

WOULD BALANCE STATE SALARIES HERE MORE CUTS

SALEM, July 28.—(AP)—Standardization of state salaries and wages before further reductions are ordered, and any new cuts which might be necessary then made on that basis was recommended Wednesday by Rufus C. Olman, state treasurer, in a conference with newspapermen. Holman made the statement in answer to inquiries whether the board of control would order further cuts as was reported had been suggested by certain members of the board.

Holman said further, a study of the actual savings being made to the state by the 3 to 15 per cent cut recommendations of the board compared to the amount possible if all departments cooperate was necessary. A report of these savings is now being made by William Elzing, secretary of the board of control.

Holman pointed out that the board's order becomes mandatory upon all state departments under control of the board and its members, but that only recommendations could be made to other departments outside of this control. The cut being effective July 1 for board departments and urged upon all others with the exception of the state highway department and such others which had previously ordered reductions in salaries.

POLITICIANS EYE HOOVER'S ACTION IN APPOINTMENTS

WASHINGTON, July 27.—(AP)—The action of President Hoover in turning over control of the reconstruction corporation directorate to Democrats, by the appointment to the board yesterday of Atee Pomerene of Ohio, was being weighed for political significance today in the capital.

Word from Cleveland was that the former senator would not be here to take his post until next week. Meanwhile, although keeping their opinions to themselves in general for the present, legislators at the capital conjectured whether the move would have a reflex in the presidential campaign.

Representative Rainey, the Democratic floor leader in the house, expressed the view that although men of his party allegiance will hold four of the seven directorships, the administration "can't dodge" responsibility for the new relief law that the corporation must administer.

There is no indication today when the last director, who must be a Republican, will be appointed.

UMATILLA JOINS WHEAT HOLDERS

PENDLETON, Ore., July 28.—(AP)—Plans for organizing Umatilla county farmers in the wheat holding movement along the lines of the "Dakota" plan are being completed here. D. H. Nelson, prominent Pendleton farmer, today discussed the proposal before service club representatives, and committees are being organized from these clubs to work with the farmer organizations in effecting the movement.

A drive has been started to prevent farmers from consigning their wheat, on the contention that consignments tend to reduce prices. Reconstruction finance corporation money is available under the relief act for orderly marketing, it is pointed out, and it is planned to make this money available to farmers who need funds for harvesting expenses.

"O, She Dances Such A Way"

That's What Cincinnati High School Annual Said Of Libby Holman In Predicting Her Career On Stage

CINCINNATI, Ohio.—(AP)—Tobacco king in North Carolina, rolled into millions of cigars and in turn producing a fortune variously estimated to from \$30,000,000 to \$100,000,000.

Smith Reynolds, the heir, a strange youth who loved aviation but scorned a formal education, died at 20, the victim of "hands unknown."

The grand opera house in Cincinnati, where in the chorus began the career of Libby Holman, beautiful and talented daughter of a Cincinnati lawyer. Her deep-throated voice made her name bright on Broadway as a "torch singer."

These are the elements fitted into romance that ended in mysterious tragedy—a tragedy that Libby Holman called "that crash of the universe, everything falling around me."

The annual of Hughes high school here, where Libby was born, gives the world its first glimpse of the girl who was to preside over the beautiful estate of Smith Reynolds at Winston-Salem.

The 1929 annual, the year she was graduated, said:

"Elizabeth is one of the most original girls in our class. But, O, she dances such a way. Her contributions to old Hughes have made her famous. She is a talented actress, too. We all expect to see 'Libby' before the footlights some day. Indeed, she has already given us many manifestations of the art."

From Hughes she went to the University of Cincinnati, where she finished her four-year course in three years.

A full page in the university annual of 1923 was devoted to her activities. Prominent was a picture of her as "Violet Fields" in a comedy, "Fresh Paint." She was a member of the Woman's league, Mummies Dramatic society, Y. W. C. A., Variety vanities, French club, History club, and took part in Greek games and interclass athletics.

