REED IS DENIED COUNTY HELP IN MAKING APPEAL

Albert W. Reed of Denver, Colo., serving a life sentence in the state prison at Salem for complicity in the murder of Victor Knott, Ashland policeman, last January, was yesterday denied a motion by the circuit court for county funds for the preparation of the transcript of the evidence in his trial for an appeal to the supreme court. The motion was made by his attorneys, Newbury and Newbury, Paul McQuade and Lee Jackson, indicted with Reed for the murder, are still fugitives.

REDDY TO OPEN MINING BUREAU

Dr. J. F. Reddy, an authority on mining conditions in southern Oregon will open an office in the Hotel Allen (Nash), as a clearing house of information on mines, mining and miners, in Jackson, Josephine and Curry counties. Dr. Reddy says there are daily inquiries about mining in this section and at the present time between 200 and 300 men are working in the hills on mining projects. This interest in mining has come of its own strength, and through no other influence. He believes that the establishment of a mining office will be valuable to all concerned.

PAROLE HOPE FOR JACKSON COUNTY MEN BEHIND BARS

A number of Jackson county prisoners in the penitentiary for various crimes are scheduled to come up before the state parole board at its next meeting, as they have served one-third their sentences and are eligible for parole. The parole applications of Jackson county's life termers—the DeAutremont brothers, and James Dougherty, three time loser, sentenced for burning the feet of an aged junkman to make his tell the hiding place of his mythical wealth—are received once a year as a matter of form. They hold no hope for a parole. Under the Oregon law, prisoners with a previous record of conviction are not eligible for parole. There are several in this class from this county including Ed Corey, serving 10 years for an assault upon a young Rogue River girl. Corey served a term in a Washington state reformatory for burglary before being sentenced from this county. Corey has relatives in the north end of this county.

STABBED WOMAN IS TAKEN HOME

Mrs. Golda Glayzer, slashed last Saturday evening by a butcher knife in the hands of her husband, William F. Glayzer, former resident of the Trail district, and transient laborer, was removed from the Ashland hospital yesterday to her home. Her husband is held in the county jail on an open charge. A formal charge of assault with a deadly weapon will be filed against him by the district attorney's office this week. Glayzer and his wife have been estranged for several months. He has been a transient worker for the past year, traveling between Sacramento, Calif. and Tacoma, Wash. Mrs. Glayzer sustained a number of wounds on the arms, as a result of frenzied attack, and suffered from loss of blood.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning! Wake up your liver bile without Calomel. If you feel sour and sunk and the world looks punk, don't swallow a lot of saline mineral water, laxative candy or chewing gum and expect them to help you. They only sweeten and buoyant and full of starch. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just stays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned. It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the same Carter's Little Liver Pills on the red label. Beware of substitutes. 25c at all stores. © 1931 C. M. Co.

TOUGH HILLS? ZOOM UP WITH "FLYING A" Aeroplane performance—proved in cars like yours—on the roads you drive! TRIAL TESTS on the race track, in the laboratory, in spectacular stunts—these alone are not enough to win the name of "FLYING A" for this new Aero-type Gasoline. "FLYING A" had to meet the final test in cars like yours—in the strain of quick get-a-way, on hills with the foot throttle down against the boards, on the wide open road—all the changing tests you give your car every hour you drive. "FLYING A" proved that it holds its zooming, smooth power under every driving and weather condition, that it is anti-knock no matter how hard or fast you drive. This is the gasoline with octane stability. It is this exclusive feature—the same octane stability required in the finest aviation gasolines—that lifts "FLYING A" out of the class of just gasoline. "FLYING A"—Aero-type brings you a new sensation in motoring. Smooth, constant power. Flying miles! Give wings to your car, old or new, with a tank-full of "FLYING A" from the smiling Associated Service-man at the red, green and cream "FLYING A" pump. 4 Exclusive Developments: 1. Octane stability—sustained anti-knock performance no matter how hard or fast you drive. 2. Heart-cut of the crude, only vital gasoline fractions retained. 3. Equi-fractionating process, to assure Starting, Pick-up, Power, Speed and Mileage; not just one alone. 4. Climatically Correct, in accord with weather conditions where and when you buy it. The diamond-painted pumps offer Associated Ethyl Gasoline with "FLYING A" as a base.
