

AUTO INSURANCE BASED ON RATIO TRAFFIC MISHAPS

"At this season of the year when every car able to run is out on the road it is vastly important for the insured motorist to remember that today he is making the insurance rates of tomorrow. It is for him, therefore, to decide now whether he will have those rates higher than they are now. That is the warning of T. E. Daniels, local insurance agent.

"No insurance company makes rates," says Mr. Daniels. "That is a most important fact for every insured motorist to remember. The stock companies merely combine their experience; that is, the results of their business dealings with their policy holders and from these statistics the National Bureau of Casualty and Surety Underwriters scientifically figures out the rate for each section of the country and every type of car.

"The rates of today reflect on yesterday's driving. That is because actuaries and statisticians must have completed experience to guide them. If yesterday's driving was reckless and careless, producing accidents which resulted in deaths and injuries to others and property damage beyond reasonable expectation, the motorist is paying now in increased rates. If he in the past magnificently and padded small claims when he knew the other fellow was insured he is also paying for that. Everyone knows what those claims are, a scratch of the paint, a dented fender, a scotched mudguard, which in ordinary circumstances would not be worth a passing glance. Where the other fellow is insured, however, these trifles assume importance. A claim is made and pressed. It is necessary for the companies, through their adjusters, to determine the facts. A considerable amount of bookkeeping is involved, all causing expense. If in court cases where the companies are compelled to defend themselves from exorbitant and unjust claims, he, as a juror, was influenced solely by the thought that no verdict against any insurance company can be too high; or if, as a citizen, he encouraged a similar tendency in his neighbors, he likewise is now paying for his unfair liberality.

"The motorist of today, with his eye to the future, can decrease the number of accidents through careful driving; he can realize for himself and pass the word to his neighbors that they are spending the money of all automobile drivers instead of the company's; he can persuade the petty claimants to act toward the company as they would with their neighbors. If he will do that this year, next year's rates will come down."

Menjou's Son Booked

Harold L. Menjou, (lower) son of a former wife of the film actor, was held on suspicion of murder by Los Angeles police after 16-year old Marjorie Gauthier (upper) was fatally hurt when young Menjou's car was wrecked.

DELEGATIONS GET NO PROMISES FOR PET ROAD PLANS

PORTLAND, Ore., June 24.—(AP)—Delegations appearing before the state highway commission yesterday received little encouragement for aid in completion of road projects or immediate unemployment relief. The commission informed each group that state funds were not available and no plans could be made for emergency work until assistance is received from the federal government.

Low bidders on 15 of the 17 projects considered by the commission yesterday were awarded the jobs at a cost of \$460,000. The awards virtually complete the regular program for this year as previously outlined, unless government relief is arranged. Two jobs were held for further investigation.

Columbia and Tillamook county courts appeared before the commission to designate secondary highways in their counties. The state road body is fast completing its secondary highway map, their designations being decided upon by county courts and the members of the commission.

Persistent with their demands for immediate action on a short-cut to the sea, representatives of the five northwest counties' organization again appeared before the commission and again were told that as soon as money was available work would be done on that project. Surveys are now in progress, the delegation headed by U. G. Upson of Portland, was reminded, indicating the commission's attitude on this project.

The Commercial Printing Department of the Mail Tribune can supply every want for duplicating sales books, single, duplicate or triplicate flatpacks and other slips for counter, charge machines of different kinds. Don't order these or any other kind of printing until you have given us a chance to quote prices.

HOME CLUBS WIN MAJOR HONOR IN INTER-AREA PLAY

(By Associated Press)
Taken by and large, honors in the inter-sectional series just concluded rested with the home clubs—the western teams in the American league and the eastern outfits in the national.

There was no question as to the all-around superiority of the east in the national circuit. Philadelphia, New York, Brooklyn and Boston won 31 games and lost 24 to the four western clubs.

In the American league, it took the sensational play of the St. Louis Browns and the complete collapse of the Boston Red Sox to turn the tide to the west, 34 victories against 31 defeats.

The records were: American league—St. Louis, won 11, lost 8; Detroit 9 and 7; Cleveland, 8 and 5; Chicago, 8 and 10; New York, 11 and 5; Philadelphia, 10 and 7; Washington, 8 and 8; Boston, 2 and 14; National league—New York, 9 and 4; Philadelphia, 11 and 6; Brooklyn, 8 and 5; Boston, 3 and 9; Pittsburgh, 8 and 5; Chicago, 6 and 8; St. Louis, 5 and 7; Cincinnati, 7 and 10.

The Cubs closed their national league trip in the east yesterday by dropping a slugging match to the Phillies, 16-10. The Boston Braves nipped Brooklyn, 8-7 in ten innings. The Giants got fine pitching from Fred Fitzsimmons and walloped the St. Louis Cardinals, 6-1.

In the American, Goose Goslin hammered out three home runs, driving in seven runs, and the Browns defeated the Yankees, 14-10. Babe Ruth hit his 22nd homer and Lou Gehrig his 19th in a hopeless cause.

The Philadelphia Athletics won a 4-3 verdict in a game marred by nine errors. The Detroit Tigers made 11 four in a row from the hapless Red Sox, 6 to 3. Home runs by Joe Judge and Heinie Manush helped Washington beat Cleveland, 6-1.

GUILD PROVIDING BROADWAY PLAYS FOR FAR COLONY

PALMA, MALLORCA (AP)—This capital of the Balearic Islands, which boasts a population of about 1,200, principally Americans and English, claims to be the first Spanish city to have a theater organization giving plays in English.

The recently formed Palma Theater Guild, composed of Americans and English, had presented "The Dover Road," by Milne, with praise from both audience and critics.

The theater in English thus supplements other endeavors here in that language. A daily newspaper, The Palma Post, is edited by Americans, and a weekly publication, The Sun, is also published in English.

Many members of the new guild claim recognition for their work in the United States. Among them are Marilyn Brown, of the Theater Guild of New York, and his wife, Elsa Bowen; Dudley Dean, who has appeared on Broadway, and Morah Nesbit. The president of the guild is Norman Jacobson, artist.
