

IRVINE, HOLMAN HONORED GUESTS FOR BREAKFAST

B. F. Irvine, editor of the Portland Journal and a former resident of southern Oregon, was guest of honor with Rufus Holman, state treasurer, at a breakfast at the Hotel Medford, given by the fish and game committee of the Medford Chamber of Commerce, this morning.

B. F. Irvine

enthusiastic fishermen, was served the guests. The popular game fish, prepared by the hotel staff, met with much favor and received a series of compliments from the honor guests, who were unanimous in the opinion that southern Oregon has everything that promotes happy living. A great climate, delicious fruits, fish and, greatest of all, fine people.

Mr. Irvine insisted upon having with his breakfast some southern Oregon peaches and brought from his pockets several "raw and ripe" Rogue River valley peaches, which he is going to take along north with him, unless he eats them before he gets out of the valley. He was generous in his praise of the valley and its people and referred again to the very enjoyable time had yesterday as guest of the Southern Oregon Pioneer State association at the reunion in Jacksonville.

Mr. Holman also had much to say in praise of southern Oregon, listing the wealth of resources here to be judged in something "more than dollars and cents values." He urged the southern Oregonians to preserve the beauty that is here, referring to the state of Oregon as the only unspoiled-out-of-doors left to the people of the United States.

Mrs. Irvine, Mrs. Holman, and Dean Wm. A. Schoenfeld of Oregon State college, director of experiment stations, were also special guests at the breakfast, and Miss Regina Johnson

of the Ashland Tidings brought greetings from the Lathrop city.

Mr. Irvine and Dean Schoenfeld left following the breakfast for Ashland, where Mr. Irvine will address the Southern Oregon Normal school before returning to Portland.

Mrs. Irvine and Mrs. Holman left for the north, where several appointments are awaiting the state treasurer.

Communications

Normal School Rating
To the Editor:
Your Thursday news columns carried an item pertaining to Oregon's Normal School rating. To prevent a mistaken impression on this point we quote from Bulletin No. 2 (1931), Office of Education, U. S. Dept. of the Interior, as follows:
"The state's investment is far below what... is desirable and necessary. It is far below what should be expected of Oregon. This applies not alone to the physical plants of the normal schools but to the level of instruction provided."
"Only two of the 42 states in the union that maintained normal schools or teachers' colleges in 1928 gave these institutions the money for their support than Oregon. These states were Montana and South Carolina, and even they are not far below Oregon, although Montana has not much over two-thirds the population, and the teachers' college in South Carolina is maintained for negroes only."
"Oregon's capital investment in 1930 does not compare favorably with the amount invested by other states in 1928. Oregon is, on the basis of these figures, fifth from the bottom, again with the doubtful distinction of surpassing Montana and South Carolina and, in addition, Arkansas."
"Thirty-five states maintain four-year teachers' colleges for the training of elementary teachers. Oregon has none."
Thus it appears that Oregon's normal school rating falls somewhere between the thirty-sixth and forty-second places and not in the forty-seventh place as allegedly stated by Mr. Ball. The Ashland faculty are to be commended for their zeal in calling public attention to these important points.
I would appreciate your publishing this in the interest of unbiased public information. Will gladly point out these passages to anyone interested.
L. G. LYMAN.
Medford, Ore., Sept. 30.

Ed. Note: We are always glad to correct any misunderstanding and have no doubt Mr. Lyman quotes the bulletin of education correctly but he does not correct what appears to us the main misunderstanding. According to our files, Mr. Ball maintained the Oregon normal schools rated forty-seventh in EFFICIENCY. There is nothing in this report regarding efficiency, but only capital investment. The statement Mr. Lyman alludes to merely declared Oregon normal school have never been rated by the bureau of education, in order of efficiency. It is conceivable that the Oregon normal schools might rate 47th or 36th in cost of capital investment, and still rank very high in efficiency or quality of work done.

