Women of Copco Edit Hallowe'en Issue of Flashes

The October edition of the Forum Flashes issued by the Copco organization, was distributed Friday. It is a twelve page Hallowe'en number, is resplendent with a bright yellow cover in keeping with the season and has an attractive Hallowe'en cut on the front page.

It is the annual girls edition and was under the personal supervision of Estella Dorgan. It is a very creditable issue, as to news, illustrations and neatness of appearance, and contains illustrations of Castle Crags, the historic battle rocks, Medford municipal airport, the Yreka city ball team, taken in 1905, and the recent Gold Rush days celebration in Yreka with stories about each.

A feature of the number is the snappy jokes.

BLAKE, MOFFITT TO KEEP BRANCH HERE

A. R. Woodill, manager of the Medford branch of Blake, Moffitt and Towne, declared today that rumors which he had been informed were in circulation that the firm would discontinue the local branch, were entirely without foundation. According to Mr. Woodill the Medford branch has shown a consistent gain since establishment over three years ago and is at present enjoying a very creditable run of business.

A. Z. Sherris, former representative of the company in this territory, and now sales manager with headquarters in Portland, is in Medford today renewing old acquaintances.

GATES WILL TALK IN SAMS VALLEY

C. E. (Pop) Gates is surprising even his most ardent supporters by the way he is winning support in the rural districts of the county, it being generally conceded that if he can get an even break outside of Medford, he will win by an overwhelming majority.

According to those who have attended Gates meetings, there is every indication he will get more than an even break—some enthusiasts even maintaining he will carry every precinct in the county.

At Butte Falls Saturday night all records for rural political meetings in the history of northern Oregon were broken when over 300 attended the Gates reception and dance, people flocking in from a radius of ten and 15 miles. The night before the independent candidate addressed a most enthusiastic meeting in Jacksonville, his program for farm relief meeting with tremendous favor.

Wednesday night Pop will hold a meeting at Sams Valley school house in Sams Valley under the sponsorship of the Sams Valley grange and all residents of that district are urged to attend. He will have something of genuine interest to say to those living in that part of the county, and it is rumored will bring a few surprises of local interest.

What the Girl Scouts Are Doing

By Mrs. D. J. Wilson

Following is the new badge recently planned by the National committee to replace the now obsolete Home Service. This new badge, while retaining the same symbol is called "Homemaker."

2. Three of the following daily household tasks for a period of not less than three weeks:

 - c. Cleaning the bathroom.
 - d. Dusting.
3. Three of the following weekly household tasks for a period of not less than two months:
 - a. Weekly cleaning of the girl's room, living room or equivalent.
 - b. Cleaning the refrigerator.
 - c. Polishing silver and other metals.

 - d. An elective task approved by the captain and mother.
 - e. Plan and cook a breakfast, dinner and supper, or luncheon at least twice each.
 - f. Demonstrate at the request of the examiner ability to do the work done under requirement 1.

The Homemaker badge is for girls who wish more practice in household work as well as for girls who must do a great deal of household work. It offers an opportunity to develop interesting and efficient ways of doing necessary tasks, to develop habits of helpfulness, and thus carry out the Girl Scout promise to be useful. Girl Scouts should consult their mothers and captains before deciding on the definite tasks to be done, and should read the material on home-making in the manual. A high standard of performance, the result of much practice, should be required by the examiner.

I suggest that you clip this and paste it in your handbook.

CHURCH EXPANDS ACTIVITY DESPITE DROP IN INCOME

NEW YORK—(AP)—In spite of a reduction of about \$157,000 in income, the extension boards of the Congregational church have increased their activities, a report by Dr. Ernest M. Halliday, general secretary, shows.

The report, which is for the fiscal year ending March 31, 1932, will be submitted to the annual meetings of the Congregational Home Missionary society, the Congregational Church Building society, and the Congregational Sunday School Extension society, to be held at Oak Park Ill., on November 2 and 3.

The number of Congregational missionary churches in this country has increased in one year from 614 to 643, says the report, and the total membership of aided churches, missions, and preaching stations has gained from 30,817 to 33,245.

The Sunday school enrollment has increased 3700, and there are 14 more home missionaries than there were a year ago. The months of service totaled 4657, an increase of 435. Only seven churches reached self-support, however, as compared with 11 for the year before.

1¢ WILL DO THE AVERAGE FAMILY WASHING

MANY PEOPLE

do not understand how cheap electricity really is. The average electric washer, for instance, can be operated from one hour, to two and one-half hours, for 1 cent. A large four-tub washing can be washed spotlessly clean in the modern electric washer in one, to one and one-half hours. Electricity is so clean, is so easy to use, operates so quietly and is so very efficient that many times we fail to realize how much service we receive for the small amount of money we pay.
