

Many From Medford in Football Classic Crowd Watch Prink and Boys

(By Ernest Rostel)
The Oregon university squad, coached by Prink Callison, defeated Oregon State, 12 to 6, Saturday, playing in a veritable sea of mud and in a rainstorm which persisted throughout the afternoon.

The Bell field stadium included so many Medford rooters there were indications of a "Medford day" in Corvallis. They came to watch former Medford high school stars in action. They came to watch Prink's boys in action, remembering his outstanding success as coach here several years ago. Others were former O. S. C. grads, coming back to support their old alma mater.

Most of the several thousand spectators expected the game to be won on lucky breaks brought about by slippery conditions, but were not entirely right. Oregon State's lone touchdown is attributed to a break in the second quarter when Mark Temple fumbled the ball behind his own goal line in attempting a punt. He dropped it. One Oregon State man dived for it but missed. A second covered it just a yard from the goal line. Twice the Oregon men held O. S. C. for no gain, but on the third attempt, husky Hal Moe put it over for the first score. Goal kick was missed.

DALLES HALFBACK IS DISQUALIFIED

SALEM, Nov. 7.—(AP)—George Starr, halfback of The Dalles high football team, was disqualified until December 23, according to a decision reached at the end of a 12-hour session of the Oregon State High School Athletic association board of control at Corvallis Saturday.

The announcement of the disqualification and the awarding of the game between The Dalles and Hood River, which ended in a scoreless tie, to the Hood River squad was made by John L. Gary, secretary of the board.

In brief, a statement issued following the meeting stated that the board had decided that Starr had taken articles of an intrinsic value of approximately \$13 for engaging in boxing bouts at The Dalles, the acts violating an association ruling. It also stipulated that The Dalles should forfeit all games played to date.

GONZAGA DEFEATS SAN FRANCISCO U

SAN FRANCISCO, Nov. 7.—(AP)—Gonzaga's Bulldogs went back to Spokane today with a 6-0 victory over the University of San Francisco to their credit in yesterday's clash here.

Max Kruse, fullback star, won the game for the northerners by running 26 yards to a touchdown in the third quarter, after catching a lateral pass and fighting his way through most of the U. S. F. team.

Tony Donadio, flashy little left half of the Demos, provided another thrill by running a kickoff back 61 yards in the third period.

MYRTLE POINT—Sawney organization contracted for entire remaining output of peas from local cannery.

LAST MINUTE ANTI-MEDFORD APPEAL A FLOP

(Continued from Page One)

Pipea was honored by being elected mayor of Medford, and Pop Gates was the one man who made his election certain — endorsing him and working for him throughout up to the very close of the campaign.

As one prominent Gates supporter expressed it today, "To have a former mayor of this city, for the sake of his own political preference, oppose the candidate of that city, on the sole ground that he is 'MEDFORD'S CANDIDATE,' certainly surpasses anything in the line of civic disloyalty and personal ingratitude, that has ever come to my attention. There is only one way to answer this sort of challenge. For every voter, old or young, man or woman, who has any pride in Medford, any loyalty toward it, to accept that challenge and give Pop Gates such an overwhelming majority here in Medford that no anti-Medford vote in Ashland or the rural districts can by any chance overcome it. And that in my opinion is just what the people of Medford will do."

POISON CAUSING DEATH OF BIRDS HUSSONG'S VIEW

E. M. Hussong, biology instructor at the Senior high school, after spending several hours examining a group of little birds which he picked up on Sixth street from among the many found dead there Friday, made the following report:

"The birds are young Rusty Song Sparrows or a near relative thereof. Of the three I examined, one had eaten eight grains of wheat; another had three grains of wheat and what seemed to be masses of bread or cake; the contents of these stomachs showed traces of strychnine. The third bird had eaten bits of meat, two small beetles and one grain of scorched popcorn. This bird's crop and intestines showed traces of arsenic—not positive of this—and the muscles had the knotty contraction characteristic of strychnine poisoning.

"Several other birds which I handled showed bruises on breast and wings, as if a flock of them had struck a stretch of many parallel wires.

"The sparrows and finches closely intergrade and from printed descriptions and uncolored pictures no one can identify them with certainty. Museum skins and mounts are needed for this. These sparrows are not infested with mites and bedbugs, as the English and others of our native sparrows are.

"Birds are sometimes infected with bacterial and protozoan diseases which cause the death of many of them at one time, particularly of

those which flock closely in the winter time. I did not find any troubles of this sort in those I examined."

