

R. F. C. REFUSES TO BE SANTA CLAUS IN STATE RELIEF

(Continued from Page One.)

made available "immediately," meaning that the borrowers could get it within two or three days.

The corporation reiterated its announced policy when it said, "The Pennsylvania application, that the 'legislature of Pennsylvania and its several subdivisions have not done their full duty with respect to the furnishing of funds for relief purposes.'"

The corporation has not yet made known the procedure under which other than the destitution relief loans are to be made. This still is being worked on. The law requires that all destitution loans must be made to the governors of the states.

Banks, Railroads Aided

For the last six months the corporation has been advancing money to banks and railroads. The last available figure showed loans of \$442,789,313 to banks; \$52,848,923 to building and loan associations; \$63,465,500 to insurance companies; \$322,440 to agricultural credit corporations; \$1,270,000 to joint stock land banks; \$6,594,588 to livestock credit corporations; \$73,000,000 to mortgage loan companies; \$405,000,000 to credit unions and \$213,882,734 to railroads.

FREIGHT RIDERS SLAY DETECTIVE

LA GRANDE, Ore., Aug. 5.—(AP)—E. L. Smith, Union Pacific railroad detective, was killed near Hilgard, Ore., last night while putting a number of men off a westbound freight train. There were five bullet wounds in his body, several deep gashes in his head and his neck appeared to be broken.

Officers questioned seven men from the group which was riding the train and reported 30 held at Penikese and 17 at Baker, who will be brought to LaGrande today for questioning. It is believed between 50 and 60 men were on the train prior to the shooting.

No one questioned here this morning witnessed the death struggle, although two or three heard the firing of five or six shots.

INAUGURATION IN JANUARY LOOMS

WASHINGTON, Aug. 5.—(AP)—If you plan to attend the presidential inauguration in 1937, be sure to bring your overcoat and, perhaps, your earmuffs.

Fourteen states have already ratified the amendments to the constitution eliminating the lame duck sessions of congress and advancing the inauguration date from March 4 to January 20. Most political observers concede the necessary 36 will complete ratification before inauguration in 1937.

And, if this is done, the weather bureau points out there is a much better chance for the weather to cast a "wet blanket" over the sabbath president and spectators.

Oregon Weather.
Fair tonight and Saturday; high temperature and low humidity in the interior; not so warm on the immediate coast; gentle northwest winds offshore; fair over the week-end.

DON'T BACK DOWN DEPRESSION CAN'T ENDURE FOREVER

Contributed

Buck up—don't back down; we've triumphed over worse depressions! Here's the record: In 1837—a great land boom collapse; farms sold for 2 per cent of their value and banks suspended specie payments. This was followed by two years of prosperity. In 1841 many industries shut down entirely. Unemployment was the greatest ever known. Several states even repudiated their bonds. The next twelve years were prosperous. In 1857 every bank in the U. S. A. suspended payments in cash. Industry almost stopped entirely. Property values fell as high as 75 per cent. The subtreasury in Wall Street was stormed and only saved by federal troops. Business improved steadily for three years. In 1873, Jay Cooke & Co. failed, stock exchange closed for eight days. Commodity prices sank to new lows and pig iron could not be sold for any price. But five years of prosperity followed. In 1893 Reading, Atchison, Topeka & Santa Fe, U. P. and N. P. failed for a combined loss of \$2,400,000,000. U. P. sold as low as \$4 a share. As high as 36 per cent was offered for call money and none available. Six years of prosperity followed. In 1921, because Eu-

rope was off gold standard following the war, pessimists said, "Prosperity can never return." The following eight years were the most prosperous in history, as we all know. And now in 1932, some are saying the same thing they said eleven years ago. Those who laid constructive plans and worked them out intelligently, made fortunes in previous depressions. The same thing will happen again—don't back down.

BROWN OUTFIT WORN BY MRS. CLARENCE DILL

WASHINGTON (AP)—Mrs. Clarence C. Dill is wearing a dress of bronze and tan crepe with deep revers of beige chiffon. With this she wears a brown straw hat and a brown silk coat.

