

# TROOPS SUPPRESS CANADA CONVICTS RIOT FOR 'MAKINS'

KINGSTON, Ont., Oct. 18.—(AP)—Quiet was restored today at Portmouth penitentiary, on the shore of Lake Ontario near here, where troops were called last night to quell a riot of the 606 prisoners in the institution. The riot, in the course of which the prisoners threatened to set fire to the prison buildings, was reported to have begun over a demand by the men for cigaret papers, more tobacco and longer recreation periods.

Two of the prisoners were injured. The soldiers fired several volleys. They finally withdrew after the prisoners threatened to burn down the buildings, including those in which they had barricaded themselves, if the troops remained.

Previously, the prisoners had captured acting Warden Gilbert Smith and held him for a brief period when he entered the building in which they were confined, to attempt to persuade them to quiet down.

The last of them were finally persuaded to abandon the attempt by another prison official, whose name was withheld.

While the 600-odd men screamed within their stronghold, a huge crowd outside the prison was kept a quarter of a mile away by police. The riot began at noon and lasted until sundown. Persons in the crowd said somewhere between 30 and 100 shots were fired after the troops arrived.

First reports of the cause of the outbreak said the prisoners had become enraged when one of their number, working on a quarry gang outside the walls, was caught in an attempt to escape.

This story said the other members of the quarry crew then refused to work and were taken back to the prison, where they balked at being led at midday into the cell block.

Persons who claimed to know, said the trouble started about 3:30 p. m. in the tailor shop. The prisoners, they said, rushed to the doors leading into the central passages of the prison and blocked them with large stones. Acting Warden Smith forced his way in and his detention followed.

Meanwhile, the disturbance had spread and the troops were called.

# CALIFORNIAN SEES DRIFT TO HOOVER

Arthur J. Rose of Long Beach, Calif., a former well known resident of this valley, who for many years lived on Griffin creek, spent Monday in the city visiting old friends. Mr. Rose is now a resident of Long Beach, Calif., engaged in the engineering and contracting business.

"A month ago California was in the Roosevelt column," said Mr. Rose, "but in the past three weeks there has been a steady drift. Right now Hoover has an edge, where two months ago it was a Democratic victory. California, like many other western states fear Democratic tinkering with the tariff, with its European competition and low wages. President Hoover's stand on the bonus payments and his speech at Des Moines, changed the sentiment in California, and brought a swing in his favor."

Mr. Rose was accompanied here by his brother-in-law, Houston Ling, editor of the Treks Daily News.

# Brief Fatalities

PORTLAND, Ore., Oct. 18.—(AP)—Accidental discharge of a bullet in a rifle barrel last night cost the life of Bert Whalen, 17. He was carrying the dismantled parts of the rifle and dropped the barrel which contained the cartridge.

Here's amazing relief from that miserable clogged-up feeling of head colds and nasal catarrh. The new Vicks Drops open air-passages—reduce swollen membranes—and soothe irritation. Used in time, a few drops up each nostril will prevent many colds altogether.

Introduces New Colds-Control Plan  
You have Vicks VapoRub, of course—the family standby for treating colds. Now get Vicks Nose Drops—the new aid in preventing colds—and follow Vicks Plan for better Control of Colds. It is fully explained in each Vicks package. Colds will be fewer and less severe—their cost cut more than half!

# Phoenix Group At Grangers Council

PHOENIX, Oct. 18.—(Sp.)—Mr. and Mrs. O. C. Maus, Mr. and Mrs. Ray Ward, Mrs. Florence Drake and Mrs. Lillian Coleman attended the meeting of the Grange council at the courthouse Thursday night. This council is composed of all the masters, lecturers and home economics chairmen of the subordinate and the Pomona Grange.

BAKER—A. J. Durr opened shop on Broadway, next to Baird's Preferred grocery, for sale of home-made sandy and potato chips.

BAKER—Excavation preparatory to construction of Christian Science church at Third street and Washington avenue, started.

# CITY WILL HEAR AUTHOR OF NOTE SATURDAY NIGHT

(Continued from Page One)

there are authentic Arabian Nights. When he plays polo, the game becomes an epic. When he files above a Turkish battle in Mesopotamia, the scene is more vivid than reality to lesser imaginations. When he chooses the way, pursuing strange but impressive Hindu pundits in search of truth, the congruity is convincing, because he is convincing and sincere. It is to be doubted if there is another man from the western world who has had his experiences. And we are told that the climax to this good fortune is that he can tell his experiences in a most fascinating manner, as all who have read his books can testify.

When here he will speak on Yogi, the strange occult philosophy of the Far East, and it is believed the message he brings will not only be of interest but of benefit to his hearers.

The admission will be \$1.00. School students at half-price, 50 cents.

# MONT. WARD HOST TO 4-H LEADERS

An extensive program and plans for entertainment has been outlined for the outstanding 4-H club members from Idaho, Montana, Utah, Nevada, California, Washington, Oregon, Arizona and Colorado, who will be the guests of Portland and Oregon 4-H clubbers during the Pacific International Livestock exposition, October 13-22, 1932.

