"What a Tangled Web!"

THE explanation of WHY M. O. Wilkins, the News candidate for District Attorney, on Thursday last, before 200 voters in Ashland, went on record against that paper's "paramount issue," the recall of Judge Norton, is interesting.

That M. O. Wilkins DID repudiate the recall, neither he, nor they, deny. But the News-Fehl uplifters, now claim, he lacked the courage to tell the voters of Ashland the truth.

Mr. Wilkins they declare is NOT opposed to the recall. He is opposed to Judge Norton. And if the recall of Judge Norton appears on the ballot, he (Mr. Wilkins) will vote for it.

In other words, when Mr. Wilkins told the people of Ashland in explicit terms, he not only opposed Judge Norton's recall, now, BUT HAD ALWAYS OPPOSED IT; that he had now and always had had, the greatest confidence in Judge Norton's integrity, ability and high sense of justice, he was, they declare, NOT TELLING THE TRUTH.

He was scared. He told the people of Ashland he felt one way, when he felt exactly the reverse, because "he could not afford to be ostracized by the entire legal profession."

This the News cries is "INTIMIDATION!" It claims there is a legal and judicial trust in Jackson county, which makes the recall of Judge Norton MORE IMPERATIVE THAN EVER BEFORE.

And also, we assume, the election of Earl Fehl as county judge, and the election of M. O. Wilkins, as District Attorney, ALSO more imperative.

TAKING such a stand, indicates to us at least the News-Fehl duo must have come to regard their cause as desperate. For while there is essentially nothing more absurd, in asking the people to select as their District Attorney a man, who confesses HE LACKS THE COURAGE TO TELL THE TRUTH;

than to select as their county judge a man who BELIEVES JUDGES SHOULD MAKE SECRET DEALS AS FAVORS TO PERSONAL FRIENDS; in the former case, the OLD Dutch cleansers are forced to repudiate THEMSELVES, which even in this crazy campaign is rather a "desperate" thing to do.

For in the same issue in which Mr. Wilkins' repudiation of his repudiation is "explained," the official organ of the News-Fehl (and now Wilkins) uplift takes the following forthright and unequivocal stand:

The News has declared in the past that it would rather give its support to a man they knew was wrong, than to lend their support to a man who lacked the courage to stand for the things he knew to be right.

In the political campaign now being waged in Jackson county, the News will not support any candidate who straddles the issue where a principle of right or wrong is involved.

But certainly the principle of right and wrong is involved in this "paramount issue" in Jackson county,—the recall of Judge Norton. On Thursday of last week Mr. Wilkins told the people of Ashland, he was OPPOSED to the recall; less than 48 hours later, he told the people of Jackson county, through the Daily News, that he FAVORED it. If that isn't a "straddle," then what is the meaning of the term?

CAN it be that the News is now going to repudiate its candidate for District Attorney, who "lacked the courage to stand for the things he knew to be right," after explaining so carefully that this stand was solely the result of intimidation, by the Judicial Legal trust, to which this candidate "does not belong," and against which he is waging such a gallant fight!

That it seems to us would be even more embarrassing than this explanation must be, for it would involve, deserting a loyal servant in the holy cause who in spite of the damage to his reputation when the crucial test came stood by the leaders of that cause, and joined with them behind the paramount issue, of kicking Judge H. D. Norton out, and putting "Judge" Earl H. Fehl in.

IT will be interesting to see what the outcome will be. The Mail Tribune HOPES the News will stick to its guns, and withdraw its support, from its candidate who, according to its own statement, "lacked the courage to stand for the things he knew to be right."

For such action would go far to clear the local political atmosphere. It would be hard on Mr. Wilkins we admit. But after all the cause of truth telling, the courage to stand for things that are right, is more important than he or any other individual in this campaign.

AND ON THAT BASIS, placing truth above falsehood, right above wrong, the Mail Tribune would gladly join the News, and work with them (we trust) in reasonable peace and harmony for the rest of the campaign.

various measures, and thus be prepared to vote upon them intelligently, when the time comes. A month before election day, is not too early to begin.

THE great soldiers' home project in Roseburg is slowly taking shape as a reality, and the buildings may be seen looming up off to the left of the Pacific highway as you go out of the city to the north.

THE construction payroll in the soldiers' home amounts to about \$1000 a day. In spite of all the complaining, it has undoubtedly helped Roseburg in a solidly prosperous little city; probably in better shape than the average.

THE real benefits of the soldiers' home will become apparent after it is finished and its permanent population arrives. It will then become a big item in the city's development.