William Fields, a former Cincinnati theatrical man, tells how she entered the show business. Fields was connected with the Greenwich Polles, playing Cincinnati in 1926, when Libby applied to Paul Hillman, manager of the show. There was a vacancy in the chorus, and she was given the job.

Soon she took the place of Rosalie Clay, the comedienne of the show. Then she replaced Florence Moore at the Shubert in New York.

The slip of a surgeon's knife, it was believed, ruined her voice for singing, but by accident she discovered that her odd contralto put a new "blues" note in "blues songs." She became famous with her "Moanin' Low" and "Body and Soul."

Libby Holman, Broadway "blues singer" whose career was marred by tragedy when her husband, Smith Reynolds, met death from a bullet, displayed her stage talent early in life. The annual at Hughes high school, Cincinnati, took note of it and predicted she some day would be a stage star. Here she is in typical poses.

FORD REPAIRS ENGINE FOR THRESHERS WHEN STEAM EJECTOR FAILS

ARIAN, Mich., July 28.—(AP)—Henry Ford has proved to farmers in this vicinity that he knows as much about steam engines as he does about gasoline motors.

Visiting his 1,280-acre Lenawee county farm yesterday to view the threshing of wheat and rye, Ford found one of the three old-style steam threshing rigs out of commission. The operator informed Ford he had sent for a mechanic to make repairs.

"I know a little about these engines," said Ford. "Let's go to work on it."

The motor manufacturer shed his coat and vest, crawled about the threshing rig, tore down the steam ejector, and put it together again. The engine ran perfectly.

Just about that time the mechanic arrived.

"We won't need you," said Ford.

She Reduced 38 Pounds The Safe Way

"I have been taking Kruschen Salts for 4 months and I think they are wonderful. I am 32 years old and 5 ft. 2 in. tall. I was very fat. I weighed 165 lbs. and now I weigh 127 lbs. and feel fine. If I let up taking the salts one morning I feel laxy and heavy."—Mrs. Florence Loftus, Boston.

This is just one of hundreds of letters we get every month—Kruschen not only causes you to lose fat but while you are losing it you gain in health—in vivaciousness—you lose fat where fat is most prominent and at the same time keep stomach, liver, kidneys and bowels functioning naturally.

Jarmil & Woods, Heath's Drug Store, Brown's Pharmacy, or any drug store in the world will sell you a jar of Kruschen for a trifling sum—take one-half teaspoonful in a glass of hot water every morning—go light on fatty meats, potatoes and sweets. But for your health's sake demand and get Kruschen Salts—imitations are numerous. It's the little daily dose that does it.

WOULD MAINTAIN LUMBERING WAGE

PORTLAND, July 28.—(AP)—Urging the lumber interests of Oregon and Washington base costs on a fair return to labor, employes representing the 4-L locals of the two states

have taken a firm stand against further wage cuts in the lumber industry and demand that "costs be based on a common labor rate of \$3 a day for eight hours."

The employes yesterday concluded a two-day session here. Protests from thousands of organized workers were the basis for the resolution which the employes voted to ask the 4-L board of directors to consider at its next meeting.

STATE VET LOANS OBTAINED THROUGH FRAUDULENT ACTS

SALEM, July 28.—(AP)—Investigation of conspiracy between real estate owners and war veterans to defraud the state in securing loans from the World War Veterans' State Aid commission was started here today, following the rejection of two loans believed of this nature by the commission. State police officials were asked to assist in the investigation. Jerrold Owen, secretary to the com-

mission, announced that in the two cases where loans were rejected, one from eastern Oregon and the other from southern Oregon, it was evident that real estate owners had given their property to some World War veteran who had not yet taken advantage of his loan, then after the loan was secured the property would be transferred to the original owner. Owen said this form of conspiracy has resulted from the difficulty in securing loans on real estate, with the bonus commission being virtually the only source for such loans in the state, but made only to World War veterans. Many veterans have not secured loans and some of these are being exploited by property owners desiring loans for business purposes, he declared.
