Twenty-Seventh Year

Comment on the Day's News

By FRANK JENKINS.
LESS than a week from the time these words are read, the election will be over and the results will be known. Will you be glad or sorry? This writer, for one, will be glad. Certainty is always better than suspense. In the past few weeks, the outcome of the election has caused a lot of suspense, and suspense is always bad for business.

THIS WRITER, as often stated in this column, expects to vote for Hoover. He believes that election of Hoover will inspire more confidence in the business future than election of Roosevelt.
Business has always had more confidence in the Republican party than in the Democratic party—possibly because of the tariff tradition.
And confidence, above everything else, is what we need right now.

BUT this writer, who expects to vote for Hoover, doesn't propose to fall into the habit of thinking that if Roosevelt is elected all is lost. This is a great country, with great possibilities. These possibilities won't all be destroyed by the election of Roosevelt.

SENATOR William E. Borah, speaking at Emmett, Idaho, tells his hearers:

"If you could solve the question of lowering your taxes and finding a market for your products, you could work your own way out of this depression."

There's a lot of truth in that statement.

HOW will these questions be solved? By voting, do you reckon?

Probably not. Voting is too easy. If we could solve all the problems that vex us merely by going to the polls and voting, life would be a rather simple affair.

Unfortunately, we can't do it.

HOW will the problem of lowering taxes, which is a very important problem, be solved? By the promises of men who want to get into office?

Again, with due deference to the men who are doing the promising, most of whom are sincere, we must answer: "Probably not."

When taxes are reduced, it will be done by a lot of serious-minded men who get together and decide that something has to be done.

AS FOR finding markets for our products, that will be done by capable men who find that they can make a little money for themselves by doing it.

After all, most of our REAL progress is brought about by men who find new ways of making money for themselves.

Don't lose sight of that fact. It is the hope of making a profit that spurs men on to do really big and important things.

IT WAS the hope of making a profit, for example, that led men to build the first railroads into the West, and if it hadn't been for the railroads that were built into the West would still be a wilderness, inhabited by Indians and roamed over by the buffalo.

TOTAL expenditures of the Oregon Highway Commission for the coming two-year period, we read, are to be reduced about \$7,500,000, or approximately 25 per cent.

That doesn't tinkle pleasantly in our ears. We like to read of INCREASING highway expenditures, with the prospect of more employment and more roads to travel.

But don't forget that if you take more water out of a barrel than runs back into it the barrel will become EMPTY in time. And so it is with highway funds. We can't take out more than we put back in—we can't, that is, without getting into trouble.

IT WOULD be fine if we could go on building highways here in Oregon on the same scale in the future as in the past. But with revenues declining, we can't do that. We shall have to cut our garment according to the cloth, and the able business men who compose the Oregon highway commission, realize that fact.

Foot of Snow At Crater Lake

Word received at the Crater national park office here today by Publicity Director Ernest A. Rostel stated that snow was a foot deep in the park and up to this forenoon it was still snowing. Mr. Rostel said that trips to the park were not advisable, as the forecast indicated continued snow.

Umatilla Windswept

BENTLEY, Ore., Nov. 2.—(AP)—High winds from the west were sweeping the Umatilla country today. There was but little damage.

COPCO AND ROAD DISTRICT AGREED ON LAKE CUTOFF

Diamond Lake Road District and Power Company to Ask Authority to Locate Route for Connection

ROSEBURG, Ore., Nov. 2.—(AP)—Another step toward construction of the proposed Roseburg-Diamond Lake highway by the North Umpqua river has been taken here by the reaching of an accord between the California Oregon Power company and the North Umpqua-Diamond Lake road district, whereby the federal power commission will be jointly asked for authority to survey and locate the road to connect with the existing forest road extending to Steamboat Creek ranger station, 45 miles east of this city.

Power company officials and highway district trustees announced here today that the company has agreed to modify its power development plans so as to eliminate projects below Steamboat Creek junction with the river and to confine its activities to the eastward point of Tokete Falls and locations in the upper Cascade region.

Plans Altered
Power and road plans above the falls do not conflict. The power company's plans originally called for erection of dams below Steamboat Creek that would have forced location of the paralleling highway from the river bench to high hillsides, where suitable grades and alignment, it was declared, could not be secured.

As the land involved is included in power withdrawals, consent of the federal power commission to the survey and location change is required. The road, when established, will reduce the distance from Roseburg to Eastern Oregon points by 84 miles and will provide an east and west route through the Cascades which could be kept open for all-year travel.

