## MUSIC LOVERS TO BANQUET TONIGHT AS DRIVE OPENS

Workers for advancement of civic music in Medford will meet at the Hotel Medford this evening at 6:30 o'clock for the banquet, which will open annual enrollment week of the southern Oregon branch of the Civic Music association. Several prominent local speakers will be heard and Arthur W. Manuel, Pacific coast manager, will be the principal speaker.

An appeal for support of the worthy project was issued this afternoon by Wm. F. Isaacs, president, to the citizenry of southern Oregon and reads as follows: "Consider this my most earnest appeal to you to support this great organization known as the Southern Oregon Civic Music association, so

worthy of your support. We are out to increase our membership over a year ago. Our first year was a great success. The officers fully appreciate the fine spirit of cooperation we are receiving from the workers who are much interested and so enthusiastic. Miss Woodruff, vice-president of the organization, and manager of the Ashland district has turned in an encouraging report. They are exceptionally well organized and very enthusiastic. More than 27 will attend the banquet tonight.

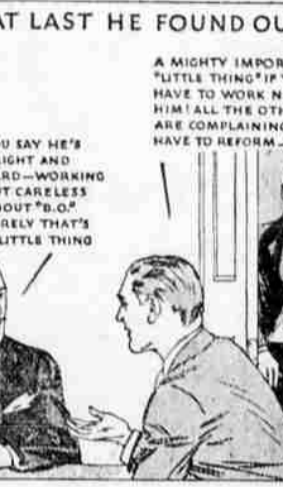

Civic music is not an experiment. It has been in force for over 11 years. It is the only plan by which great artists and fine concerts can be brought to southern Oregon without cost. Civic music is worthy and deserves support from every business house, every organization and every individual who is interested in the progress of the Rogue River valley. It brings fine concerts and great artists to our beautiful valley at small cost. If there has ever been a time when good music was needed in this community that time is now. It helps us to forget our troubles. Great happiness comes from within and remember good music plays such an important part. Music is cultural, uplifting and makes better citizens.

Make it possible for your boy or girl to hear these wonderful concerts. You can spend your dollar to no better advantage. America has led the world in producing genius of finance and in mass production. She has erected the tallest skyscrapers, she is destined to lead in the art of gracious living, in cultural development and activity. This is the dawn of a new era that will go down as the American renaissance.

"We are interested in hearing from everyone, who is interested in this organization, and will like to work, but who has not been called upon. Will you please call 284 and leave your name. Our headquarters at the Chamber of Commerce."
