VALLEY RUSTLER GANG NABBED

Comment
on the
Day's News
By FRANK JENKINS

HERE is an interesting paragraph in the news of Monday: "Stocks crashed through to the highest price since March today in a tidal wave of buying that piled up a turnover of 5,500,000 shares, the largest since October, 1930."

WHAT does that mean? Well, stated in the simplest possible way, it means that on the stock exchange Monday there were more buyers than sellers, prices rose.

That ALWAYS happens.

BUT here is the really interesting question: "WHY were there more buyers than sellers?"

THE answer to that question must be this: "Because people, all of a sudden, have regained some measure of their confidence in the future of this country, and so are rushing in to buy cheap while buying cheap is still possible in the hope that later they will be able to sell high, and so make a profit."

LISTEN: If people RETAIN their confidence in the future of this country, particularly in the future of business in this country, it is highly probable that the end of the depression is in sight.

That is why all this news of rising prices is so significant.

BECAUSE it reflects, at least for the moment, a rising tide of confidence in the future of the present boom on the stock exchange is important.

FAR MORE IMPORTANT is the news of RISING PRICES of farm crops. Wheat again tilted upward sharply, after its somersault starting early of Saturday. Cotton, which means nothing here in Southern Oregon, but means EVERYTHING in the South, showed good gains.

From Chicago, great agricultural marketing center, came this encouraging dispatch: "Butter and egg futures again scored on the Chicago Mercantile exchange today. Prices for the third consecutive trading session shot to new highs for the season."

That chimes in with the wheat news, which read: "Sweeping upward with the largest speculative demand witnessed in months, wheat made substantial price gains, especially late."

THESE price increases hold, they will mean larger buying power on the farm, and larger buying power on the farm will be reflected in increasing demand for the products of industry. If there is increasing demand for the products of industry, it will mean more employment and more employment, in its turn, will be reflected in increasing demand for the products of the farm.

Business works that way, in a sort of endless chain.

HERE is another encouraging note, especially for Southern Oregon, where the wool industry is one of our largest agricultural industries: the dispatch coming from Boston, the country's largest wool market: "Sentiment in the wool market is becoming more optimistic. A large movement of wool last week encouraged efforts to advance asking prices on holdings. Further stimulus is given by reports of stronger prices on recent purchases in the country."

Improving sentiment in the wool industry hasn't yet been reflected in higher prices here in the wool country, but WILL BE if it continues.

INCIDENTALLY, experienced observers tell us that the oversupply of sheep in the country is being liquidated more rapidly than most people realize. If that is true, the sheep and wool industry ought to be due for a pleasing recovery.

THERE is some reflection of improvement in the lamb market. Within the past few days, lambs have sold in the Southern Oregon-North-

QUARTET TRAILED FOR WEEKS TAKEN LATE YESTERDAY

Claim Confession From Victor and Oris Goble and Kirch Peile of Trail and Tyrus Beck of Medford

Detailed confessions have been obtained, the state police claim, from Victor Goble, 19, Oris Goble, 16, and Kirch Peile, 20, all of Trail and Tyrus Beck, 19, Medford, admitting cattle stealing and butchering the past three months. They were arrested late yesterday and early this morning, following a month of intensive investigation by the state police and sheriff's office. The quartet will be arraigned in justice court this afternoon.

The gasoline cowboy rustling operations, according to the authorities, extended from the Umpqua divide to the Siskiyou. Valley stockmen who lost cattle by reason of the depredations are Verne Brophy, Arthur Kent, E. N. Bingham, and Frank P. Bybee. The stock were stolen from the Evans Valley, Antelope, Clinmas, Little Butte creek and Trail districts.

Brophy said this afternoon that in his opinion, 50 or 60 head of cattle had been stolen this spring from the ranges. He said that last year he lost \$2000 or more from cattle rustling. Stockmen of the eastern portion of the county are reported ardent of the continued thefts.

