

### PORTLAND TURKEY SALES GREATEST ON RECORD BOOKS

PORTLAND, Ore., Nov. 23.—(AP)—The greatest sale of turkeys ever made in Portland for Thanksgiving was being concluded here today. Never before had the birds been slaughtered and sold in such numbers.

The chief factor in forcing the record movement was the price, the continued talk of low values having created an appetite for turkeys that was filled by an avalanche of birds. The better quality presented during the past few days, although far below the normal standard, resulted in better marketing but no improvement in price.

The Portland market, however, with all its record low values, stood up well along with other centers along the coast. The California trade was especially hurt by the extreme supply consigned to the market by Oregon growers and distributors. At San Francisco the general top price available for shippers of Oregon birds was about 16 cents for toms and fancy hens and 10 cents for medium.

In Portland today the price was 10 to 12 cents alive, and 12 to 18 cents dressed.

### EGG PRICE DROP COMING IS WORD

PORTLAND, Ore., Nov. 23.—(AP)—In the opinion of dealers of the trade a lower price for eggs seem likely within the near future.

E. J. Dixon, general manager of the Pacific Co-ops, said the undertone of the trade suggested a weaker movement and a lower price which may be forced almost any day.

Late advance in the price of butter was considered far too heavy and a dragging tone is suggested in the local and California trade as a result. Butter continues to show a reasonable make.

Unusually good holiday movement of cheese is reported, both out of primary sources and in the jobbing trade. Prices appear generally firm, but unchanged.

While there is a shortage of hens of all sorts in the live chicken trade, springer stuff remains very slow sale and weak as to price.

### Dependable Insurance Is The Only Kind Worth Having

When insuring your property make certain that you are assured of fair and speedy settlement of claims. Losing your property is tragedy enough without having to worry about settlements.

The dependable fire, casualty and automobile companies we represent, have gained the reputation of settling claims promptly. It's a big help to get prompt action when in urgent need of money. But in order to do this, the companies must have prompt payment of premiums in accordance with their rule of either cash or forty-five days from date of policy. We do not have mutual, reciprocal or cut-rate companies.

I am recuperating from injuries sustained in an automobile accident and have been instructed by my physician to rest and stay completely away from work for at least another month. Mrs. Gertrude Fredenburg Greb, who has had seven years' experience in accounting and insurance, Mrs. Mabel Showers and my brother L. A. Wakefield will have charge of the office during my absence. Also P. J. Newman and Geo. Neilson, Attorneys, will represent my agency.

I have been serving friends and clients here for the past twenty-four years and have always been glad to extend time on payments, but at this time I am very much in need of some settlement of your accounts and your prompt attention to same will surely be appreciated.

Very truly yours,

### BLUE GRASS PUTS ON GREEN DRESS IN SPITE OF WINTRY WEATHER

While other plants and grasses are turning a darker brown, blue grass, the famous Fox Bulbosa, is putting on a bright green dress throughout the valley, is the report today from farming regions, where cattle and sheep are grazing on the new grass which has reached a height of three inches.

C. C. Hoover, developer of the grass, stated today that he is grazing two cows in the acre and that they are getting fat without any other feed. Henry Conger, the registered Hereford man, is also feeding stock on the blue grass and so is W. H. Gore.

Two important shipments of the grass seed were also reported today by Mr. Hoover. One goes to Washington, D. C., to be sown on President Hoover's golf course, and the other to the Humphrey estate in San Francisco to be sown on California and Philippine island holdings.

Arrangements for the Washington, D. C. planting were made by Prof. H. H. Scotch of the Department of Agriculture. According to R. G. Fowler, county agent, the plantings made in the mountain regions of the Applegate by the Applegate Orange are spreading down the ridge, accomplishing a spread of 80 yards down the mountain side.

**"Nature in the Raw is seldom MILD"**

**THE WAR WHOOP**  
 "Nature in the Raw"—as portrayed by N. C. Wyeth. . . inspired by the blood-curdling yells of war-mad savages, whose barbaric cruelty held America's early settlers in a constant state of terror. "Nature in the Raw is Seldom Mild"—and raw tobaccos have no place in cigarettes.

**No raw tobaccos in Luckies —that's why they're so mild**

**WE** buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

**"It's toasted!"**  
 That package of mild Luckies
