CHARLIE CHAPLIN HAS REMEDY FOR ECONOMIC WOES

BEVERLY HILLS, Cal., June 28.—(AP)—Charlie Chaplin, the baggy-trousered film comedian, was Charles Spencer Chaplin, the world economist, today.

Home a few days from a trip around the world during which he saw economic disorder everywhere," Chaplin has announced what he believes is a remedy for unemployment and heavy taxes. His cure for economic ills, announced in a 1,500 word statement, calls for the cancellation of Germany reparations by allowing each nation to pay itself in a new international currency.

His statement, in part, read:

"Let the allies issue the amount that Germany owes them in an international currency and pay themselves, each nation to be given her share according to her agreement. This would be a fiduciary currency guaranteed by the allies to have the same par value as gold. To insure this guarantee each nation could deposit in a central bank a bond in proportion to the value of her share.

"This would be used for holding each nation to her promise guaranteeing to recognize this currency on a gold par value. Such a bond could be financed in each participating country by a bank loan or a bond issue. Should a nation attempt to discount this currency she would forfeit her bond.

"With the first allotment of this currency each nation would agree to purchase silver. This silver would replace the original guarantee bond, which would be retired immediately, leaving the silver as a bond to function in its place.

"This money could be called 'leagues' with the identification of each allied nation's stamp on it, Germany agreeing to pay the expenses of launching this scheme, and recognizing this currency at gold par value, would then be released from her debt, without any disadvantage to the allied countries."

The actor continued that "Europe's recovery is our recovery" and that "the present disorder is world-wide, and only a world-wide remedy can adjust it."

DIVIDENT DOLLARS TO FLOW JULY 1

NEW YORK, June 28.—(AP)—Although many dividends have been reduced, and some passed entirely, approximately $300,000,000 will be paid out in dividends by American corporations on July 1.

In addition to dividend payments, American corporations will distribute $500,000,000 in interest payments to bondholders.

July 1 is the most important summer settlement day of the year. Total payments by corporations on that date are equalled only by their Jan. 1 disbursements.

A leading statistical organization, which lists virtually every corporation in which there is a public investment, estimates that approximately 1 out of 9 are still paying dividends. Nearly 6000 corporations are included in this study and approximately 650 of them are continuing dividend payments.

Asked by newspapermen afterward if he had pointed the way to a compromise, the speaker said he had. Gone considerable "orating but would not reveal the details of his discussion.

MAKERS ABSORB TOILET SOAP TAX

Grocers and druggists throughout the country have been much concerned by the excise tax recently placed by the federal government on toilet soaps and other toilet articles. It has generally been felt that a large part of this tax would have to be absorbed by the retailer, who would find himself unable to pass on to the consumer a tax which often amounts to a large fraction of his profit.

To these retailers the announcement by Lever Brothers company came as an oasis in a desert of worries. This company wrote to the grocers and druggists of the country:

"Effective the 21st of June, 1932, the federal government will impose a 5 per cent tax on sales of toilet soaps. We manufacture two of the country's most important and widely used brands—Lux Toilet Soap and Lifebuoy Health soap—both subject to this tax.

"As soon as the tax goes into effect, for every dollar's worth of Lifebuoy and Lux Toilet soap we produce and sell, five cents must be paid, from some source, into the treasury of the United States. For every million dollars' worth of these soaps we produce and sell, the government must be paid, from some source, the sum of fifty thousand dollars.

"As manufacturers, we have two courses open in meeting this tax. First, we can pass the tax along to the trade. If we adopt this course, the probability is that the ultimate consumer—the woman who does the shopping—will foot the bill.

"Because the strain on the family pocketbook is already so severe, we are anxious to avoid any advance in over-the-counter prices of our products.

"Under these circumstances, we have determined, until further notice, to pay the federal sales tax ourselves.

"In paying the tax ourselves, we are assuming a heavy financial obligation. We are confident, however, that you will heartily concur with our action and will lend your active support in furthering the sales of both Lux Toilet soap and Lifebuoy."

The retailers were prompt to respond. By return mail letters—thousands of them—began to flow in. From Iowa one man wrote, "We thank you for your stand. When a customer debates what kind of soap to buy it will be just natural for us to push the soap made by the company which says it will absorb the tax."

A Tennessee retailer said: "We have always pushed Lux Toilet soap and Lifebuoy, but shall do it more in the future. It looked very much as if we should have to absorb this tax. There is always someone who will do so, then all the rest have to do the same. The step you have taken will be appreciated by every retailer in the United States."