For several years a special road tax has been levied in Roseburg and vicinity, comprising the affected road district, and funds thus accumulated will be used in co-operation with the federal bureau of public roads in the survey and construction.

CORN LIKKER MAY MAKE LIZZIE GO

YORKVILLE, Ill., Nov. 2.—(AP)—The possibility that a type of "corn likker"—ethyl alcohol distilled from corn—may be used instead of gasoline as motor fuel to furnish a market for millions of bushels of grain, is being investigated.

Tests of six different types of motor cars were conducted here yesterday under supervision of J. J. Groeneken of Aurora and the Kendall county farm bureau, and tended, the demonstrators said, to bear out European reports of the value of ethyl alcohol as a motor fuel.

Pear Markets

NEW YORK, Nov. 2.—(USDA) (P) Pear auction prices: 16 cars arrived; 7 California, 3 New York, 2 Oregon, 5 Washington cars unloaded; 39 cars on track.

CHICAGO, Nov. 2.—(USDA) (P)—Pear market: 2 Oregon, 1 California, 1 Washington cars arrived; 9 cars on track; 2 cars sold.

Woman Held In Death of Child

PORTLAND, Nov. 2.—(P)—Mrs. Geo. Smallwood of Vancouver, Wash., was held today on a charge of involuntary manslaughter, following the death last night of Margaret Jane Coleman, three years old, who was struck by an automobile driven by the Vancouver woman.

Regular Dividend General Motors

NEW YORK, Nov. 2.—(AP)—The General Motors corporation today declared the regular quarterly dividend of 2 cents on the common stock.

Study Sample Ballots And Vote Early Advice To Facilitate Counting

Voters in the general election next Tuesday were requested today by Delta Stevens Mejer to study the sample ballots, now available, before going to the polls, so that they can cast their votes with the minimum of time, and facilitate the handling of the expected rush. Voters were also urged to vote early and avoid the last hour jam. The following of these two suggestions, the county clerk said, would speed up the voting and prevent congestion in the polling places.

BRITISH BOBBIES HALT ONSLAUGHT OF HUNGRY ARMY

LONDON, Nov. 2.—(AP)—Balked last night in their third attempt to enforce their demands by violence, the unemployed "hunger marchers" who straggled into London last week turned homeward today.

W. A. L. Hannington, the communist agent who organized the march of the idle from Scotland, Wales and the industrial centers of England, was in jail. His associates who precipitated a riot in Parliament Square last night also were in the hands of the police.

So this morning 30 ragged men who had trudged with the others through the rain last week climbed aboard a charabanc and started back for Brighton whence they came. Other contingents prepared to go back home before the end of the day.

Bloody Riot in Square
Meantime, the historic precincts of Parliament Square were in the hands of police after a mass attack by thousands of jobless had precipitated the bloodiest of four recent riots.

The disorders began at dusk in the heart of the capital and quiet was not completely restored until nearly midnight. Scores suffered minor injuries.

This was brought to a climax a series of disturbances that began, as last night, in a march on parliament to protest against the government's application of the dole system.

Over 100 injured.
The first disorder came October 21 when parliament reconvened. The national "hunger army's" arrival in London last Thursday was the signal for the second, and the third came Sunday night in Trafalgar Square when a rush was made for Buckingham palace, the residence of the king.

All told, the seriously injured in riotous London included 15 taken to hospitals last night and released after treatment.

GLEN BRENNER IS HURT BY TRACTOR

Glen Brenner, who lives on a ranch in the Wimer district, was seriously injured at noon yesterday, when the steering wheel of the tractor he was driving broke, causing him to fall beneath the machine, both wheels running full length of his body. His brother, Cleo Brenner, reported today.

Mr. Brenner, who is well known here, was driving the tractor backwards, when the wheel broke, and both feet were pinned beneath the wheel, resulting in deep cuts and severe bruises over his body, and possible internal injuries. The accident occurred in the gravel driveway at his ranch. One side of his face was cut by a cleat from the tractor, and the other side was badly bruised by the gravel.

Mr. and Mrs. Cleo Brenner arrived at the ranch yesterday afternoon only a few hours after the accident occurred. Mrs. M. Brenner of Portland is visiting her son, Glen.

Gale Whips Coast And Goes Inland

PORTLAND, Ore., Nov. 2.—(P)—With only minor damage in its wake, the first gale of the season passed inland today and continued eastward after having whipped the Oregon coastline, sending small craft scurrying to harbors and delaying other shipping. The southerly gale reached a velocity of 64 miles an hour during the night, striking up an angry sea. Heavy rain accompanied the wind.

