

CANDIDATES FOR CONGRESS WILL HEAT CAMPAIGN

Public Not to Be Permitted to Lose Sight of Fact New Congress to Be Elected in November Balloting

By Byron Price (Associated Press.)
No matter how much may be raised by the presidential marathon, the public will not be permitted during the next few weeks to lose sight of the fact that a new congress also is to be elected in November. The congressional campaign committees are preparing to bring out the siege guns. A lot of this activity, of course, is directed toward personal ends. For their own sakes, individually, the ins want very much to keep their government tickets and their committee seats, while for the same reasons the outs are eager to become the ins. Beyond this, however, lies a national stake for each party. No one knows better than party managers that whoever is elected president will be at a great disadvantage if he faces a hostile majority in Capitol Hill. It is for this latter reason that the national organization will be devoting increasing attention from now on to the campaign for senate and house.

Democrats Have Edge
No one disputes that so far as the senate is concerned, the democrats start with an advantage born of natural circumstances. Only one-third of the senate is elected at a time. The total membership is evenly balanced now between the parties, and of the thirty-two seats to be filled this year, about half likewise is held by each party. But it so happens that most of the democratic seats are in normally democratic territory, while most of the republican seats are in disputed territory. To hold what they have, the democrats need to carry Alabama, Louisiana, Arkansas, Florida, Georgia, North Carolina, South Carolina, Oklahoma, Kentucky, Missouri, Maryland, Arizona, Ohio, Kansas and New York. The republicans, to hold what they have, must carry Connecticut, Colorado, Wisconsin, Iowa, Vermont, Pennsylvania, Illinois, Washington, New Hampshire, South Dakota, North Dakota, New Jersey, Nevada, California, Utah, Oregon, Idaho and Indiana. Only a small percentage of the democratic seats are contested seriously, while virtually all the republican seats are under determined attack.

G. O. P. Trio in Battles
Reports which come over the political grapevine, for instance, agree that as distinguished a republican trio as Senators Moses, Watson and Smoot is in the midst of campaigns as hard-fought as any in their whole lives. When democratic claims are made against such old-timers as these, the republican organization takes note and sends out for reinforcements. **Bitter Campaign Ahead**
In the house, the entire membership of 435 is up for election. The democrats, in the majority in the present house, have made a great talking-point of the fact that they already have picked up two house seats in normally republican Maine. But the republicans are conceding nothing. This all means that a congressional campaign of more than ordinary ferocity is in the making and soon will be sweeping every debatable precinct.

'Auto Aid To Male Students

GRANVILLE, O., Sept. 29.—(AP)—The automobile as an aid to education has friends in the faculty of Denison university here. Statistics of the college showed today that men students who drove cars on the campus last year made grades 26 per cent higher than the average of students who walked.

New Machine Aids Stock Broker Here

M. N. Hogan whose stock and bond company has just installed a Western Union Teletax machine, stated today that an order to sell had been received from one of his customers 19 minutes before the market closed. Through the facilities of the new ticker, Mr. Hogan said he informed his customer of the sale confirmation 9 minutes after the market closed.

State Borrow

SALEM, Sept. 29.—(AP)—The state of Oregon has negotiated a \$1,500,000 loan from Salem and Portland banks at 5 per cent interest on a four to six months' term. When incoming revenue is expected, State Treasurer Rufus Holman announced late yesterday.

British Diplomat Ill

LONDON, Sept. 29.—(AP)—There was no change this morning in the condition of Winston Churchill, British statesman. It was said at the hospital, where he was taken yesterday after he suffered a relapse from an attack of paratyphoid which struck him at Salisbury, Austria, recently.

