are intended to do. "I am in favor of them, and I shall vote for either one that is presented at the next session."

"Another agricultural measure is the Fraser bill for refinancing farm mortgages. I cannot discuss this measure in any detail, but it undertakes to give to the farmer the same kind of refinancing relief that the federal government has already given to other great industries. It provides for federal loans upon the security of the farm itself and its object is to get the farming industry out from under the staggering mortgage load it is now carrying, and to refinance those mortgages at 3 per cent. The Democratic candidate has never given his views upon this particular measure."

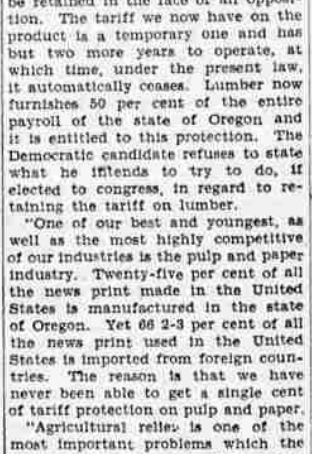

Mr. Mott also declared against interstate financial racketeering and the federal government should have supervision over holding companies doing interstate business; for federal appropriations equal to our annual tax loss of government-owned property; for federal aid in development of rivers and harbors and for adequate federal aid to assist present and future employment.

Mr. Mott visited different parts of the county yesterday and today. He will speak on national issues over KEMED this evening from 6 to 6:15; also at an ex-service men's dinner in Ashland at 7 p. m. and at a big Republican meeting in the city hall at Ashland at 8 p. m.
