My Beauty Hint

ANN HARDING

Coupled with the maxim of health and happiness, which I believe to be the fundamental of true beauty, exercise and cleanliness can do more toward personal loveliness than any amount of cosmetics.

A Saturday afternoon of golf, early morning tennis and morning breathing exercises before an open window constitute the highlights of the regime of health I practice.

I advise eight hours of sleep, no more. Too much sleep makes one slothful both physically and mentally.

"Up in Sama Valley and Beagle farming districts of Oregon they're having a lot of experience with this 'back to fundamentals' business the politicians are talking so much about. Field hands, whose norm 'pay should be two dollars a day, while haying are taking their wages in hay at six dollars a ton. All they have to do then is find out what to do with the hay."