New Gas Bomb Makes Bandits Meek; It Gives Dryland Seasickness

By HOWARD W. BLAKESLEE, (Associated Press Science Editor) PITTSBURGH, Pa.—(AP)—A new bandit gas that makes its victims seasick has been developed here. It's name is diphenylaminechloroarsine, which means that it is composed of carbon, hydrogen, nitrogen, chlorine and a trace of arsenic. It is said to be as harmless as tear gas, but capable of taking the resistance out of a criminal for about 15 times as long. The actual contents of the "seasick bomb" is not a gas, but a solid, yellow-green, faintly aromatic. Upon bursting, contact with the atmosphere creates a canary-yellow smoke. The sniffer of this sneeze, goes, becomes nauseated and coughs through other experiences of seasickness. J. W. Long, president of the Federal Laboratories, which developed the bomb, says: "For quite a time following the world war, criminals had the upper hand in using various instruments of warfare that had been uncovered during the conflict. Science took up the battle against them with the idea that it should be made as bloodless and harmless as possible. "Tear gas was successful in numerous instances. Now another forward step has been taken in making a new high-speed grenade that holds four times as much gas as those used heretofore, and is but slightly larger. It is timed to explode almost instantly, overcoming a fault of early gas grenades which sometimes were boomerangs when they were returned quickly by bandits before having time to go off. "These high-powered speed grenades also lend themselves to selective treatment of crime. If it is intended only to put the bandit out of commission for 15 to 20 minutes, tear gas is used, but if it is necessary to extend the period of 'hors de combat' to hours, the sickening gas can be used, which causes nausea and vomiting for five to six hours. Neither gas, however, leaves any permanent injury."

Bandits do not have to go to sea to become seasick now. If they inhale the fumes from a new bomb developed at Pittsburgh, Pa., they will become seasick and go through all the experiences of seasickness. The grenade, containing solid matter, which turns to gas when it hits the air is shown above.

Democrat's Have Edge
No one disputes that so far as the senate is concerned, the democrats start with an advantage born of natural circumstances. Only one-third of the senate is elected at a time. The total membership is evenly balanced now between the parties, and of the thirty-two seats to be filled this year, about half likewise is held by each party. But it so happens that most of the democratic seats are in normally democratic territory, while most of the republican seats are in disputed territory. To hold what they have, the democrats need to carry Alabama, Louisiana, Arkansas, Florida, Georgia, North Carolina, South Carolina, Oklahoma, Kentucky, Missouri, Maryland, Arizona, Ohio, Kansas and New York. The republicans, to hold what they have, must carry Connecticut, Colorado, Wisconsin, Iowa, Vermont, Pennsylvania, Illinois, Washington, New Hampshire, South Dakota, North Dakota, New Jersey, Nevada, California, Utah, Oregon, Idaho and Indiana. Only a small percentage of the democratic seats are contested seriously, while virtually all the republican seats are under determined attack.

BURNING PERMITS ARE REQUIRED IS WARNING

A telegram was received here today by Dwight L. Phipps of the state forest office, which stated that Governor Julius L. Meier's proclamation requires burning permits until October 15, due to the extremely dry condition of the forests. The telegram was sent by Lynn T. Cronemiller, state forester, with headquarters in Salem. Mr. Phipps stated that under ordinary conditions permits are not required after October 1.

LONG TRIP FOR INVALID WOMAN

A tiny little gray-haired lady, with a sweet smile, sat rocking in her little chair at the Southern Pacific depot Wednesday not in the least bit concerned about the journey she would start when the train rolled into the station. Mrs. Cora Lyle, an invalid, who has been making her home on a little farm near Central Point, left on the Shasta Wednesday for Seattle, from which city she will sail October 1 for Canton, China, to join her daughter and son-in-law, Mr. and Mrs. Lyle Wilcox. Seventh Day Adventist missionaries, in that city. She will make the trip on the American mail line steamer, "President Jefferson." "I'm sure I'll enjoy my trip," she said, as she signed her name to the ticket. "We used to live in the Hawaiian Islands, and I have sailed the Pacific many times, and enjoyed myself greatly each trip."

DEMOCRATIC CHIEF BEHOLDS VICTORY

CHARLESTON, W. Va., Sept. 29.—(AP)—Clem Shaver, former Democratic national committee chairman, said today that Franklin D. Roosevelt, Democratic presidential nominee, will carry West Virginia. The New York governor "will carry this state by a majority of from 50,000 to 75,000 votes and the entire state ticket will be elected with him." Shaver forecast in a statement issued by the Democratic state headquarters. **Series Spectator Succumbs In Seat**
NEW YORK, Sept. 29.—(AP)—While watching the opening game of the world series in the Yankee stadium yesterday, E. W. Thompson, 59, of New York, collapsed in his seat and was dead when an ambulance surgeon arrived.

