Girls' League Gets Holiday Baskets Ready

Entering with enthusiasm into the annual distribution of the Thanksgiving baskets, the social service committee of the Girls' League, under the supervision of Miss Maurine Carroll, packed and delivered, Tuesday, 20 baskets filled with provisions.

Through the generosity of the merchants and parents, an abundance of supplies was donated. Beck's bakery gave 40 loaves of bread and the Girls' League, from their own funds, bought the meat and butter. The high school baskets of Thanksgiving cheer were given to families in which there are from two to nine members. The estimation of food donated was \$50.

The Tiger Guards, who assisted the girls with all parts of the work, are: Wilson Colbaugh, Dick Roberts, Paul Wilson, Rufus Younger, Bob Root, DeJoyce Dudley.

The social service committee is: June Davis, chairman; Dorothy Burgess, Dorothy Cully, Margaret Elliott, Lois Carter, Muriel Coke and Margaret Warner.

Those who offered cars for the delivery were: LaMorie Beck, Gertrude Boyle, Evelyn Herman, Barbara Wain, Ethel Slagle, Erna Nielsen, Anna Mae Fuson, Pearl Samuelson, Helen Stewart and Doris Schafer.

Miss Harshbarger Praises Musical Taste of Small Town

A pleasant note of the musical situation and a cheering one of the talents of the small city found in an article recently published in the New York Herald Tribune, which relates the opinion of Miss Dema E. Harshbarger, founder and president of the Civic Music Association, and a person of whom Medford has heard much since the organization of the southern Oregon branch.

"Musical taste is on a higher level in small cities and towns than in the big cities, which are supposed to contain culture," Miss Harshbarger is quoted as saying, "because there are fewer things to hear and people become more discriminating. The concert halls of New York and Chicago attract only a small proportion of the population, but in smaller cities they draw from 10 to 12 percent. The larger city the smaller the proportion of concert goers."

The first concert in this city's civic music season will be played here next Monday evening by the Gordon string quartet at the high school auditorium. Only those holding membership cards will be admitted in accordance with the established custom, and all are asked to be in their seats at 8:15 o'clock.

V. F. W. OFFICERS MAP ACTIVITIES FOR NEXT YEAR

(Contributed.)

Crater Lake post 1833, Veterans of Foreign Wars, held a peppy and interesting meeting at the Armory, November 21.

The meeting went off with a bang as it was the first for the newly elected officers, and an extensive program was mapped out for the coming year.

The post is growing in members rapidly as the veterans are taking an interest in affairs of government as never before, and the year 1933 will go down in history as one of the big years for the veterans.

Social service and relief for the needy are the two major undertakings for the year. Ashland is furnishing a large list of members and we hope more will join, as this post is centrally located and covers all of southern Oregon.

The Auxiliary of Crater Lake post 1833, Veterans of Foreign Wars, met at the Armory on November 21. Veteran relief was the most important matter discussed as there are a number of veterans in the valley who are unable to obtain employment, and there is real distress among them.

All the newly elected officers were present and showed great interest in the work and are looking forward to a very successful year.

A card party is planned for the evening of December 5, after the regular meeting, and all veterans and their friends are invited.

HI SCHOOL PAPER FEATURES GAME

The Medford Hi-Times, just off the press of the Mail Tribune job department, contains a picture on the first page of the Medford Tigers, who play Jefferson high in Portland tomorrow. There is also an editorial explaining the "mythical" football championship, by Wildon Colbaugh, and an editorial by the editor, Bill Cummings. "A Great Movement," telling of how happy the entire student body, teachers and officials are over having the chance of meeting Jefferson.

The issue contains many columns of interesting school and general news and a picture of Coach Eric Waldorf of Jefferson.

Editor Cummings, Manager Noel Benson and their associates are issuing one of the best high school papers of the state, although they are receiving fair advertising patronage.

DORMANT SPRAY IS PRESENT NEED

Pear and apple growers can well afford to take advantage of any good weather that may occur at this time and apply their dormant lime sulfur spray for the control of San Jose scale and blister mite, states L. P. Wilcox, county agent.

Liquid lime sulfur, 12 gallons to 100 gallons of water, applied any time after the foliage has been reduced to the point where coverage of branches is possible, will be effective in the control of scale insects and blister mite. Allow trees to become dry before spraying, otherwise dilution of the spray material would be such that control would not be gained.

Advantages of fall spraying are many, but especially so in case of orchards located on heavy clay soils. So many times these orchards are too wet to permit spraying operations in the spring and as a result spraying is passed up entirely.

Those growers who plan on applying sprays for scale and blister mite control should give due consideration to the matter of spraying now.

My Beauty Hint

TALA BIRELL

Study your shortcomings before selecting your clothes. That is a rule to be remembered, especially by the very tall or the very short woman.

Women have a tendency to wear whatever is the fad of the moment. Pajamas raged for a while. Many girls, like myself, realized that pajamas did not suit them and did not wear them.

My advice, therefore, is to be sure the style meets your needs before you go along with the crowd.

METRIC SYSTEM ADOPTED IN U. S.

NEW YORK, Nov. 23.—(AP)—The Amateur Athletic Union has gone on the metric standard.

Without a dissenting voice, the ruling body of amateur athletics in this country has scrapped the time-honored yardage system in favor of meters and kilometers, as the standard measurement for all track and field events.

This change, voted yesterday at the closing session of the A. A. U.'s 44th annual convention, will be effective January 1 and will apply only to track and field sports.

Advocates of the switch to the metric system pointed out that it would bring the United States into line with the vast majority of the nations of the world. Only this country and Great Britain measure their courses for track and field events in yards and miles.

Mr. Stevens, who was born in Pennsylvania, December 12, 1842, leaves nine sons and daughters—Hugh Stevens, Santa Cruz, Cal.; Roy Stevens, Pomona, Cal.; Clarence Stevens, Dayville, Ore.; Morton and Levi Stevens, Klamath Falls; Raymond Stevens, Rogue River; Mrs. W. Williams, Grants Pass; Mrs. Linnie Connelly, Rogue River, and Mrs. Roy Guyer, Medford, Ore.; 14 grand children and eight great grandchildren.

CONVENTION EXPRESSING BELIEF SUCH A CHANGE IN THE MAKEUP OF THE HOUR WOULD RESULT IN GREATER SERVICE TO THE FARMER.

The organization also reaffirmed its faith in the principle of co-operative marketing, and approved that portion of the agricultural marketing act which encourages the system.

Adoption of a "sound policy of surplus control, including debenture and a simple form of domestic allotment" was also urged.
