'BURY HATCHET' IS WORD TO POWERS

LAUSANNE, Switzerland, June 28. (AP)—Prime Minister Ramsay MacDonald called in the French and Germans today and told them that if the reparations conference is to get anywhere they will have to bury the hatchet.

He was making a determined effort to prevent the conference from breaking up without accomplishing anything. Such a danger was threatened yesterday when Chancellor von Papen of Germany told Premier Herriot of France his country insists upon cancellation of reparations.

That brought the two right back where they started, for the French premier cannot retreat from the stance that France will not permit cancellation until she is assured of adequate compensation for the money she would lose if the German payments stopped.

Banquet To Honor O. S. C. President

PORTLAND, Ore., June 28.—(AP) Dr. W. J. Kerr, who has completed his 25th year as president of Oregon State college, will be honored at an all-Oregon banquet here tonight. The committee in charge expects about 350 persons will attend.

POLICE PROBING NEW ANGLES ON STARVATION PAIR

The county court and state police continue their investigation of Mrs. Lena Johnson, purportedly forced from an automobile by her husband, with her 9-year-old daughter, to shift for themselves. No disposition will be made of the case until the full facts are ascertained. Mrs. Johnson and daughter are still held in the woman's ward of the county jail.

The woman and child last week fled the Klamath county farm, where they were given care and food, and were picked up by police on the Green-springs mountain road.

Klamath county authorities yesterday afternoon relayed to the state police here information from Ely, Nevada, that a woman had appeared there early this month and told practically the same distressing story as given to the Klamath authorities.

Ely, Nevada, authorities advanced the woman funds to enable her to reach relatives living at Tillamook, Ore.

A letter also has been turned over to the state police from a California inquirer if Mrs. Johnson is not Lura Hadley, "who picked up and left home about a month ago."

According to the state police, the description in the letter tallies with that of Mrs. Johnson. It was also learned yesterday that the woman was a former resident of Walla Walla, Wash.

Mrs. Johnson and child were found last week on the highway near Klamath Falls in a pitiable condition and she told a heart-rending story of being deserted by her husband while on tour. The case attracted considerable attention throughout the state because of its inhumanity.

HOLIDAY CAMPERS WARNED OF FIRE

The forest service today requested all Fourth of July holiday and weekend campers to exercise caution and comply with forest regulations for the prevention of forest fires. The forest fire danger season starts July 1, and the timber areas are warned of drying fast, under a warm sun. No fires are reported in the state. The fall that covered the sky late Monday was smoke from minor clean-ups and sea haze.

Campers in the open timber areas, which are not within the confines of resorts, or prescribed forest camp grounds, are required, under forest service rules, to be equipped with shovel, pick, waterbag, or bucket for fire fighting purposes. Campers in open areas are required to put out fires before departing, preferably by pouring water and dirt over them.

The forest service reports that on the higher altitudes the timber is still damp, but that the lower sections are drying rapidly.

MINERS USE RIGHT TO PASS UP ASSESSMENT

A number of miners of southern Oregon have filed with the county clerk declarations of intention to retain their mining claims, without the performance of 1932 assessment work.

Congress recently adopted a resolution, declaring a moratorium for one year on mine assessment work. Under this resolution miners are able to retain their claims without an outlay of cash or danger of having their claims "jumped."

ASHLAND GIRL HELD AS PAROLE VIOLATOR

Hazel Woods, 18, of Ashland, was detained by the state police last night as a parole violator, and is held in the women's ward of the county jail, pending disposition of her case. It is alleged by the state police, that the young lady is irked by parental discipline, and has a fondness for gay parties. The authorities state that she was granted a parole three months ago when faced with a similar charge.

Bobby Hayes Injured in Cherry Tree Fall

Bobby Hayes, 12 year old son of Dr. and Mrs. James C. Hayes, received a cracked ankle and other minor injuries yesterday afternoon in a fall from the top of a cherry tree, where he was competing with the birds in harvesting this year's crop.

He was taken to the Sacred Heart hospital for treatment, but returned to his home today, where he is reported resting easily.

Talks To Parents

ROMPING WITH CHILDREN.

By Alice Judson Peale.

There is one kind of play that every child adores—that of romping with father or mother.