China Grain Deal May Yet Be Made

SPOKANE, Wash., Nov. 2.—(AP)—Officials of North Pacific Grain Growers, Inc., regional marketing agency, said they were advised today that the reconstruction finance corporation had "reopened negotiations" for financing the proposed \$17,000,000 business credit wheat sale to the Chinese government.

GREATEST VOTE OF HISTORY TO MARK ELECTION

Survey by Associated Press Shows Nearly 47,000,000 Eligible — Six States Report Decline in Registry

(Copyright, 1932, by the Associated Press)
WASHINGTON, Nov. 2.—(AP)—Voting precincts in nearly every city, town and village in the United States will be the converging points next Tuesday for the greatest army of qualified voters in the nation's history—approximately 47,000,000.

A survey by the Associated Press, just completed, places the total number of persons eligible to take part in next week's balloting at 46,955,239, an increase of four and a half million over the previous record in 1928 and over 10,000,000 more than the actual vote cast in the Hoover-Smith contest of that year.

Actual Vote Problematic
How many of the qualifiers will actually exercise their voting privilege is a matter of conjecture. Some election experts believe the stay-at-home vote, normally about 15 per cent, will be greater this year. Others arrive at a lower percentage.

Calculated on the basis of 15 per cent, the actual vote next Tuesday would be around 40,000,000, or 820,000 over 1928, when the record popular balloting peak of 38,789,669 was reached. In 1924, the Coolidge-Davis presidential contest drew 39,061,492 voters to the polls. Some

STOCK SWINDLERS HAD CLEVER RUSE TO EXTRACT COIN

State police, investigating the activities of swindlers in Medford last week, stated today they believed the man giving his name as "Mr. Berkly," and the woman who answered the name of "Mrs. Miller" and "Mrs. Brown," members of a national organization which has all activities carefully planned in advance.

The couple in Medford several days ago were successful in obtaining \$500 from a well-known local man whose name is being withheld by officers, and also attempted to work the same scheme on J. J. Steiger of 122 Oregon Terrace, it was reported by state officers.

This theory was advanced following a check on their actions and a telegram received October 27 by Mr. Steiger from a Chicago firm, concerning the price on a certain Copper company stock, which Mr. Berkly of New York was allegedly in the city to buy.

His nephew in Phoenix, Ariz., where the copper company headquarters are located, had advised Mr. Berkly to buy up several blocks of stock owned by people in this district, the man told Mr. Steiger.

The local man said he was first contacted by the well-dressed, suave gentleman, who he found carrying blackberries in his backyard one afternoon. Berkly introduced himself, and said he was interested in obtaining the sales price of the Steiger house, as a friend, a "Mr. Hoyt," living in

GRANGE MASTER IS LIONS' GUEST

At the meeting of the Lions club this noon, Ray Gill, master of the Oregon State Grange, was a visitor, and spoke of encouraging cooperation of rural districts and the cities. He also informed the group that various communities are taking care of agricultural products in their own districts.

It was announced the community relief kitchen sponsored by the Lions club will soon be started. Other visitors were Bob Carey, R. E. Wagner of Portland and Gus Ulrich.

Thomas Cannot Vote For Self

ELLENBURG, Wash., Nov. 2.—(AP)—A small fortune of 26½ pounds of gold, so pure that it needs no refining, was on the way to the government assay office today and its owner, Gilie Jordan, has also stored away many fruit jars filled with the same precious metal but a little less pure, together with 300 pounds of heavy gold-bearing rock.

Roughly estimated by jewelers and bankers as worth at least \$10,000, Jordan revealed that his last week's haul, which included the whole Swedish mining area in the Eastern Cascade and 18 inches wide. The Srauk basin is about 25 miles from here and was a heavy gold-bearing area in the late '90s.

Jordan bought the claim just a week previous to his find from Roy Milne, who had uncovered a \$250 pocket of gold but who wished to give it up. About three feet lower down, Jordan and his helper made their strike, they said.

Mining men said the heavy wire texture showed that the gold was not an original rock deposit, but had flowed while still hot from some original seam in the rock, from some nearby vein.

