. He will sign an individual labor agreement for the amount of water to be used. He will in turn receive an order for the water and a labor agreement, endorsed by the unemployed to the amount of the order, which the city will accept for water payment in lieu of cash.

Provision of lights and other programs, necessary to subsistence, would be supplied under the same general plan.

The eligibility of applicants under the program will depend upon county citizenship and ruling by a committee.

Provide Storehouse

Another feature of the recommendations, adopted at the open meeting, provides for the creation of a storehouse in which supplies can be stored for distribution. Steps will be taken to trade with farmers for fruits and vegetables.

Provision will also be made for the city's unemployed youth through organization of a club for work and study. Recreation camps are suggested as a further development along this line.

Stressing the need to keep Medford people within their homes, Mr. Barnes called attention to the fact that of the unemployed ranks registered in the recent call, nine out of ten expressed the desire to "return to the soil, to get back on the land."

Want No Transients

"We want these men to stay within their homes," he stated in refutation of such a program, "and we want the unemployed of other regions to stay out of here. The influence of previous advertising of Medford, Mr. Barnes cited as the cause of the probable gathering here of many transients.

Following presentation of the recommendations, Mayor Wilson called for open discussion. W. A. Gates in response introduced a proposal for equal division of employment as a solution, stating that he would willingly add to the staff of his stores if other merchants and business men would do the same. Under his suggestion the socialistic plan of dividing the work among the workers would be adopted. The suggestion was followed by spirited applause from the unemployed ranks but no action was taken regarding the matter.

O. O. Alenderfer voiced his approval of the recommendations presented. A repeated call for discussion brought no more comment from the floor and the resolution was presented and adopted.

A meeting of the joint committee will be called in the near future, with the following group continuing to represent the unemployed: Guy L. Ray, Frank L. Applegate, K. J. Knutson, H. O. Wilson and W. H. Jarmin.

# TOLLEFSON GIVEN EXECUTION STAY BY HIGHER COURT

A stay of execution and writ of probable cause was issued this morning by the state supreme court in behalf of Alvin Tollefson, confessed Central Point bank robbery hoaxer. The stay of execution was signed by Chief Justice H. J. Bean of the supreme court, and was telegraphed for service upon County Clerk Delilla Stevens Meyer and Sheriff Ralph G. Jennings.

Tollefson was sentenced to serve two years in state prison, by Circuit Judge H. D. Norton, on June 19, last, and ten days extension of time was granted before issuance of commitment papers. The period of grace expired today.

The legal maneuvering is preliminary to appealing to Governor Julius L. Meier for a pardon or remission of sentence. Under the Oregon law, a period of 30 days must elapse between the time of filing a clemency plea and the date of filing with the district attorney, of intention to seek executive clemency. The stay of execution and writ of probable cause, assures Tollefson liberty until the governor makes a final decision.

Notice of intention to seek clemency was filed with the district attorney yesterday by Tollefson through his attorney, A. E. Reames. Notice of intent to seek a writ of mandamus directing Circuit Judge Norton to issue a writ of probable cause was also filed yesterday.

The notice of plea for executive clemency, is based upon the following grounds:

That no indictment was returned, or complaint filed; that Tollefson perpetrated the ruse, with no intent to injure or defraud; that the alleged abstraction of the money from the bank, constituted no felony and that the facts as presented do not constitute a crime. It was also stressed that no officer, stockholder, director, or depositor in the bank had made complaint, but instead had signed petitions seeking a parole.

It is also set forth, that Tollefson has never before been in trouble, that his recent court experiences have been a lasting lesson, and that evidence will be presented to the governor in due time supporting the plea for clemency.

At the time of sentence, no recommendations were made by the district attorney, but Tollefson's signed confession was presented to the court. Tollefson in the statement admitted that he defaulted, and re-

ported a fake bank robbery to cover up defalcations lost in gambling. The last time a writ of probable cause and stay of execution was issued for this county was on behalf of James Kingsley, afterwards hanged for the murder of Sam G. Prescott, Ashland policeman.

# Do you inhale?

The tobacco trade is at "sixes and sevens" on this embarrassing question

DO you inhale? This simple question caught the cigarette trade by surprise! "Why bring that up?" they asked. "Why don't you let well-enough alone?"

But "well-enough" is not enough for Lucky Strike! The subject of inhaling is vitally important... for every smoker inhales knowingly or unknowingly. Every smoker breathes in some part of the smoke he or she draws out of a cigarette!

Do you inhale? Lucky Strike dares to raise this vital question... because Luckies' famous purifying process removes certain

impurities concealed in every tobacco leaf! Luckies created that process. Only Luckies have it!

Do you inhale? Remember—more than 20,000 physicians, after Luckies had been furnished them for tests, basing their opinions on their smoking experience, stated that Luckies are less irritating to the throat than other cigarettes!

**"It's toasted"**
