POLICE ASSIGNED NEW QUARTERS

The county court has assigned rooms 108, 109, and 110 in the new courthouse, to the state police, also storage space near the elevator. The state board of control has been asked to pay for the light and heat of the quarters on a monthly rate, to be agreed upon.

All the large contracts on the structure have been completed with the exception of the painting, which is expected to be finished in another week. There are also a number of odds and ends jobs for the plumber and the electricians.

The work of moving the county offices into the courthouse will not be started until the painting is well out of the way. The plumbers will have to provide watering faucets for the lawns, which will be dampened and rolled and packed down as much as possible before the dedicatory exercises, September 1.

The cement sidewalks to the structure will also be completed and ready for traffic before September 1.

MOTOR BURGLAR RETURNED TODAY
John Ross, a transient, who confessed when arrested by Tacoma police last Saturday, to theft of nine electric motors from the Pinnacle Packing plant No. 2, will be returned to this city today. He claims to have sold the other six to a man he met on the Pacific highway near Portland, for \$25. Each motor is worth about \$100. The authorities believe that Ross has cached the motors for future reference. They also accuse him and a partner that stole the motors single-handed.

The three motors recovered have been returned and installed in the packing plant, and replacements will be made for the remainder. The motors furnished power for packing house machinery.

GEORGE S. LITTLE OF JACKSONVILLE DIES

George S. Little passed away at 10 a. m. today at his home in Jacksonville, where he has resided for the last 25 years.

He was born in Marion county, Iowa, March 16, 1861, and was 71 years of age. Mr. Little leaves a host of acquaintances and will be remembered by many as having charge of the Southern Oregon museum, located at Jacksonville.

He leaves one brother and one sister in the east and one nephew, J. A. Littell of Jacksonville. Funeral announcement will appear later. Conger Funeral Parlor in charge.

ESTIMATE 6200 LICENSED AUTOS NOW IN COUNTY

The sheriff's office estimates that between 60 and 70 per cent of the auto owners of Jackson county have procured 1932-1933 licenses, and that from now until October 1, when the three-quarter year licenses can be procured, there will be a decline. Auto-owners continued to purchase licenses today at a rate of about 100 per day. It is figured that close to 6200 of the approximately 10,000 autos in the county have registered, and that by September 1 at least 8000 cars will be registered. Many are expected to buy licenses the last of the

month to take advantage of the last double holiday of the year—Labor Day, Monday, September 6—and the fall hunt and deer hunting.

During the past six weeks "drive out" permits have been issued to between 35 and 50 motorists. The permits are issued on the statement that the applicants intend to move to another state and establish residence there. The permit entitles the driver to proceed to his new destination, where he secures a license in that state.

Practically all the autos and trucks in use on Jackson county highway now bear the new license.

It has been the custom in the past for the secretary of state to start issuing three-quarter year licenses about September 15, and it is assumed this will be the procedure this year. Half-year licenses will be available January 1.

Jackson county's share of the auto license fees, as apportioned by the state treasurer, will be used in establishing a sinking fund for interest on highway bonds and for the conducting of county emergency relief work, it is pointed out.
