Maytag Officials Say Pacific Coast Business Brighter

Three officials of the Maytag company now making a tour over the country are impressed with the business outlook, particularly for the Pacific northwest. At the sales meeting held in Portland, it was predicted by Roy A. Bradt, vice-president in charge of sales, that the present upturn in business is permanent. His opinion is based on the improved trend in commodity prices and the wave of confidence that is sweeping the country.

This improvement in business has been directly reflected in increased activity at the Maytag factory, where 1500 men have been added to the payroll. Sales have increased materially and Mr. Bradt was impressed by the showing made in the northwest division where sales increased 50 per cent in August over July. This has enabled J. A. Gazelle, division manager for Maytag Pacific International company, to add 275 men to his sales force.

Accompanying Mr. Bradt were O. C. Cameron, vice-president of the Maytag corporation, and Walter Selzer.

FRANCES WILSON PASSES, AGED 88

GOOD—THEY'VE GOT TO BE GOOD Or They Couldn't Pass This Inspection

Chesterfield's Standard Demands That No Detail Be Overlooked

One of the most interesting machines in a Chesterfield factory is this almost human "making" machine, which stacks up 750 finished cigarettes a minute. End-on, the tray-full looks like a huge honey-comb. But the job isn't ended there, for white-gloved inspectors, eagle-eyed and expert from long practice, remove with tweezers each torn or imperfect Chesterfield. Every possible precaution is taken, both for cleanliness and perfection of product. Every 4 1/2 minutes the air in the factories is changed. The cigarette paper is pure, and burn without taste or odor. The ne...