CAMPAIGN BROADCASTS

(Time in Eastern Standard)
Tonight (Wednesday)
WEAF-NBC, 8:30—Republican Radio League, (5:30 local time).
9:00—Democratic, James M. Cox from Cincinnati. (6 p. m. local time).
10:00—Governor Roosevelt from Albany. (7 p. m. local time).
Thursday
WABC-CBS, 3:00 p. m.—Republican Miss Mary Woolley and Miss Addie Dickerson. (9 p. m. local time).
WJZ-NBC, 12:15—Republican farm program. (3:15 local time)

BIDS ON HIGHWAY PROJECTS OPENED FOR LATER AWARD

PORTLAND, Nov. 2.—(P)—Bids on 25 state highway projects on which the totals ranged from \$1,121,747 to \$1,598,477, were opened of the state highway commission here today. While the number of bidders on each project was generally lower than on previous contracts, 158 bids were considered. Awards will be announced later in the day.

Four of the highway grading jobs ran over \$100,000 in the bids submitted. With the letting of the contracts, work will be started on more than 115 miles of highway improvement and construction of 28 bridges and trestles. Most of the work will be paid for by the federal government.

The LaDoe Logging company of Portland was low bidder on the largest job to be awarded, the 3.8 miles of grading on the Humbug Mountain Range Station section of the Wolf Creek highway, a part of the new road from Portland to the sea, in Clatsop county. Its bid was \$137,670.

Kern & Kibbe of Portland was low on the second largest job, that of grading 18.9 miles of the Odell Lake-Walker Mountain section of the Willamette highway in Klamath county. Their bid was \$132,558. The Newport Construction company of Portland was low on the 19.71 miles of bituminous surfacing on the Umatilla-Washington state line section of the Columbia River highway in Umatilla county. The bid was \$129,475. J. A. Lyons was low in the 3.55 miles of grading on the Tillamook county line-Sunset Camp section of the Wolf Creek highway in Washington county at \$100,430.

In Klamath county the 5.7 miles of grade widening and resurfacing of the Fort Klamath-Crooked Creek section of Crater Lake and The Dalles-California highways, was bid low by S. H. Newell & Co. of Portland, at \$63,739.

APPELGAETE FOLK TO GREET GATES

C. E. (Pop) Gates will speak at Applegate tomorrow (Thursday) night where a large outpouring of voters is expected. The residents of that section are taking a great interest in politics this year, particularly for the race for county judge, and Pop's fame as a forceful and stimulating talker with genuine knowledge of local farm problems, has gone before him. Even rural residents who have committed themselves to other candidates admit that Pop outclasses the field as a vote-getting campaigner.

The next night (Friday) Pop will tell the people of Central Point what he intends to do if elected county judge, while on Saturday there will be a large Gates rally, to which the women and school children are especially invited, at Talent.

INSULL, JUNIOR SAILS FOR N. Y.

PARIS, Nov. 2.—(AP)—Samuel Insull Jr., called for New York aboard the Maestric, travelling second class. He came to Paris several weeks ago shortly after his father had been indicted in Chicago in connection with the collapse of his utilities interests. He had planned to join his father in Athens, but he changed his mind last week, announcing that he would return to America where his presence was required as vice president of the Insull companies.

BODY OF WOMAN FOUND IN WOODS

State police were advised by northern California authorities that the body of Mrs. C. A. Potter was found in the Redwood forest near there yesterday in a badly decomposed state. The body of her husband was found last Thursday. The couple became lost while picking berries in the Howard hill area 10 miles from Crescent City about two weeks ago.

Officers were requested to get in touch with relatives and friends of Mrs. Potter, who is said to have been well acquainted in Medford, Ashland, Grants Pass, and northern California. Before her marriage, Mrs. Potter was Mary Jones. She was also married to a Mr. Edwards, before marrying Mr. Potter. State police stated today that if anyone acquainted with Mrs. Potter would get in touch with police headquarters, it would be appreciated.

POCKET YIELDS FORTUNE IN GOLD OF PURE ASSAY

ELLENBURG, Wash., Nov. 2.—(AP)—A small fortune of 26½ pounds of gold, so pure that it needs no refining, was on the way to the government assay office today and its owner, Gilie Jordan, has also stored away many fruit jars filled with the same precious metal but a little less pure, together with 300 pounds of heavy gold-bearing rock.

THOMAS CANNOT VOTE FOR SELF

NEW YORK, Nov. 2.—(AP)—Norman Thomas, Socialist candidate for the presidency, will not be able to vote because he did not register. During registration week Thomas was campaigning through Utah, Wyoming, Colorado and Kansas.