FULLER PRESENTS REASONS AGAINST ZORN SCHOOL ACT

Addressing the bankers of Southern Oregon at their first monthly gathering this fall, J. H. Fuller, former secretary of Ashland chamber of commerce, presented facts regarding the educational situation in the state and referred particularly to the initiative measure on the ballot for the coming election. He said that "for years many 'doctors' had been operating on the educational institutions of the state and that one of the latest of these after succeeding in putting over on the state his theory of merging and consolidation, was either disappointed in the nurses selected to care for the patient or did not feel that the fee for his service was sufficiently large and so lends his name to another 'prescription' for the patient' of cutting off the right arm of the educational body, taking the big toe out of each of the feet of the patient, i. e., the Normal schools at Ashland and LaGrande, and thus generally making the chap over into a new fellow. "Dr. Hector McPherson, finding that many of the more noted 'doctors' disagreed with him as to the need of a surgical operation, desiring confirmation as to his own diagnosis, writes an eminent authority in another state, Dr. Joseph Schafer, head of the Historical Association of Wisconsin and thoroughly acquainted with the educational problems of Oregon for his honest opinion regarding the diagnosis and prescription—the Zorn-McPherson bill—and Dr. Schafer replies completely disagreeing with Dr. McPherson."

Reading from that part of the opinion pertaining to Normal schools, Mr. Fuller showed the present normal school system had been evolved after years of effort and study and that in the opinion of many experts, like Dr. Schafer, the plan of decentralized teacher training normal schools more nearly met the demands of the people in a large area like the state of Oregon than one school centered with all the other institutions of education in one section of the state.

S. P. Will Add Car For Football Trip

A. S. Rosenbaum, district freight and passenger agent of the Southern Pacific company, stated last night that if sufficient number of Medford people wished to journey to Eugene by train to attend the Santa Clara-Oregon football game, a special tourist sleeper would be added to Friday night's train. The train would leave Eugene for Medford Saturday at midnight, and arrive here at 8:40 Saturday morning.

NORMAL RATING CLAIM RAPPED

Refuting the claims of Roger Ball of Corvallis, who addressed the Kiwanis club here Monday and debated Ralph Bailey at the high school last night before a large and enthusiastic crowd on the subject of the Zorn-McPherson measure for merging of the state schools of higher learning, a telegram was received today by John A. Fuller from J. A. Churchill of Monmouth. Ball in his address stated that the Oregon normal schools have been rated as 47th in the order of efficiency. Churchill in his answer states: "Just talked with State Superintendent Howard, who said the normal schools have never been rated by the United States bureau of education in order of efficiency. That it has not been done by Oregon or any state or by any agency. The statement that Oregon ranks 47th among the normal schools of the United States is absolutely false and anyone making such a statement should be made either to produce his authority or be branded a liar."

MOTHER AT THEATER VISITED BY STORK

MINNEAPOLIS, Sept. 29.—(AP)—"Give the little girl a great big hand" said Texas Guitman once again. The crowd did, but the little girl only wailed. She was the tiny daughter of Mr. and Mrs. W. G. Duttler of Willmar, Minn. The night club hostess and her vaudeville troupe were playing in a local theatre when word came to the stage from a dressing room that a child had been born to Mrs. Duttler, who had come to see the show. **Default Decree Given Johnston**
A decree of divorce by default was granted yesterday afternoon by the circuit court in the case of W. B. Johnston, Jr., against Edith G. Johnston. The decree grants Johnston the custody of two minor children, and no payment of alimony or maintenance money. A property settlement was made out of court, the decree states. **SUB-COMMITTEE FOR LOWER POSTAL RATE**
WASHINGTON, Sept. 29.—(AP)—The house postoffice subcommittee investigating the postal service today unanimously voted for restoration of the two cent postal rate on first class mail matter.

22

Years Ago Next Saturday

A small store was opened on North Central Street... For years, the story of the Store was **GROWTH** Physical growth, growth in size, in capacity, growth to a more commanding space... With the completion of additional floor space in 1921 it became apparent that growth thereafter would have to be intensive rather than extensive; growth in service, quality, dependability and standards of good taste... So for 22 years this Store has grown until now it is Southern Oregon's largest and finest Dept. Store. And to the community that made us what we are today, we dedicate Saturday, October 1, the opening day of our 22nd Anniversary Sale... See tomorrow's MAIL TRIBUNE for full page announcement...

"Nature in the Raw is seldom MILD"

THE RAID ON THE SABINE WOMEN
"Nature in the Raw"—as portrayed by Saul Tepper... inspired by the story of the Roman warriors' ruthless capture of the Sabine village for the express purpose of carrying off its women (290 B. C.).

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies...the mildest cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"
That package of mild Luckies

"If a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, let him build his house in the woods, the world will make a beeline to his door."—RALPH WALDO EMERSON.
Does not this explain the world-wide acceptance and approval of Lucky Strike?
