

LEGION LEADERS TALK CONVENTION

A meeting of the executive committee of Medford post No. 15 of the American Legion was held at the Hotel Holland Wednesday, to discuss final plans for the national convention in Portland next week, and to arrange for the reception of the Pasadena drum corps which arrives here Saturday. This famous corps numbers 55 pieces and is one of the finest musical organizations in the American Legion, having been state champions of California for two years and one of the leaders in the national contests each year.

The Pasadena corps will spend the night in Medford, giving a street parade Saturday night and appearing as a stage attraction at the Holy Theater. They will be entertained by members of the Medford post, and quarters have been provided for them at the Army, through the courtesy of Captain C. Y. Tengwald of the National Guard. Their reception here is expected to result in some fine advertising for Medford throughout southern California.

COPCO FILMS ARE SHOWN IN J'VILLE

A large audience enjoyed a Copco movie show at the U. S. hotel in Jacksonville Wednesday night, presented through the courtesy of the California Oregon Power company. The program was sponsored by the American Legion club of Jacksonville and proceeds of the affair were turned over to the junior baseball fund.

A variety of seasonal subjects was shown by H. L. Bromley, Copco advertising manager, and included such interesting current events as the Olympic games at Los Angeles, the Shasta ski jumping tournament, salmon run in Rogue river, tomato growing in southern Oregon and the recent courthouse dedication September 1.

ROLE OF HEROINE NOT FOR WRITER

NEW YORK, Sept. 9.—(AP)—Joan Lowell, writer, who saved Albert D. Graham, Baltimore banker, from drowning last week at Atlantic City, still shaken from the experience, said today she would not be a life saver if it were the last job in the world.

Wherever you go, you find this malt of superior quality

Doing just one thing makes men experts, whether it's cutting down a forest or making malt. The maltsters who make Blue Ribbon do nothing but make malt — one reason for its superior quality.

THE HOME OF BREAD LIKE MOTHER MADE

No Hard Times For This Fellow

SMART FELLOW—the squirrel—always looks ahead and instinctively prepares for winter.

Proud little fellow, too, and in the fall of the year when a tinge of frost is in the air, he seems the happiest. Happy, no doubt, because assured of a generous supply of food when nature no longer provides.

Folks, too, are like that. There's something in a well-stocked pantry that makes one look at it again and again—makes him happier, a little prouder and a lot easier to get along with.

It doesn't require the instinct of the squirrel to know that while the harvest pay rolls are at their peak, food should be stored for the winter unemployment. Prices are lower than for years—lower than they will be this winter; so store all you can from that weekly pay check. Provide a winter reserve.

Smart fellow—the squirrel.

No can of Hills Bros. Coffee will ever "go stale." The vacuum can keeps it FRESH ALWAYS!

As the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously . . . "a little at a time."

HILLS BROS COFFEE NEVER VARIES IN FLAVOR . . . THAT'S WHY YOU'LL NEVER SWITCH

Roasting "a little at a time," instead of in bulk, is the reason for unchanging flavor in Hills Bros Coffee

It is a flavor no coffee can duplicate, because Controlled Roasting belongs to Hills Bros

You'll like Hills Bros. Coffee from the very first sip! It has a rich, exquisite flavor no other coffee has. And as time goes on, you'll still like Hills Bros. Coffee. For the flavor never varies!

Variable flavor results from bulk-roasting. There is no positive way to roast big batches alike. One may be underdone — another overdone. Different flavors naturally result.

Hills Bros.' patented process—Controlled Roasting—overcomes that! Hills Bros. roast a little at a time . . . evenly, continuously, under automatic and exact heat control. Every pound is roasted the same! Hills Bros. Coffee can't go stale! The

vacuum process of packing coffee is the only method that fully preserves coffee freshness — the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can — it will not make poor coffee good, but it will keep good coffee fresh.

Ask for Hills Bros. Coffee by name, and look for the Arab trade-mark on the can.