Wednesday, October 18, has been designated as "Montgomery Ward day" in the official program outlined for the 4-H club members. For several years this company has been host to all 4-H club members attending the exposition on one day of the week. This year the entertainment will include a boat trip on the Willamette river, luncheon and a matinee at one of the downtown theaters. The champion home economics demonstration team members from each state will be especially recognized as they are Ward's guests for the entire trip.

The 1932 fair winners in the home economics demonstration contest for the state of Oregon are the Misses Helen and June Clark of Russellville, Ore. These young ladies are from Gresham county, Oregon, and com-

# peted against 38 other teams at the state fair. They will represent Oregon at the Pacific International exposition at Camp Plummer contest, presenting a sewing demonstration. Miss Helen Clark was winner of the state style show, modeling garments which she made in club work.

Headquarters for these young people will be at Camp Plummer on the exposition grounds. Prize-winning animals and some economic exhibits from the various state fairs will be on display in the 4-H livestock barns and Penney hall. Monday and Tuesday of the show will be devoted to contests and demonstrations. State champion judging teams in home economics, meat, livestock, poultry and rabbits will vie for interstate honors, while an agricultural and home economics demonstration team from each state will compete for the Plummer trophy.

At the Monday night rodeo, Theo. B. Wilcox, president of the Livestock Pacific International exposition, will entertain as his personal guests the 4-H club members exhibiting or taking part in contests at the exposition.

# SEEK LOCATION OF AGED MINER

Ruth G. Memory an attorney of Los Angeles, Cal., has written to Coroner H. W. Conger seeking information on the whereabouts of Andrew Dutton, 72, a bachelor and prospector, thought to be in southern Oregon.

The letter is as follows: "This office has been retained to conduct a search for one Andrew Dutton, in order to clear up the mystery of his disappearance and also to assure his financial independence for his remaining years."

"He was a prospector about 72 years of age, tall and slender and wore a mustache, and he is a bachelor. The conditions surrounding his disappearance indicate that he is either dead, insane or has suffered a lapse of memory. Will you, therefore, be kind enough to search the death records in your county for either one of that name or an unidentified party that answers to that description, likewise the hospital and psychopathic records."

"Kindly communicate any information you may have to the undersigned, which will be greatly appreciated. My clients are offering a reward of \$50 for information leading to this man's present whereabouts."

# HIGH EDUCATION TO OPERATE UPON ITS OWN INCOMES

(Continued from Page One)

Dr. Kerr spoke of a three-point program providing that there shall be no increase in student fees; no requests to the legislature for additional appropriations; no requests to the legislature for additional appropriations, and that budgets shall be adjusted on the basis of income available from present legislation.

The chancellor said such action must be taken in spite of reduced income from student fees as the result of decreased enrollment, and from the millage tax, owing to decrease in property valuation.

The board agreed to broaden the authority of the chancellor to extend his jurisdiction over the business of the office, physical plants, registrar's office, information service, publications and news bureau. He was designated as the "chief executive officer," responsible to the board.

Budget reductions estimated at 7 per cent for the first year and 6.5 per cent for the second year will have to be made, Dr. Kerr said, because of anticipated shrinkage in millage receipts and student fees. He assumed, he said, that the appropriation of \$1,181,000 referred to the people would be lost. The higher education system started the year with a slight balance since \$25,000 can be saved in administrative expenses under the new setup.

# PULLETS DO RIGHT BY THEIR OWNERS

—Win National Contest Awards

United States egg laying contests are seeing a powerful entry from a California poultryman, George C. England, owner of England's Egg Ranch at 1208 Centralia Boulevard, Inglewood, California, is a constant feeder of NOPOO XX. He knows that NOPOO XX allows a uniform, dependable supply of Concentrated Vitamin D, so necessary for his modern high-producing birds—and says—

"... We have been winning our share of honors, some of them world records, so to speak, and this year up to the present time (May, 1932) we have the distinction of owning the highest pen in all of the North American contests."

"That's high honor—we'd say—Now continue—

"This is the pen which we have entered at the Texas National Contest where the eggs are individually weighed and the awards made on egg weights. We are also leading the Arizona Contest by 152 points over our nearest competitor and well up at the top of the list in the Washington and Michigan contests. These pullets were all raised on feed containing NOPOO XX."

"What 15 Professors of Poultry Husbandry Say About Feeding Vitamin D," is a special letter-also folder is yours for the asking. If you're not a poultryman, show this ad to your neighbor who is. The folder is quite worth while. No charge—postpaid. Address a letter to NOPOO, 465 California St., San Francisco.

REDUCES FAMILY'S COLDS-TAX

"Nature in the Raw is seldom MILD"

THE INDIAN RAID  
"Nature in the Raw"—as portrayed by the celebrated artist, Fred Madan... inspired by that wild, bloody scramble of covered wagons in the Colorado Gold Rush (1858), as described in the National Geographic Magazine. "Nature in the Raw is Seldom Mild"—and raw tobaccos have no place in cigaretttes.

# No raw tobaccos in Luckies —that's why they're so mild

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted" That package of mild Luckies
