Banjo Artist To Make Home Here And Give Lessons

Abandoning his southern California residence for Medford, Donald Elliott, widely known banjo artist in that section, will locate here, intending to start a class in banjo and also guitar. Along with this work he will give performances in the theatres.

Mr. Elliott received most of his training from Harry Harrison, an outstanding teacher of banjo in southern California, who was on the stage for over 15 years, where he and his banjo became famous.

In connection with this, Mr. Elliott has done a great deal of vaudeville work in coast theatres, having been booked at several Fox theatres in and about Los Angeles. Besides his stage work he also had a class in banjo. Elliott was also one of the entertainers in both the 20th and 21st annual National Orange shows of San Bernardino. He has done a great deal of entertaining for service clubs, both at the Roosevelt hotel of Hollywood and the California hotel of San Bernardino. Many noted people have heard him play, such as old Grauman and Governor James Rolph, Jr.

WOMAN FINED \$15 ON CHARGES OF CRUELTY TO DOG AT GOLD HILL

Mrs. Ivan Wilson of Gold Hill, charged with inflicting cruelty upon "Rex," little fox terrier, belonging to Charles Stanford, when she recently found the dog on her premises, was fined \$15 and costs in Judge Reed's court in Gold Hill yesterday afternoon.

The fine, according to members of the Jackson County Humane society, interested in the case, was based not only upon the crime, but also upon the woman's failure to relieve the dog in its suffering and her failure to notify its master.

Members of the humane society today voiced their appreciation of Judge Reed's verdict and emphasized the need in the world for a little more of compassion and pity for animals.

"The big person," it was stated, "is the one, who after committing a wrong, admits it and makes an attempt to correct it."

Mrs. Wilson, it was explained, notwithstanding the fact that she knew she had caused suffering, describing in the court room the agony the animal experienced, did nothing to relieve it.

The nine-year-old terrier, which came upon her premises has only three legs and one eye, but is a prized possession of Mr. Stanford, a Spanish and World War veteran, and a great lover of animals.

COUNTY CANNOT ISSUE PERMITS

SALEM, Aug. 10.—(P)—Permits to use secondary highways in Oregon for transportation of threshing machines and any other equipment not covered by specific hauling regulations, must be secured from the state highway department. This information was sent to all county courts today by the highway commission.

In the past such permits had been issued by the county courts for market roads, but since the chief market roads have been taken over by the state as secondary systems, the county no longer can issue permits, it was pointed out in the letter. Several counties have been issuing such permits. The letter further pointed out that the state was now responsible for the roads as much as they were for the main state system.

WAR VET PATIENTS TO U. S. HOSPITAL

SALEM, Aug. 10.—(P)—Twenty war veterans, patients at the Oregon State hospital, will be transferred to the United States Veterans' hospital in Portland today, it was announced by Dr. R. E. Lee Steiner, superintendent.

The transfer of the veterans from state control to the federal institution has been made possible through federal legislation recently made operative in Oregon.

Recall Sponsors Popular Method Is Work in Dark

From Medford there is a news account of a recall movement against a judge of the circuit court. Petitions for the recall are in circulation. The dispatch informs us that "the sponsors of the movement are not named on the petitions." And that latter is not surprising.

PRIDE OF GREEK NAVY NOW JUNK

BREMEN, Germany.—(P)—The armored cruiser Salamis, 21,000 tons, once destined to be the pride of the Greek navy, is finding an inglorious end in a Bremen shipbreakers' yard. It never had a chance to fly the blue-white cross of Greece.

The history of the ship probably is unique in naval history. Construction was started in a Hamburg yard in 1914, and went on until 1915 when, owing to changes in the Greek situation caused by the World war, work came to a standstill.

After the war Greece had no use for such a costly cruiser, and protracted negotiations for completion of the work failed after the League of Nations and The Hague court of arbitration had intervened.

As the present republican Greek government still refuses to take delivery, the half-finished ship is being turned into scrap iron.

Oregon Weather. Slightly cloudy tonight and Thursday; fog and mist on the coast; normal temperature; moderate north-west wind offshore.

OHIOANS TO LEAD NINE BIG TEAMS IN GRID SEASON

COLUMBUS, O.—(P)—Ohio, famous for its presidents, may become almost as well known for its football captains.

When football warriors gather in stadia throughout the country this fall to prepare for the season's campaign, there will be nine Ohio boys at the head of as many of the nation's most powerful eleven.

Lewis Hinchman, Columbus, Ohio State halfback and recipient of the Associated Press All-Big Ten honor, captains the Buckeyes this fall.

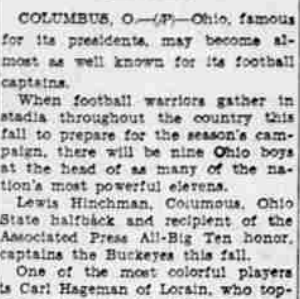

One of the most colorful players is Carl Hageman of Lorain, who topped off a youthful career of magazine selling and Great Lakes steamer work with the captaincy of the Harvard squad, stepping into Barry Wood's big shoes.

Hageman is the first end to pilot the Crimson since 1901 and only the fourth in history to be elected. He joins the select company of Bill Yeckley, captain of the 1931 Princeton team, and Ludwig Pincura, pilot of Western Maryland, as Lorain's contribution to college football.

Roberts L. Smith of Steubenville heads Colgate's always potent squad this fall, while Robert Monnet, of Bucyrus takes the captain's post at Michigan State college.

One Smoker tells Another

IT is perfectly natural for smokers to talk to each other about what they smoke and why they smoke a certain brand. Tastes differ, and therefore different people smoke different kinds of cigarettes. Those who smoke CHESTERFIELDS seem to take more pride

in telling other smokers — "that CHESTERFIELDS are milder; that there is no harshness — no bitterness." They also tell them — "that CHESTERFIELDS taste better: that they have a pleasing aroma." . . . CHESTERFIELDS are clicking with millions.