Suspects shadowed. In collection of the evidence, the state police detailed two men to watch the suspects. They followed them for the past two weeks, and at one stage spent 60 hours straight shadowing the suspects and eyeing their work.

According to the state police, and the alleged confessions the quartet operated both day and night—using a spotlight for "night work." They butchered the cattle on the spot, using an auto to haul the loot to town. The auto was killed with a rifle. The weapon, the spotlight, a block and tackle, and knives used, were obtained.

After the slaughter of the stock—mostly veal—it was brought to this city and a license was procured. In this city, Ashland, Central Point, Jacksonville, Gold Hill and Grants Pass.

Say Operations Admitted. Theft and slaughter and sale of

Pear Markets

NEW YORK, Aug. 10.—(AP) (U.S.D.A.)—Pear auction: Prices slightly weaker; 7 cars arrived; 32 California, 1 Washington unloaded; 28 cars on track; 3 New York cars by boat.

California Bartlets: 22,080 boxes. \$1.10-2-15, average \$1.53.

Washington Bartlets, 645 boxes. extra \$1.00-1.30, average \$1.14; choice \$1.00-1.10, average \$1.04.

CHICAGO, Aug. 10.—(U.S.D.A.) (P) Pears: 11 California cars arrived; 15 cars on track; 11 cars sold.

California Bartlets: 6,375 boxes \$1.20-2.05, average 1.55.

JACKSON COUNTY HIGHWAY BEAUTY CONTEST WINNER

Cash Award of \$125 Goes to Medford Garden Club for Efforts in State-Wide Improvement Campaign

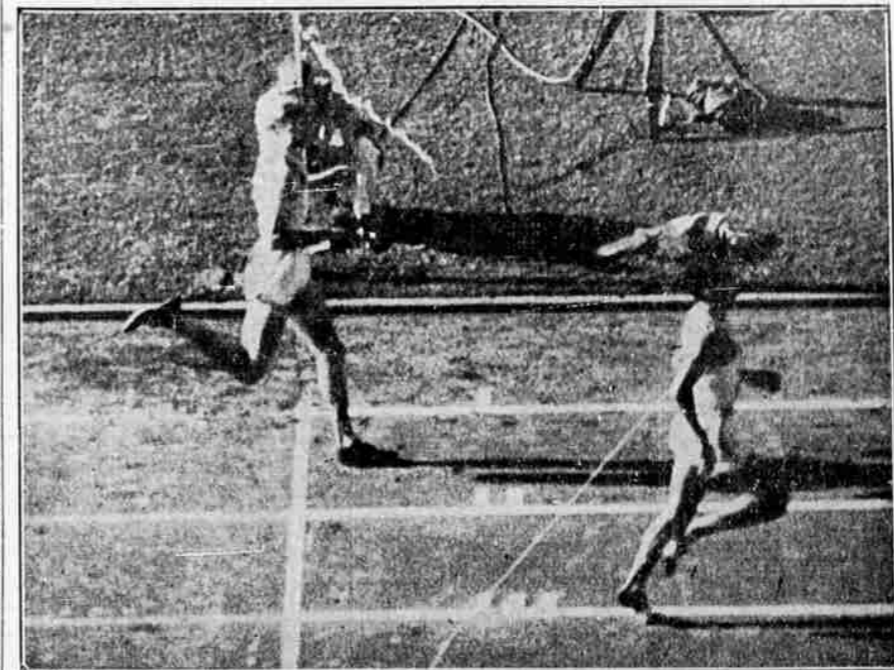

PORTLAND, Aug. 10.—(P)—Jackson county's program of highway beautification won that district the first prize award today when the Memory Gardens Highway Improvement association announced the results of work authorized and endowed by the late Samuel Hill, highway builder.

A cash award of \$125 went to the Medford garden club, of which Mrs. A. E. Reames is president and Mrs. Curtis Darby, secretary. A committee of the club, headed by C. L. MacDonald and Mrs. Mabel Mack, conducted the highway beautification campaign.