Prisoner Grabs Steering Wheel And Wrecks Car

PORTLAND, Aug. 5.—(AP)—When the automobile in which he was held a prisoner was traveling 45 miles an hour, Tom Alstott, arrested on a liquor conspiracy charge, grabbed the steering wheel, twisted it and sent the car into a ditch while being brought to Portland yesterday from Hillsboro.

Deputy United States Marshal Joe Vogelsang, who had Alstott in custody, was scratched and bruised. Deputy Sheriff La Follette of Washington county witnessed the crash and took the party to Portland.

TOLAN'S MOTHER WORKS AT TUBS TO AID CAREER

DETROIT, Aug. 5.—(AP)—There will be a reception committee, designated by Mayor Frank Murphy, at the station when Eddie Tolan comes home from his triumphs in the Olympic games in California.

The eyes of the welcoming crowd will be on Eddie, but Eddie's eyes will be on the typical southern Mammy whose toll over the washdays made possible his success—his mother.

Mrs. Thomas Tolan is proud of her son's athletic triumphs, but she is prouder still of his determination to be a physician. Recently she has been sole provider for the family. She has worked hard—and hap-

ply—and her hope now is to keep it up until Eddie can finish his scientific training in Germany.

"It's worth it," she said of her toll. "If my manfolk could only find jobs I could ease up a bit and a mighty big worry would be off Eddie's mind."

Shortly before Eddie ran his greatest race, she sent him a telegram. "I couldn't afford it," she says, "but I had to tell him not to worry his head about my troubles."

Mrs. Tolan was born in San Antonio, Tex., 33 years ago. Her father, born in slavery, was a Union soldier in the Civil war. Her husband is a cook.

WHITE AND PURPLE IN TWO-TONE

PARIS (AP)—Comtesse de Munoz is among smart Parisians sponsoring the new two-toned evening frocks. Among her evening gowns is one designed with a bodice of white satin and a high-waisted, clinging skirt of purple-blue satin. It is worn with a very long scarf of white satin with deep ends of the purple blue.

DOUBLE CROSSING AND BRIBERY ARE HINTS AT HEARING

(Continued from page one)

Sam Slocum, in charge of the Portland office of the organization promoting the consolidation, and from whose safe the petitions were taken, testified at great length at Thursday's hearing. He and Brownell shared the one office, although Brownell had no connection with the Zorn-MacPherson organization.

Slocum, under cross-examination by Brownell's attorneys, testified that a man he knew as O. B. Robertson of Eugene had offered him

"a substantial sum of money" if he would discontinue his efforts to obtain enough signatures to place the measure on the ballot.

\$100,000 War Fund Raised

Slocum testified that Robertson told him the bill had no chance to pass and that a "pool" of \$100,000 had been raised to fight it. The witness added that he believed Robertson had not meant to offer a bribe "and meant nothing crooked." "He only thought I was working for a lost cause," Slocum said, "and wanted me to quit."

Attorneys for Brownell attempted to learn from Henry Zorn, president of the organization sponsoring the initiative measure, how the league was financed, but the attempt was futile. Zorn testified that no records were necessarily kept of persons making cash donations; that such contributions had, however, been made but that he was unable to recall the names of the donors; that the organization had no bank account; that the membership reached 2,000, and that no initiation fees, dues or assessments were levied against the members.

He declared Brownell had no connection whatever with the league.

