

GAMBLER'S THROW THRILLING SERIAL TRIBUNE FEATURE

Eustace L. Adams, author of "Gambler's Throw," the Mail Tribune's next serial, held jobs ranging from that of a deckhand on a tugboat to the presidency of an automobile distributing company before he became a professional writer.

He was reporter on a Boston newspaper when the world war broke and immediately went to France as

an ambulance driver. When the United States entered hostilities, he returned home and became one of the pioneer naval fliers.

Between numerous and varied jobs, he continually sought the thrill of adventure and thrills, the glamour of far-away and strange lands. He chose finally to write for a living because it doesn't interfere with his wanderings, on which he is accompanied by his wife and three children.

"Gambler's Throw" is an outgrowth of Adams' familiarity with flying and dangerous escapades. It is a story of a band of kidnappers, who use an airplane to capture their victims and carry them off to a lonely hiding-place. They are disconcertingly successful until another daring pilot takes up their trail and beats them at their own game. The first chapter appears in The Mail Tribune today.

AUTO POOR PLACE LEAVE GROCERIES

A number of complaints were registered Saturday night with the authorities, that groceries had been stolen from parked autos in this city, while the owners were attending to other business. Most of the losers were country people, on a week-end

trip to this city, who purchased a week's supply of foodstuffs and deposited them in their cars, before leaving for home.

Most of this petty thieving is attributed to transients, but a search of the "jungles" along Bear creek failed to reveal any clues. Pilfering from autos has become quite a practice. Car owners are urged to lock their autos.

In this High-pressure Age smokers want a Milder Cigarette

WE LIVE in a fast-moving age. We work harder... play harder... travel quicker. And we smoke more cigarettes.

But there's this about it: They have got to be milder today. In this high-pressure age, smokers don't like strong cigarettes.

About four miles of warehouses are filled with mild, ripe, Domestic tobaccos, stored away to age for two years to make them mild and mellow for CHESTERFIELD Cigarettes.

To make sure that CHESTERFIELD is a milder cigarette, the greater part of 90 million dollars is invested in the tobaccos used in CHESTERFIELD. These tobaccos are "Cross-Blended."

This "Welding" Together—or "Cross-Blending"—permits every kind of tobacco used in the CHESTERFIELD blend to partake of the best qualities of every other type. It's the same principle that Burbank used in crossing different fruits to make a better fruit.

CHESTERFIELDS are milder... never harsh... and that's why, in this high-pressure age, more smokers, men and women, are changing to CHESTERFIELDS every day.