Second prize of \$75 went to Lane county, where the Eugene Garden club, of which Mrs. E. B. Parks is president, stressed highway planting and shrub culture.

Oswego won the third prize of \$50 for its improvement of the mile forlane on the Pacific highway.

When Carr Defeated Ben Eastman

Bill Carr, of Pennsylvania, gave the United States its first sweep in the three short distances since the 1912 Olympics by winning the 400 meters in 46.2 seconds, two-tenths of a second ahead of Ben Eastman, the great Stanford star. Both shattered the world record of 47 seconds. The crowd acclaimed it the greatest performance in five days of Olympic track and field competition. Associated Press photo.

WAY FOR BRIDGE OVER GOLDEN GATE FINALLY CLEARED

SAN FRANCISCO, Aug. 10.—(P)—The way was clear today for construction of the San Francisco Golden Gate bridge, a project dreamed of for many years.

The Southern Pacific-Golden Gate Ferry, Ltd., yesterday announced it had abandoned opposition to construction of the span.

P. J. Shoup, vice-president of the company, Eastman, president of the company, issued a statement saying his company has determined not to appeal to the United States supreme court from a federal court decision sustaining a validity of the bridge construction and its power of taxation.

Shoup, vice-president of the Southern Pacific company, largest stockholder of the ferries company, followed Eastman's announcement with the statement the Southern Pacific is in accord with the ferries company's action.

Construction can now be started, as soon as the district gets its machinery in motion," said Mayor Angelo Rossi.

Eastman said he still believed the bridge project was "ill-founded and ill-advised" and "largely a promotion."

He said the ferry company has been seeking a seeking way to delay construction of the bridge so that it might profit.

DROP CHARGES IN REICHSTEIN CASE

Frank J. Newman, attorney for Mrs. C. F. Reichstein, this afternoon stated that he planned to inform District Attorney George Coddling "as far as the Reichsteins are concerned, no charges will be filed against Wm. H. Cheadle, 43, who is being held in the county jail in connection with the beating of Mrs. Reichstein at her home early Monday morning."

This move was prompted, Mr. Newman said, by identification.

Cheadle, who is Mrs. Reichstein's brother-in-law, has been held in jail since his arrest Monday by city officers. Mrs. Reichstein suffered from shock and bruises as a result of a beating early Monday morning. She was taken to her home, she said, after the attack.

SPAIN IN THROES OF FRESH REVOLT AGAINST REPUBLIC

MADRID, Aug. 10.—(AP)—Royalist army leaders plunged Spain into rebellion today, attacking the ministry of war at Madrid and seizing control of the city of Seville.

General Jose Sanjurjo, who escorted Queen Victoria into exile, appeared to be an outstanding figure in the movement. He took over Seville and the smaller town of Jerez de la Frontera.

The entire country was practically under martial law as the republican government mobilized to prevent the uprising from spreading. Troops patrolled the streets of the principal cities of the south and excitement ran high.

The civil guard, backbone of the government's armed forces, was divided. Many of the men garrisoned in the south followed their popular former commander, General Sanjurjo. Sentiment was divided also among the rebel population.

The rebellion began with an attack on the war ministry, but the federal authorities had been warned in advance and were ready with machine guns. The attack was repulsed quickly, but eight men were killed and 50 or more were injured.

Former King Alfonso, on vacation in Czechoslovakia, apparently was not directly connected with the movement, but political observers had no doubt it was a monarchist uprising with the objective of overthrowing Prince Juan, Alfonso's third son, who is a cadet in the British navy.

POOR OF COUNTY GIVEN \$14,651 IN FIRST 6 MONTHS

Jackson county, for the six months of the year ending June 30, expended \$12,121.63 for care of the poor not in the poor farm and \$2,529.18 for maintenance of those at the poor farm. The figures are contained in the semi-annual report of the county treasurer filed with the county court July 22.