Franklin George of Val J. Fischer service station, said Saturday that he had counted 56 of the small birds dead, between Front and Fir streets on Sixth.

Oregon Weather
Increasing cloudiness followed by rain late tonight or Tuesday in north and west portions; rising temperature; increasing southeast winds offshore.

LA GRANDE—Bids were opened November 2 for construction of highway departmental shop.

SEASIDE—Electric dairy sterilizer recently installed on Nohn Ostman dairy near here.

WINCHESTER BAY—Engineers setting stakes for south jetty construction project here.

ROSEBURG—Cinderella Shop moved to former Vogue Hat shop building.

Klamath Falls—Frank Nugent purchased service station at corner of South Sixth and East Main streets.

OREGON NEEDS HOOVER

We call your attention to the agitation now being carried on in foreign countries for lowering the American tariff. They want to share our Ninety Billion dollar market for American products, the richest market in all the world. With a democratic administration the tariff wall will be lowered. Americans will be idle. Local factories will be closed to American labor. Foreign factories will be opened. Think it over, Voters.

Oregon's Workers, Farmers and Business Men Should Carry On With Hoover

1. The Tariff
The republican party believes in a high tariff, so that the American market may be preserved to the American producer, which in turn gives employment to the American workingman, and he is thereby a supporter of the corner grocery. The republican tariff is an America-for-American's policy. The democratic party advocates a competitive tariff. That kind of a tariff was translated by Mr. Bert E. Haney, leading Oregon democrat in a speech at Portland, when he said he was talking for Roosevelt and the party to be A LOW TARIFF. He said we could get along on no tariff, or at least 50 percent of the present tariff.

2. Lumber
Republican Oregon Senators and Republican Congressmen secured the tariff of \$4 a thousand on lumber that is now opening up our mills and putting men to work. Under democratic rule, they will close again.

Stock Raising
In the countries to the north and south of the United States there are hundreds of thousands of cattle looking over a tariff wall that keeps them out of the United States. Lower the tariff wall by voting the democratic party into power and these cattle will take the American market.

4. Wool
Australian growers are holding their wool clip to see if Roosevelt is elected President and the democratic party returned to power. In that case they expect the tariff to be taken off wool and they can come in here to undersell the American grower.

5. Agriculture—Horticulture
The Reconstruction Finance Corporation and the Northwest Grain Growers Corporation are arranging the sale of 15,000,000 bushels of wheat to China. It will be consummated as soon as possible, possibly by election day. Chinese eggs are now excluded from the American market by the tariff. Japanese and Italian cherries are barred from competition for the American market by the tariff. For the first time in years, the growers of cherries in the Willamette Valley this season shipped barrelled cherries at a profit.

6. The Fisheries
Last week the President spoke to the people connected with the fisheries of Oregon, and he told them he had asked the Tariff Commission to raise the rate on the

importation of Japanese salmon, which is laid down here for one-half the cost of salmon at the American canneries. IT WILL BE DONE.

7. Reconstruction Finance Corporation

The Reconstruction Finance Corporation loaned the Hibernian Bank of Portland \$500,000, which enabled that bank to open its doors and released the deposits of 15,000 Portland citizens. 1400 individual farmers in Oregon have received loans of from \$20 to \$400 each. The wool growers of Oregon have borrowed \$1,425,000 from the R. F. C. Dairymen of Oregon were loaned \$288,000. Grain growers cooperatives of Oregon borrowed \$1,745,000. More than a million has been loaned to cattlemen's associations. Vegetable growers borrowed \$72,000 and turkey growers \$60,000. The Reconstruction Finance Corporation has aided a total of 4809 banks, trust companies, insurance companies, agricultural credit corporations and livestock corporations, having 30,900,177 individual members. Three thousand, two hundred and ninety-one of those institutions were located in towns of less than 5000 population. When Hoover put the credit of the U. S. treasury back of the R. F. C. he saved the banks, the depositors and the business of the entire nation.

Hoover Policies Have Sought to Help Every Citizen—There Has Been No "Forgotten Man."

Democratic Policies Would Put Oregon Labor and Oregon Farmers ON THE SPOT

The Democrats' tariff program would force American labor to fight the subsistence level labor of Europe, the peon labor of Mexico, the coolie labor of Asia, slave labor of Africa, and convict labor of Communist Russia in our home market.
