Nullification Vs. Repeal

WE expected many to disagree with our opposition to repeal of the state dry law, but we didn't expect so many to misunderstand it.

ONE of our communicants for example, regards the Mail Tribune's opposition to repeal of the state law, as illogical.

This is true. We still believe the state prohibition law is too drastic. We regard it as little short of an outrage, that in case of certain respiratory infections and stomach disorders, where alcoholic liquors are plainly indicated, that the law should prevent it.

If the repeal of the present state law, known as the Anderson Act, would LEGALLY make this possible, we would be for it.

SUCH action we regard as merely a makeshift and an evasion. It would not change the state constitution, it would merely nullify it.

WE DON'T BELIEVE IN NULLIFICATION. We never have. Our files will show this paper opposed the action of New York state, in repealing its dry enforcement law.

THIS stand may have been a mistaken one, but it certainly has not been an illogical or an inconsistent one. Its logic and consistency has been based squarely upon this paper's opposition to nullification, national or state.

WE fully realize our stand on this moot question, will please neither the radical wets nor the radical dries. But the truth is, we do not now and never have agreed with the extremists on either side.

No important issue in this country's recent history, as we view it, more clearly needs, LESS heat and MORE LIGHT, LESS temper, and MORE sober and serious thought.

IT is really a terrific problem. It requires the highest intelligence and the best statesmanship this country can produce.

WE take our stand with the latter group. Instead of securing legalized liquor for medical treatment, by nullifying the state constitution, we favor its amendment.

Instead of trying to secure prohibition reform, by nullifying the federal constitution, we favor ITS amendment.

WE trust that makes the position of this newspaper clear, and explains why we recommended that on the question of the repeal of the state enabling act, nullifying the state constitution,—throwing all liquor cases large and small into the federal courts,—we advised our readers to vote 313 No.

IN voting for county judge next Tuesday we hope the people will not forget that the man they select for this place will hold the position for SIX YEARS.

We hope they will not forget that the county judge is the business manager of the county,—and therefore should be an experienced and capable business man.

We hope they will not forget that the county judge will also be the juvenile judge,—that he will be the one to decide what should and should not be done in matters of juvenile delinquency,—and therefore should be a fair, kindly, an "understanding" sort of man.

We hope they will not forget, that during these six years, many perplexing and involved questions of public policy will come up before this judge. He should therefore be a man, who can be depended upon to consider all sides fairly and impartially, and not be governed by malice, prejudice or spite.

That's all. We are not going to mention any names. Just think it over, Mr. and Mrs. Voter, and decide for yourself, and don't forget—"you get just what you vote for."

An Expert Speaks of the Rogue. In controversy such as that which springs perennially from the question of commercial fishing in the Rogue river, there is no lack of regional opinion for and against, some of which is selfish and some unselfish.

Communications

Must Have Jennings. Politics is one thing—sportsmanship another. "Mr. Taxpayer, Name on File," in his Wednesday's communication in your paper, is taking the one for the other.

My ideals of sportsmanship were considerably outraged by the conduct of certain Democrats during the primary election for nomination of sheriff.

There seems to be no law at present to prevent a disgruntled individual from taking pay from the county for registering votes in the outlying precincts and then using this position to influence these new voters away from the sheriff in office.

During the next two years changes will be made in our national prohibition and tax laws, bringing new and difficult problems to the sheriff's office.

The Committee of 7000, Jennings, nor anyone else has had anything to do with writing this letter. I assume all responsibility.

J. C. BARNES. Medford, November 3.

Declares Stand Illogical. To the Editor: I do not for one moment question your sincerity in the recommendations you make as to the various matters to be voted upon at this election.

I do not understand, however, that it is your desire that the Oregon state prohibition law should remain permanently unchanged. I draw this inference not so much from your recommendation in Monday's Mail Tribune, as from statements you made in the Mail Tribune a year or so ago when you apparently felt that the state law should be brought into line with the national law, at least to the extent of permitting physicians to write alcoholic prescriptions for bona fide patients.

It is my hope that you will be able to recommend voting down the bill to repeal our state law, which would have some effects quite contrary to those that you anticipate.

First, it would be construed as a vote against any modification whatever in our state law.

Second, it would undoubtedly be construed by our congressmen and senators as indicating overwhelming sentiment in this state against any modification of the 18th amendment because the state law is more drastic than the national law and if the people of this state vote against any modification whatever in the less drastic one it, the repeal of the 18th

rejection by the votes of the people, and if we are to have as good government as we want these votes should be INFORMED votes.

They should be cast by people who know what they are voting for, and WHY.

BUT if you simply haven't the time for a careful study of these measures, or won't TAKE THE TIME, here is a simple rule that it will be wise for you to follow:

Vote NO on all those as to which you are in doubt.

It is the carefully considered opinion of this writer that if ALL the measures on the ballot at the election next week were defeated no harm would ensue to the state of Oregon that couldn't be repaired.

GORDON VOORHIES. Nov. 2, 1932.

Yes and No. To the Editor: Many thanks for your positive stand on the prohibition repeal, for which not even its sponsors can find an argument in support.

As to the oleo bill, pardon me for calling attention to a seeming inconsistency: you advise voting no on the freight and truck bill, which I agree, giving as a final reason, complete in itself, "the problem should be solved by the representatives of the people at Salem, not by the people at a general election."

Now as to the oleo bill, "the representatives of the people at Salem" have already decided "yes." Nixt war?

JOHN Q. STEWART. Grants Pass. Nov. 3, 1932.

Favors Repeal. To the Editor: Although voting on repeal of the state prohibition law is similar to a straw vote, yet we feel impelled to express ourselves on it.

Voting "Yes" on it means toward support of the government and its treasury; voting "No" tends toward support of Al Capone and his gang, and as Al has made his pile in just a few years he needs our support no longer.

Approves Repeal Stand. To the Editor: The Jackson County Civic League wish to express to yourself and Mr. Frank Jenkins their sincere appreciation for the stand you have taken with Mr. Jenkins on the proposed measure on the ballot for the repeal of the Oregon prohibition law.

At a meeting last evening resolutions were passed, unanimously, thanking yourself and Mr. Jenkins and many expressions of appreciation were voiced.

The Mail Tribune has been very liberal and courteous in giving the league publicity and we are very grateful.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a creak, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up."

They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Foster's substitute, 50c at all stores. © 1931 C. M. Co.