Thomas will spend election day in Ellensburg, after making his final campaign speech there November 2.

HOOPER PREPARES FOR JR WHICH MAY REACH WEST

Candidate Departs Tomorrow On Final Campaign Swing — Roosevelt to In-vade N. Y. for Windup

By NATHAN ROBERTSON.
(Associated Press Staff Writer)
WASHINGTON, Nov. 2.—(AP)—Returning again to his quiet study in the White House, President Hoover today concentrated on preparation for his departure tomorrow on a final campaign tour that may carry him to his home in California for election day.

Four major campaign speeches already have been mapped out for the chief executive in this last drive for re-election. He will leave the capital tomorrow afternoon on an itinerary that will carry him to St. Paul for a speech Saturday night.

Beyond that his plans today were still in a formative state, but arrangements had been made for him to dash from the Twin Cities to his home in Palo Alto in time to vote, if he desires.

ALBANY, N. Y., Nov. 2.—(AP)—Governor Roosevelt today prepared for the final bid of his presidential campaign with a week-end of speech making in New York City.

He returned to the capital last night after a whirlwind three-day motor trip through all of the six New England states. He said he was "assured that all of the New England states" would be Democratic this fall.

On Thursday, Mr. Roosevelt will go to New York City for a speech that night at the Metropolitan opera house. Friday and Saturday nights will come rallies in the Brooklyn Academy of Music and Madison Square Garden in New York.

SCHOOL SAVINGS WINNERS LISTED

In a school savings contest which has been conducted by the Jackson County Building and Loan association, under the direction of Miss Josephine Taylor, closed last bank day, and Howard school was awarded first place in the rural schools, and yesterday the Roosevelt school received honors for first place in the city schools.

Miss Laura Drury of the building and loan firm which cares for the school savings under bond today presented a picture of Lincoln to the Howard school as a reward. Other ratings in the rural schools were as follows: Phoenix grades, Phoenix high school, Oak Grove, Jacksonville grades and Jacksonville high school.

For the city schools, the Roosevelt student body was given a picture of Robert E. Lee. The Lincoln school was second, 10 per cent behind Roosevelt, with Jackson, Washington and junior high rating respectively.

INSULL, JUNIOR SAILS FOR N. Y.

PARIS, Nov. 2.—(AP)—Samuel Insull Jr., called for New York aboard the Maestric, travelling second class. He came to Paris several weeks ago shortly after his father had been indicted in Chicago in connection with the collapse of his utilities interests. He had planned to join his father in Athens, but he changed his mind last week, announcing that he would return to America where his presence was required as vice president of the Insull companies.

STUDY CLUB GROUPS TO MEET TOMORROW

From 10:30 a. m. to 3:30 p. m. tomorrow, a meeting of study club groups from points throughout the county will meet in the auditorium of the court house for a study of child development, or parent education, it was announced today by Mrs. Mabel C. Mack, county home demonstrator. All organizations interested in child development study clubs are invited to send representatives, she stated.

HALLOWE'EN VANDALS CAUSE HEAVY DAMAGE

The sheriff's office is today investigating a case of Halloween vandalism on the Midway road Monday, when youths raided the place of William Cummings and caused \$200 damage, according to the owners. Live-stock and rabbits were turned loose and an auto taken apart. The depredations were committed by a band of youths between the ages of 12 and 20 years. The Cummings home is located five miles from this city.

POCKET YIELDS FORTUNE IN GOLD OF PURE ASSAY

ELLENBURG, Wash., Nov. 2.—(AP)—A small fortune of 26½ pounds of gold, so pure that it needs no refining, was on the way to the government assay office today and its owner, Gilie Jordan, has also stored away many fruit jars filled with the same precious metal but a little less pure, together with 300 pounds of heavy gold-bearing rock.

Roughly estimated by jewelers and bankers as worth at least \$10,000, Jordan revealed that his last week's haul, which included the whole Swedish mining area in the Eastern Cascade and 18 inches wide. The Srauk basin is about 25 miles from here and was a heavy gold-bearing area in the late '90s.

Jordan bought the claim just a week previous to his find from Roy Milne, who had uncovered a \$250 pocket of gold but who wished to give it up. About three feet lower down, Jordan and his helper made their strike, they said.

Mining men said the heavy wire texture showed that the gold was not an original rock deposit, but had flowed while still hot from some original seam in the rock, from some nearby vein.

