SUBSCRIBERS SAVE ON MAIL TRIBUNE BARGAIN OFFERING

At press time today the stream of renewals and new subscriptions responding to The Mail Tribune's annual bargain offer was undiminished. The number of new orders has far exceeded marks set by former years, proving conclusively that The Mail Tribune is a much desired addition to the daily routine of the home. This is the seventh annual bargain period to be held by The Mail Tribune since its inauguration in September, 1926. Records show that an increasing number of Jackson county residents realize the saving affected each year as the number taking advantage of the bargain rates have increased every year without exception. Many people who cannot afford a newspaper as a luxury realize that with intelligent buying in connection with the advertised mercantile bargains they can easily save the price of a year's subscription in less than a month. For the balance of the year they save many times the amount of their investment. No other investment could possibly return such large dividends. A number of subscribers who have been unemployed for the past months have renewed their subscription so that they can benefit from the savings offered by Mail Tribune advertisements. The rate during the bargain days is \$5 for a year's subscription, delivered by carrier and \$4 annually by mail in Jackson, Josephine, Klamath and Siskiyou counties. The \$5 annual rate applies to subscriptions outside these counties. The one restriction connected with The Mail Tribune bargain offer is that in order to take advantage of it, subscriptions in arrears must first be paid up.
