# MEDFORD SUN OF 22 YEARS AGO IS SHOWN BY SMITH

Carrying Medfordites back to the good old days of rubber tired bugles, high waisted corsets and "Mother Girl" dramas, screen at the Bijou theater, when the city was young and on the boom with apples demanding the glory that has come to be the pear's, comes a copy of "The Medford Sun," from the scrapbook of S. Sumpter Smith, manager of the old time competitor of the Mail Tribune, which later absorbed it.

It is the first copy of the newspaper, Vol. 1, No. 1, dated July 19, 1810, 22 years old today. Although a trifle yellowed and torn, it is easy to read and fat with advertising, ranging from Hubbard Bros. "largest stock of buggies" to "evening lingers in sweet styles at Kidd's."

Three persons associated with the newspaper are now with the Mail Tribune, Mr. Smith, manager of the Mail Tribune job department, A. B. Williams, compositor and make-up man, and J. A. Manke, linotype operator.

A front page story in the old newspaper, which carries a banner, tells of progress on construction of the Pacific and Eastern railway and arrival of steel to lay twenty miles of track leading to the "thriving town of Butte Falls."

Another item announces construction of the Hotel Medford, excavation for which was then in progress. A project embracing three million feet of paving is described and another interesting headline reads "New Modern Hotel for Toho."

The Burrows company will supply the major portion of the local demand for pads, approximately 95 per cent of the valley growers, Mr. Burrows said today. The present output is 100,000 pads per day or two carloads per week.

The present state of the weather is regarded as ideal for the pears, the retarding in a small degree. Warm days and nights for the balance of this month, and early August, will put the Bartlett in excellent shape for the start of the picking season, about August 10.

The man formerly resided in the Louise creek section, from which territory he departed several months ago rather than serve a jail sentence for stealing a sawmill mandrel. As he was not a resident of the county at the time, he was given the privilege to leave.

Before leaving, he offered to hold religious services in the jail. Neighbors in the Louise creek area were reported to have been afraid of him, because of his threatening manner with firearms.
