

SAWMILL OPENS TOMORROW WITH 75 ON PAYROLL

Cannery Also Adds to Local Employment With Operation On Cherries—Beans to Be Canned This Year

The sawmill section of the Owen-Oregon Lumber Sales company, will start operations tomorrow morning, with approximately 75 old employees engaged; and the Rogue River Cannery company this week started its cherry canning operations, with a working force of 50 women and girls. As the season advances, the cannery force will be increased to between 75 and 100 workes, as necessity requires.

Two large sawmills in Klamath county district, are scheduled to renew operations July 6, on an eight-hour, 6 days a week basis.

Coupled with activity in the packing plants, in the orchards, and on the farms, all combine to give a somewhat brighter hue to the industrial and labor horizons of Jackson county, and southern Oregon.

In all instances, local labor and old employees, is given exclusive preference.

The Owen-Oregon workers held a meeting last night, and decided among themselves working plans, which are to be followed, the matter being entirely in their hands. General Manager James H. Owen said today.

Repairs and replacements of sawmill machinery were made today, and a test run of the mill will be made. The co-operative, profit-sharing plan recently inaugurated in the Butte Falls logging district, is working satisfactorily alike to workers and operators. The mill pond is full of logs.

The Rogue River Cannery company operated the first of the week canning cherries, and suspended work today because the cherries were not ripe enough. It will be three or four days or a week, before the peak of the pack is reached. Most of the pack will be sold in the market as in former years.

Manager R. U. Boutelle said that cannery also expected to pack a few beans this year, for the first time in its history.

The cannery expects to operate throughout the regular canning season.

Stamps Deplet Nativty. BUDAPEST—(AP)—The Hungarian postmaster general has announced a new series of stamps showing the Virgin Mary with the child Jesus in her arms.

New Rotary Chief

Clinton P. Anderson (above) of Albuquerque, N. M., was elected president of Rotary International at its Seattle convention.

ACTIVIANS ENTERTAIN CLUB PRESIDENTS AT TUESDAY GATHERING

Visitors' night was observed last evening at the Active club meeting conducted in the Hotel Holland, with presidents of Medford's service clubs as honor guests. G. W. Newberry represented the Lions club, Olin Arnsperger the Kiwanians, and Dr. E. W. Shockley, Rotary International.

Each of the club leaders was called on to give a brief talk, and Mr. Newberry devoted his time to urging co-operation among Medford's service groups. Mr. Arnsperger told the value of the clubs to the local chamber of commerce, as well as the value to the individual member. A short review of the national Rotary convention in Seattle last week was given by Dr. Shockley.

Rev. W. R. Baird, pastor of the First Christian church, gave two readings which the group enjoyed greatly, and LaVerne Sutherland sang a pleasing solo, accompanied at the piano by Mrs. George Andrews.

Leslie Van Doren, chairman of the golf committee, announced that two qualifying rounds in the club tournament had been made, and that it is necessary for the matches to be played before next Tuesday. The opening rounds will be played next week. Games are to be played at the Medford public golf course.

Portland—Plans underway to improve 61st street from Tillamook to Thompson streets.

LOSS OF BLOOD BY FOOT WOUND FATAL TO BOY

Lewis Snook, 11, Fourth Victim of Gun Accidents in County During Year—Funeral Thurs., 10 A.M.

Lewis Snook, 11, son of Mr. and Mrs. Walter C. Snook of Cascade Gorge, died yesterday afternoon at the Community hospital from loss of blood, resulting from a gun shot wound in his left foot, received about 9 o'clock in the morning, when a .30-30 rifle was accidentally discharged by his brother, John, 17. The two boys were playing at the Snook ranch when the accident occurred. The injured boy was brought to the city before the physicians were called, and was given no first aid treatment to stop the hemorrhages from the five-inch wound, blown through his foot by the rifle, discharged at close range.

Death After Rally. When physicians arrived at the hospital the boy, then in a very weakened condition, was rushed to the surgery, where he underwent an operation, which it was believed might save his life. He rallied after the operation and hope of his recovery was high when the collapse came, suddenly snuffing out his life.

Failure to apply a tourniquet to the wounded foot before starting the long journey to the valley, during which the boy lost much blood, was blamed for his death. No reason for the accident, which is the fourth resulting from careless handling of guns to bring death to southern Oregon youth during the past year, was given.

Funeral Thursday. Lewis was one of a family of 12 children, nine of whom are now living. Funeral services will be held tomorrow morning at 10 o'clock at Cascade Gorge with interment at the Snook ranch, where the family resides.

Mr. Snook, who started to apply a tourniquet to his son's ankle, then changed his treatment upon advice of a neighbor, was on the verge of a collapse last night.

Other casualties in Jackson county, resulting from accidental firing of guns during the last year's time include: James Harry Morrison, 14; Stewart Rice, 14 and Hirman L. Wilbur, 16.

Costly Strikes In India. BOMBAY—(AP)—Strikes cost India nearly 2,500,000 working days in 1931, says a government bulletin regarding 166 disputes involving more than 200,000 workers.

WEAKER TONE IN BUTTER MARKET; EGGS UNCHANGED

PORTLAND, Ore., June 29.—(AP)—Increasing stocks of butter in store, together with continued liberal fresh demand, fails to indicate the shortage of churning that the local trade has been so loud in proclaiming. No changes in current butter quotations are reported openly but in spots sales are shown a fraction or so below lists.

There was no change in the butterfat situation for the day.

There was no change in the general egg market situation for the day. Trading in general was at established figures with uncontrolled producers selling 1 to 2c dozen less as usual. Demand for live chickens remains very good.

With the season fast ebbing, there is an increasing call for currants in the wholesale trade with prices, however, held low. Raspberries and loganberries are down while strawberries are steady. Blackcaps show a nominal call as yet.

There is today the lightest call ever shown in Portland for early California peaches and prices reflect this. Handlers report the demand almost too limited to order supplies. A carload has been on the track here several days looking for a home.

Further dropping of tomato prices is reflected here with receipts of outdoor Californian as well as a slight increase from The Dalles. Local hot-house are steady to a trifle lower.

Oregon Nut Crop Equals Last Year

PORTLAND, June 29.—(AP)—First full survey of the 1932 nut crop situation in Oregon and Washington by the Journal, indicates that while

the output per acre is not likely to show the totals of a year ago, the total tonnage will be approximately the same with the increasing bearing area. This applies to both walnuts and filberts.