BANKERS OPPOSE OREGON COLLEGE CONSOLIDATION

Unanimous opposition to passage of the Zorn-McPherson measure to merge Oregon's schools of higher learning has been voiced by the Bankers' association of Jackson and Josephine counties. John Fuller, former secretary of the Ashland chamber of commerce, announced here yesterday. The following resolution, inviting the opposition of the people, was passed by the association:
"We, the members of the Bankers' Association of Jackson and Josephine counties, unanimously oppose the so-called Zorn-McPherson measure to be voted on in the general election in November, believing that the effect of the passage of this measure would tend to harm and disrupt the entire educational system of the state and we urge the continued support and maintenance of the Normal schools believing the present set-up with three schools advantageously located tends to the best results along this line. Therefore, we urge all voters to register and vote NO X 317."

SEND ARMED TRIO BACK TO DALLES

Richard Morton, 34; Richard Gile, 24, and Eugene Wright, 21, arrested by the state police Thursday night while traveling on the Pacific highway armed, will be returned to The Dalles, Ore., today to face a robbery charge. The trio are alleged to have robbed an old man of \$100 and to have tortured him, in an effort to make him tell where he had his wealth hidden.
Morton, according to the state police, has a family camped in the south end of the county. He claims to be a resident of this section but the authorities classify him as a transient.
Work of graveling lower end of new road up Weston mountain completed to junction with old gravel—Helix View Point.

HIGHWAY WORK TO START SOON

Surfacing of Sam's Valley secondary highway, between Gold Hill and the Crater Lake highway, will start next Monday. The grading of the road, which has been in progress all summer, was completed last Tuesday. It is expected that the grading will be completed ere the winter rains come.
Work on the Green Creek unit of the Pacific highway, between Grants Pass and the Jackson county line, will start as soon as possible. The contract has been let to Baker & Dunn of Klamath Falls. The first work will be the grading. The number of men employed depends on the

LAND AND WATER CASE NEARS END

With the completion of the case of D. C. Kunkel and wife against Anderson Mee and wife, now in progress in the circuit court before Judge H. D. Norton, the jury will be excused for the next two weeks owing to the fact that a number of local attorneys will be busy in the federal court, which opens its southern Oregon term next Tuesday.
The Kunkel-Mee litigation over land and water rights was expected to last a couple of days but has been lengthened by new legal ramifications arising. It is expected to go to the jury late today.
The court will hold the regular Saturday session in Jackson county and next week will hear a number of equity matters and motions.

GRAPE JELLY WEEK!

Save 2 1/2¢ PER GLASS on your Grape Jelly

The cheapest, most delicious grapes of the year are crowding the local markets. So read below how you can make jelly quicker and cheaper than ever this year... and then go to your grocer at once.

BY Mrs. F. N. Bateman
ILLINOIS STATE JELLY CHAMPION

"I just hate to think of women still making jelly and jam the old-fashioned long-boil method. It's so costly. And so terribly tedious! I make all my prize-winning jellies and jams with Certo. And I would never think of doing it any other way. In the first place, Certo reduces boiling time for grape jelly, for instance, to 1/2 minute. And, of course, that is how it saves me so much money. For, with so little boiling needed, not one bit of the fruit juice has time to boil away. And as a result I usually get fully 5 more glasses from the same amount of fruit... and save as much as 2 1/2¢ on every glass. Of course, this 1/2 minute of hard boiling also saves me lots of time, too. Indeed it takes me only 11 or 12 minutes from the time I put my fruit and sugar mixture on until the time my finished jelly is cooling in the glasses. And with Certo you get much better tasting jelly or jam, too. Certainly the 37 prizes the State Fair Judges

NONE OF MY GRAPE JUICE BOILS AWAY IN COSTLY STEAM!

Mrs. Bateman is only one of the many State Fair jelly and jam prize winners who use Certo in making all their blue ribbon jellies and jams. Indeed, Certo gives such amazing results that today nearly half the jelly makers in America are using it. Why not try it yourself? It will save you lots of money!

awarded my jellies and jams in the last two years testify to that!"

Why don't you do as Mrs. Bateman suggests and order a supply of Certo today—with your grapes and other jelly making supplies? You will be delighted at the money and time it will save you!

And the extra flavor it will give your jellies and jams, too... if you will simply follow carefully the Certo recipes that come in the booklet attached to every Certo bottle. So don't delay. In a few days these marvelous grapes may be on the wane. Get your bottle of Certo from your grocer's today. It is a product of General Foods.