During the same period \$2597.82 was expended for widowed pensioners. County Commissioner Victor Bursell said today the indigent fund was "about even with the board, but the demands were apt to increase as winter approached."

While local employment is expected to improve with the release of state and federal funds for highway work in the fall and winter, complaints have been filed with the county court relative to alleged employment of California workmen in the packing houses of the valley to the detriment of valley workers, despite promises to use local help. The county court has no jurisdiction as to who shall be hired, as it rests solely with the employer. Local fruit workers said today that the situation was "shaping up the same as last year."

The past two weeks valley residents have been pouring into the county court securing local labor cards.

Valley fruit workers allege that they are being discriminated against and cite that in California orchards and on packing plant sides large signs are displayed, stating that "only California residents will be employed."

The chamber of commerce and unemployment committee heads are investigating the situation.

VALLEY DAIRIES VISITED ON TOUR

Users of milk and milk products from many sections of the valley met at the city park this morning to start on the tour of Jackson county dairies, arranged by the local unit of the Women's Greater Oregon association.

Miss Katherine Rawls, 14 year old Miami, Fla., girl, finished second and Miss Jane Fauntz, Chicago, third.

Miss Coleman totaled 87.52 points in three compulsory and three voluntary dives from the ten foot springboard. Miss Rawls tallied 82.52 and Miss Fauntz 82.12.

Mrs. Glen Fabrick, president of the Medford association, and Chas. W. Austin, milk inspector, headed the tour. Frank Jenkins, president of the Southern Oregon Publishing company, who arrived in Medford this morning, was among special guests on the expedition. Cars for the tour were furnished by producers and distributors of milk.

AMERICAN WOMEN WIN DIVE EVENTS

OLYMPIC SWIMMING STADIUM, Los Angeles, Aug. 10.—(AP)—The United States captured the first three places in the women's Olympic springboard diving finals today with Georgia Coleman, Los Angeles, winning the 1932 championship.

Miss Katherine Rawls, 14 year old Miami, Fla., girl, finished second and Miss Jane Fauntz, Chicago, third.

Miss Coleman totaled 87.52 points in three compulsory and three voluntary dives from the ten foot springboard. Miss Rawls tallied 82.52 and Miss Fauntz 82.12.

CHILLY WEATHER IN BEND REGION

BEND, Ore., Aug. 10.—(P)—Wintery weather prevailed in the Cascade mountains west of Bend today, and storm clouds which drifted out of the southwest blanketed some of the higher peaks with snow and coated forest service lookout houses and telephone lines with the snow. Considerable rain fell in the local district.

The chill of the unseasonable August weather was felt in Bend and residents of the city went about with overcoats wrapped about them. Tourists gathered around large log fires in camps last night when the temperature dropped to within seven degrees of the freezing point.

2500 CARS LACK CURRENT PLATES

It is now estimated by county authorities that all but approximately 2500 of the autos in this county have procured or applied for 1932 license. It is further figured that those who have signed their intentions of purchasing, when finances permit, do so.

It is estimated that there are between 9500 and 10000 autos now in the county or 1000 to 1500 less than last year, when owing to the Copco construction work there were many transients. It is assumed that close to 7000 licenses have been issued for this county to date.

Applications for 1932 license continued, but not as briskly as the fore part of the month, when they averaged 100 per day.

DR. ZOOK COMES SOON TO CONFER

PORTLAND, Ore., Aug. 10.—(AP)—Members of the state board of higher education today confirmed reports that Dr. George Frederick Zook, president of Akron (Ohio) university will be in Oregon this week to confer with the board about the possibility of his being appointed chancellor of Oregon's institutions of higher learning.

Dr. Zook was in Chicago yesterday and was expected in Portland Saturday. The board invited him to make a personal inspection of Oregon's educational institutions, with the chancellorship in mind, after the meeting here July 29 in which the earlier policy to seek a chancellor outside of Oregon was reiterated.

