Auxiliary Announces Fight Against Radicals

Every woman who enrolls in the American Legion Auxiliary this year is stepping forward in defense of the American form of government, Mrs. Louise Bricker, Americanism chairman of the local organization, announced yesterday in urging all eligible women in Medford to come into the Auxiliary.

An aggressive campaign of Americanism activities designed to increase understanding of the ideals and principles of American democracy, and to strengthen loyalty to them will be conducted by the Auxiliary, she stated, during the coming year. Special attention will be given to combating radical influences in educational institutions and keeping patriotic training a part of the education of all young Americans.

"Through widespread propaganda, attempts are being made to place the blame for the economic depression on the American form of government," Mrs. Bricker added. "The Auxiliary is directing its efforts to make our women and our students understand that it is the freedom and privileges enjoyed by the American citizens under their government which made America the most prosperous country in the world and give its people the highest standard of living."

Much time is being given by society members these days to the membership drive of the Legion Auxiliary in order to promote this Americanism work in which, the leaders state, there is need for more participants.

Jenkins' Comment

But why did this Los Angeles man want spinach every day? Because he liked it? Oh, no! It was because he thought spinach would make him strong and lusty, with a chest like a barrel and muscles that bulge the sleeves of his coat, thus enabling him to strut before the ladies and at least THINK they are admiring him.

That was why he wanted spinach. THESE males! They talk a lot about the women and their weakness for fixing themselves up and making themselves look nice, and they profess to be exceedingly contemptuous of all such devices.

They are hollow frauds, these males, for at heart they are just as vain as the women.

MILK AT 20 CTS. PER GALLON FOR MEDFORD'S NEEDY

Milk, which has been absent from many family tables in Medford since the depression period, was back in the menu today in a goodly quantity, according to reports from the North Ivy street market, where a milk depot was opened this morning by Mr. and Mrs. R. L. Wyant to supply grade A milk at 20 cents a gallon to those people who cannot afford to pay the regular price.

During the first hour at the Ivy street depot, Mrs. Wyant stated this morning, 30 gallons of milk went to families of the city. A steady stream of customers was also reported from the Walden Grocery on the North Pacific highway, where the same dairy has opened another depot.

The milk is not bottle, but is grade A quality and kept in ice cans, which carry the grade A label, examined this morning by C. W. Austin, milk inspector.

The Wyants, who operate the A. W. Pipes dairy, have opened the two depots. Mrs. Wyant stated this morning, with no idea of damaging the business of the creameries, but to enable those people who cannot afford to pay the price for bottled milk, and have been doing without this very necessary food, or serving canned milk in small quantities, to provide their children with the amount they need.

"We are complying with all ordinances in this relief measure," she stated this morning, "and will continue in the work as long as we can. We plan to be here every morning." The plan was formulated, Mrs. Wyant stated, after many stories came to her of families in the city going without milk. Most of them calling this morning, she added, announced that they had families of one, two, three and four children at home and that they had been unable to give them an adequate amount, if any milk.

"I believe that there is more food value for 20 cents in a gallon of milk than in anything else a family can buy at that price," Mrs. Wyant concluded. "So we have chosen this method of getting the milk to the family."

Those wishing to buy milk at the depots are asked to bring their own containers.

budget committee regarded the boost as a form of relief, as many outlying residents' trap and kill coyotes and other varmints in the winter months. Already collection of coyote bounties has started.

The total amount listed to be raised by levy is \$377,160.88. Last year it was \$325,357.25.

The levy for schools is fixed at \$180,421.80, last year it was \$182,671.93. The school census was reduced 10 per cent. The law requires that 10 per cent be levied. The decline in forest rentals fell heaviest on the school fund.

The heaviest reductions were made in the sheriff's and county engineer's offices. The salary of the county engineer was reduced from \$2400 to \$1500 per year.

The chief county offices allowances for this year and last are:

	1932	1931

There will be no state tax this year according to present plans of Governor Meier. A bill seeking a 35 per cent reduction in the salaries of all elective officers will be presented to the next session of the legislature.

America spends 3 TIMES AS MUCH FOR SMOKE as for ELECTRICITY

THE annual per capita expenditures for electricity in 1929 amounted to \$5.00. In the same year the American public spent \$16.50 per capita, or more than three times as much, for tobacco. We spent \$8.00 per capita for ice cream—about one and three-fifths times as much as for electricity; \$8.50 per capita for candy—\$3.50 more per person than for electricity.

There is no other source of energy at any price that will light the house, refrigerate, wash and iron clothes, heat water, and provide the world's finest music in your own home at an average cost of about three-fifths of one cent for each dollar the family spends! Electricity is the cheapest thing you buy.