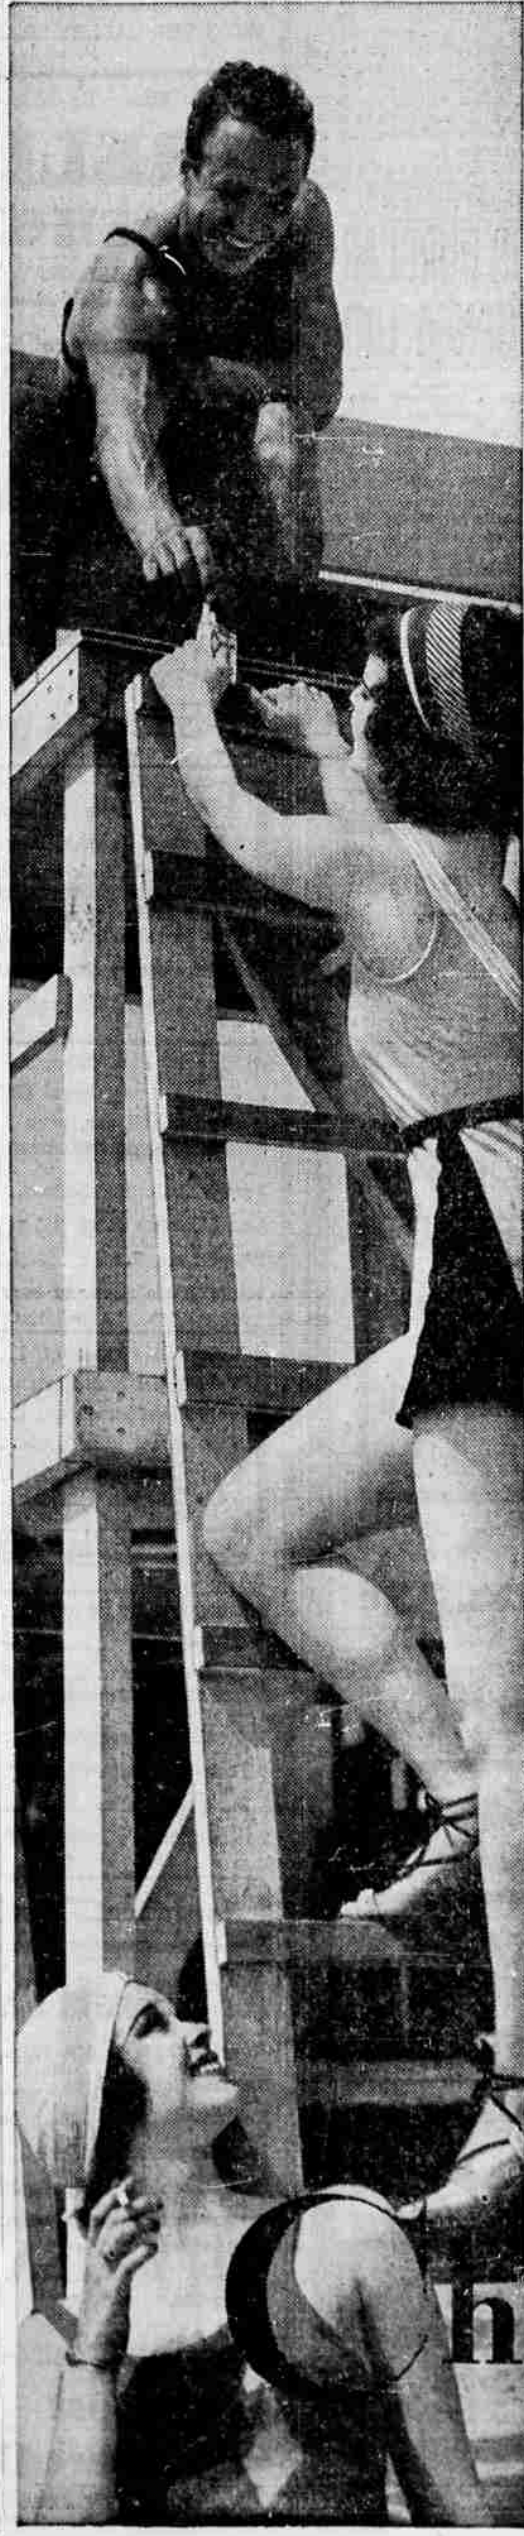

Live halfway up a mountain!

BANFF SPRINGS - a \$5,000,000 hotel halfway up a mountain - with two glacial rivers roaring at its feet. Banff - where you play golf on a \$450,000 course... tennis on fine red courts against an emerald and diamond backdrop... swim in two exhilarating pools... ride sure-footed mountain ponies... dance to the strains of a fine orchestra... stroll romantically under a silver moon. Chateau Lake Louise is just 40 smooth motor miles away.

This season Banff is nearer than ever, for rates scale closer to consistent economies. There are special weekly or monthly rates, European and American plan. There are Low Summer Rail Fares from all points, to make your trip economical. Call now for information and reservations.