Dr. Zook will visit the university, state college and three normal schools. Members of the board will accompany him.

Scientist Needs Long Blonde Hair

MONTREAL, Aug. 10.—(AP)—The McGill university weather man was searching Montreal today for a blonde with golden tresses reaching to her waist. The meteorologist needs the long, fine, sensitive hair for a recording hygrometer, an instrument for registering humidity changes. The hair of a brunette is too coarse, he said.

Stribling Beats Canadian Fighter

BREBANE, Okla., Aug. 10.—(AP)—L. (Young) Stribling, McAlester, Okla., heavy-hitter, battered Jack Renault of Canada, so mercilessly tonight that the referee halted their scheduled 15-round bout in the fifth round. Stribling almost severed one of Renault's ears with his punching and had him retreating from the start.

ELKS' BAND PLAYS THURSDAY EVENING

The Elks' band will entertain with a concert in the city park tomorrow evening at 8 o'clock, according to announcement today. This concert, the first one of the season, will be donated to the people and it is hoped a satisfactory arrangement will be made for future concerts.

The city budget committee eliminated the appropriation for concerts this season, due to the shortage of funds, and as a result no programs have been presented by the band. The program for tomorrow evening will be announced in the Thursday Mail Tribune.

TILLER TO TRAIL BIDS OPEN AUG. 26

PORTLAND, Aug. 10.—(AP)—The bureau of public roads will open bids here Aug. 26 on the grading of the federal forest section of the Pendleton-John Day highway and on a section of the Tiller-Trail forest highway in Douglas county.

The length of the Pendleton-John Day project is about 15 miles, and that of the Tiller-Trail section, about 2 1/2 miles. The latter work will complete the grade in Douglas county.

DINSMORE FINED \$25 FOR RECKLESS DRIVING

Ralph Dinsmore of Eagle Point, driver of the car which crashed on the Butte Falls road about two weeks ago, injuring seriously the other occupants, Albert Tingleaf and Jess Walton, appeared in court in Ashland this morning and was fined \$25 and costs when he entered a plea of guilty to reckless driving charges.

License receipt privileges were also revoked until Dinsmore can show that he is qualified to drive an auto without endangering himself and others.

Barter With Russians Is U.S. Business Hope

By Victor Eubank (Associated Press Financial writer)

NEW YORK, Aug. 10.—(AP)—Plans for the improvement of trade relations with Soviet Russia are being discussed in important political and financial circles. Outside of the old-fashioned system of barter and exchange, however, those interested find that methods of extending further credit to the soviet republic present perplexing problems.

While there are no official figures showing the present indebtedness of the Soviet Union to the rest of the world, last October it was estimated at somewhere near \$475,000,000. Debt due American manufacturers, aggregating some \$40,000,000, are due this year and in 1933-34.

Russian exports have been sharply curtailed during the past year owing to the world slump in commodity prices. For some months the soviet government has had considerable difficulty in obtaining foreign exchange. The result has been that American corporations have tightened their credit regulations or have declined to deal in other than very short short-term credits.

Notwithstanding the shortness of money and credit, one large American firm is at present negotiating a barter arrangement with the Russians whereby it is hoped to exchange certain machinery, badly needed by the soviet, for commodities usable in this country. The machinery is valued at around \$25,000,000.

If the trade goes through, money will not even be mentioned.

Will Rogers says:

BEVERLY HILLS, Cal., Aug. 9.—You folks all over the U. S. that thought these Olympic games was just some real estate racket of Los Angeles and didn't come, you have been badly fooled. You have missed the greatest show from every angle that was ever held in America.

Regardless of hard times, there has been from 70,000 to 105,000 people every day. Regardless of this old town's boasting and blowing, they certainly come through beautiful. It was dignified, impressive and thrilling, and you have just missed something you won't get to see again during our lifetime.