He loves to be given wild rides upon father's back, to play rough and tumble. He likes the games in which the high point comes with some physical thing such as a fall, a playful pinch or tickling.

Watching such play, it is easy to observe how often the excitement created winds itself up to a pitch where the child is hysterical with laughter that is near tears.

Often it does end either in tears or with the child still wildly excited, eager to go on, while the adult, tired and bored, has turned to something else.

What is the psychological effect of such play upon the child? That it is peculiarly pleasurable to him is evident by his response.

And what about the let-down afterward? For all too evidently the end is sensed as such by the child. He wants to go on, but the adult is through and turns away from him. Must he not then feel rebuffed, rejected and frustrated?

These feelings are especially painful because they are aroused by those whom he loves intensely. Is it any wonder then if often he seeks to revenge himself by continuing the play in a teasing way, or by being deliberately disobedient and naughty?

Such play should be only seldom indulged in, and the adult should see to it that the transition from the game to less thrilling activities is accomplished tactfully.

Finishing up a romp with a story or a quiet talk is a good plan. The child's attention is agreeably diverted while the adult eases himself from the center of the child's interest.

JACKSON SPRINGS RESORT LEVELLED BY EVENING FIRE

spread of the flames in the powder-like building material. Swimmers in the pool lost their street clothing, so rapid was the fire. A. E. Mansfield, an insurance adjuster of this city, when the alarm was given, rushed into the building in an attempt to save his belongings, and sustained burns and scalds.

Street clothes of Messrs. A. E. Mansfield, H. R. Sinclair, H. Wise and Mason were destroyed.

Practically nothing was saved. The Dom Provoost orchestra sustained the loss of musical instruments stored in the place. A fine stand of cottonwood trees at the resort were sadly singed and burned. The service station and tourist cabins on the grounds were spared.

Future plans are still indefinite, as to whether or not the resort will be rebuilt. Dom Provoost, whose orchestra was scheduled to hold a Fourth of July dance there, contemplated the erection of an open air pavilion for the holiday. The swimming pool is intact.

The Jackson Hot Springs has been in operation for a number of years, and the hot springs are one of the pioneer landmarks of the county.

The fire attracted the attention of passing motorists, the state police preventing traffic congestion.

Under the compromise plan, the \$300,000,000 fund will be created by adding to the borrowing power of the reconstruction corporation of this amount \$200,000,000 will be allocated to the states on the basis of population and the other \$100,000,000 will be redistributed by the president as he sees fit.

Congressional conferees on the unemployment relief bill agreed today on a \$300,000,000 emergency aid fund to be administered partially by the president on the basis of need.

The conferees determined upon the \$300,000,000 figure provided in the senate bill but compromised on the distribution of it to meet President Hoover's wishes for an allocation on the basis of distress rather than entirely on population.

PACKING PLANTS START PREPARING FOR OPERATIONS

Preliminary work has started in the packing plants of the valley for the 1932 shipping season, expected to start about August 10. Most of the plants are now reconditioning their machinery and after July 4 box making for the coming crop will be in full swing.

Box makers are now engaged in making lug boxes to replace those lost in the fire that swept the packing district last March and to make up the loss from other causes. Local box makers will be employed in this work.

Raymond R. Reter, president of the Rogue River Traffic association, said today it was the intention of the valley packers to employ only local packers and suggested that all experienced packers, residents of this city or county, register at an early date with the packing plants.

Civic leaders, not identified with packing plants, are considering a plan of action whereby the annual confusion and agitation over foreign auto licenses may be avoided. Many valley packers work in California and return here for the fruit season with California licenses on their cars. They are local residents, but the foreign license causes the suspicion and claim that local labor is being discriminated against when, in fact, they are not.

Conditions are ideal in the orchards. The warm weather is a boon and irrigation water is plentiful.

CONGRESS NEARS JOBLESS RELIEF BILL AGREEMENT

WASHINGTON, June 28.—(AP)—Congressional conferees on the unemployment relief bill agreed today on a \$300,000,000 emergency aid fund to be administered partially by the president on the basis of need.

The conferees determined upon the \$300,000,000 figure provided in the senate bill but compromised on the distribution of it to meet President Hoover's wishes for an allocation on the basis of distress rather than entirely on population.