Recovers Health

AUTO CRASH SUIT LISTS \$15,000 AS ALLEGED DAMAGE

The damage suit of Leora Sommers of Ashland against Carol J. Parker, Inc., for \$15,000 alleged damages as the result of an auto accident on North Main street in Ashland, was started this morning in circuit court with the selection of a jury. The plaintiff alleges that she sustained numerous injuries as the result of the crash.

The accident upon which the action is based occurred December 21 last, when a defendant truck turned into a driveway.

The plaintiff alleges that in making a "turn-in" no proper signal was given, and that the crash came as a result of negligence.

The defendant alleges that the accident was due to the negligence of the plaintiff, in driving at an excessive speed, with defective brakes, and that proper signals were given.

A directed verdict was returned late yesterday in the suit of the Southern Pacific against the Owen-Oregon Lumber company for \$2100 allegedly due for freight shipped from the local plant to a Pennsylvania contractor in 1927. The dispute arose over the issue whether the lumber company or the contractor were responsible for the bill.

Two more auto damage suits are listed on the docket for the remainder of this week. They are the suits of Daisy Wilson against Dr. J. J. Emmens for \$10,000, alleged damages, and Samuel Bateman against the Rogus River Meat company, also for \$10,000. Both actions grew out of auto crashes in this city.

'JAFSIE' UNABLE IDENTIFY THIEF

NEWARK, N. J., Nov. 2.—(AP)—Dr. John F. Condon, the "Jafsie" of the Lindbergh kidnaping case, visited police headquarters today and failed to identify Arthur Barry, jewel thief, captured in Sussex county 10 days ago. Barry, who has been held here on the possibility he might have had some connection with the kidnaping, was placed in a lineup with several detectives. Dr. Condon looked at the men and said he knew none of them. When Barry was pointed out to him he said he had never seen him before.

"The man I gave the money to," said Dr. Condon, referring to the payment of the \$50,000 ransom money outside a Bronx cemetery, "was much taller."

Man to Man Talk.
Clear thinking, logical conclusions, forceful in utterance, but not unpleasantly aggressive, Dr. Poling did not play upon the emotions of his audience. It was a "man to man" talk, appealing to reason and authority, facts rather than a display of oratory, according to those present.

Mayor E. M. Wilson presided at the meeting, which was held under the auspices of the Jackson county civic league. Stickers and "dry" literature were passed to the audience at the conclusion of the meeting, which was considered signally successful.

WILL ROGERS SAYS:

NEW YORK, Nov. 1.—Mrs. Rogers and I looked out of our window late Monday and Mr. Hoover was coming into our hotel for the night. He is on some Chautauque circuit and was speaking in some hall here last night. Wall Street is betting two and a half to one on Roosevelt. That's a bad omen for the Democrats, for Wall Street hasn't been right in three years.

You can hear anything you want around here about the outcome, depending on who you talk to, Democrat or Republican. Tilson, Republican leader of the house, told me "We got everything east of the Ohio river and north of the line," (meaning the Mason and Dixon), Admiral Grayson says "Only way the Democrats can lose is to sell out." So take your choice.

Will Rogers.

PLEA FOR HOOVER AS DRY ADVOCATE VOICED BY POLING

Noted Crusader Tells Local Audience Re-election Will Preserve Gains Made Under 18th Amendment

ROSEBURG, Ore., Nov. 2.—(AP)—Faced by weather conditions to abandon his speaking tour in Oregon, Doctor Daniel Poling, national prohibition lecturer, left Roseburg last night for Oakland, Calif., where he is to speak tonight over a Pacific coast radio hookup.

Flying from Grants Pass to Salem yesterday evening, his plane, piloted by Elbert Parmenter of Portland, was turned back by a violent storm north of Yonolla and forced down on the Roseburg field.

Before a packed house, which overflowed into the aisles and onto the platform of the Baptist church auditorium and over a county-wide radio hook-up, Dr. Dan Poling, president of the Allied Forces of Prohibition, president of the J. C. Penney foundation, and head of other important organizations in New York state and elsewhere, yesterday afternoon told why Herbert Hoover must be kept "on the job."

"To elect Hoover will preserve the gains made under the 18th amendment; it will defeat naked repeal and the saloon system; it will tend toward elimination of abuses; confirm freedom of conscience, and confirm federal control," he declared in substance.

Roosevelt Policy Hit.
The other candidate for the presidency, he stated, strove to make party loyalty and regularity support prohibition repeal, and Carter Glass, democratic senator, was referred to as declaring: "It is a barroom judgment."