And say don't worry about the Japanese flying over here in case of war. Those birds will swim over. The Argentine won the marathon—26 miles long. He could stand it, but fainted during his Argentine's national anthem. That is the longest tune in the world and was written to be played during a marathon.

Will Rogers

Biggest Birthday Card For President Hoover

WASHINGTON, Aug. 10.—(P)—President Hoover today observed his 58th birthday, but his celebration consisted of practically no celebration at all.

Early to work and a long day at his desk, was the word as to what tone Mr. Hoover would take of his anniversary.

Mrs. Hoover, however, insisted upon following the usual custom. A cake was baked, which tonight will be lighted with 58 small candles.

In addition, probably the biggest birthday card ever to come his way was prepared for the President. Brought here on a railroad freight car yesterday, it contains 40,000 signatures, scores of them from state governors and mayors. Ernest Duda-

DINSMORE FINED \$25 FOR RECKLESS DRIVING

Ralph Dinsmore of Eagle Point, driver of the car which crashed on the Butte Falls road about two weeks ago, injuring seriously the other occupants, Albert Tingleaf and Jess Walton, appeared in court in Ashland this morning and was fined \$25 and costs when he entered a plea of guilty to reckless driving charges.

License receipt privileges were also revoked until Dinsmore can show that he is qualified to drive an auto without endangering himself and others.

157-Yard Putt Is In One

HICKORY, N. C., Aug. 10.—(AP)—Clinton Andrews today had a new golf record for someone to shoot at. Playing the Hickory club course here, he came to number 6 with the cup 157 yards away. He decided to use the putter and whizzed away at the ball. It fell into the cup without hitting the ground for a hole in one.

RAILS, UTILITIES LEAD MARKET IN HUGE TURNOVER

4,500,000 Shares Change Hands in Session—Wheat and Cotton Follow Suit—Bonds Are Also Buoyant

NEW YORK, Aug. 10.—(AP)—Securities and commodities joined forces in another active demonstration of bullishness today.

Shares, after soaring \$2 to \$5 a share under leadership of rails, utilities and farm implements, reacted from their best prices, but the market strengthened again with buying of stocks in the final dealings. Volume swelled to approximately 4,500,000 shares, the second largest turnover of the year.

Wheat, expecting a bullish government crop estimate after the close, showed net gains of about 1 1/4 to 1 3/4 cents a bushel. Cotton had an extreme advance of \$1.50 a bale, while hides, sugar and rubber quotations strengthened.

Bonds Buoyant.

In the bond market, railroad loans were especially buoyant, some \$10 to \$40 or more per \$1000 obligation. Dividend reductions by Eastman Kodak company and Delaware & Hudson company failed to disturb the general market, although Eastman shares broke sharply.

The unfilled tonnage statement of United States Steel corporation showed a drop of 68,466 tons in the backlog during July, was apparently better than Wall Street had expected. A weekly review of the steel trade said producers were still confident in a September upturn, even though there had been slackening in the operating ratio this week.

Close Under Best Price.

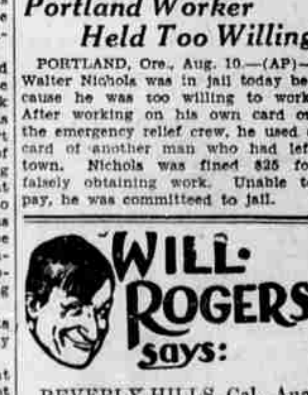

Closing prices of shares were mostly under the best, reactions from the highs amounting in many instances from \$1 to \$3.

American Telephone, again a center of strenuous activity, closed \$4

(Continued on page two)

Portland Worker Held Too Willing

PORTLAND, Ore., Aug. 10.—(AP)—Walter Nichols was in jail today because he was too willing to work. After working on his own card on the emergency relief crew, he used a card of another man who had left town. Nichols was fined \$25 for falsely obtaining work. Unable to pay, he was committed to jail.

Will Rogers says:
